**Freedom's Embrace** J. Melvin Woody, 2010-11-01 To be free is to escape all limitations and obstacles or so we think at first But if we probe further we discover that freedom embraces its own necessities a set of conditions without which it could not exist Freedom's Embrace explores these necessities of freedom J Melvin Woody surveys competing conceptions of freedom and traces debates about the nature and reality of freedom to confusions about knowledge humanity and nature that are rooted in some of the most fundamental assumptions of modern Western thought The preemption of freedom as an exclusively human privilege with all nature relegated to mechanical necessity is a fatal error that renders both humanity and nature equally unintelligible What distinguishes human beings from other animals is not freedom but the use of symbols which vastly extends the range of available options and enables us to envision freedom as an ideal by which customary institutions and norms may be judged and transformed By carefully surveying its necessary conditions and limitations Woody reconciles the salient competing conceptions of freedom and weaves them together into a richer and broader theory that resolves old controversies and opens the way toward an ethics of freedom that can meet the challenges of relativism and nihilism that arise from recognizing the historicity and malleability of culture

*Interface* Branden Hookway, 2014-04-04 A cultural theory of the interface as a relation that is both ubiquitous and elusive drawing on disciplines from cultural theory to architecture In this book Branden Hookway considers the interface not as technology but as a form of relationship with technology The interface Hookway proposes is at once ubiquitous and hidden from view It is both the bottleneck through which our relationship to technology must pass and a productive encounter embedded within the use of technology It is a site of contestation between human and machine between the material and the social between the political and the technological that both defines and elides differences A virtuoso in multiple disciplines Hookway offers a theory of the interface that draws on cultural theory political theory philosophy art architecture new media and the history of science and technology He argues that the theoretical mechanism of the interface offers a powerful approach to questions of the human relationship to technology Hookway finds the origin of the term interface in nineteenth century fluid dynamics and traces its migration to thermodynamics information theory and cybernetics He discusses issues of subject formation agency power and control within contexts that include technology politics and the social role of games He considers the technological augmentation of humans and the human machine system discussing notions of embodied intelligence Hookway views the figure of the subject as both receiver and active producer in processes of subjectification The interface he argues stands in a relation both alien and intimate vertiginous and orienting to those who cross its threshold

**The Sublime and its Teleology** Donald Loose,2011-11-25 What are we talking about when we qualify something as sublime Is it just a qualification of the beautiful in its most touching degree Is it a qualification of something outside there anyway Is it a feeling or a reflecting judgment on aesthetic appreciation And can we reduce the sublime to the aesthetic The authors of this book all take the analysis of Kant in Critique of the Power of Judgment as their primary reference The argument of this book however is to show in what way the Kantian legacy on this topic is still a main stream of inspiration for contemporary thinking whether in line with Kant or overcoming his primary impetus for modern philosophy of freedom in a critical reception

Notebooks for an Ethics Jean-Paul Sartre,1992-10 In the famous conclusion to Being and Nothingness Jean Paul Sartre announced that he would devote his next philosophical work to moral problems Although he worked on this project in the late 1940s Sartre never completed it to his satisfaction and it remained unpublished until after his death in 1980 Presented here for the first time in English Notebooks for an Ethics is Sartre s attempt to articulate a moral philosophy In the Notebooks he addresses any number of themes and topics relevant to an effort to formulate a concrete and revolutionary socialist ethics among them the differences between force and violence the relationship of means and ends and the relationship of oppression and alienation Most important he tries to show that there can be an authentic mutual recognition among free individuals where no one steals another s freedom While remaining committed to the basic principles of Being and Nothingness Sartre here seeks to locate the foundation for action in history and society The Notebooks thus form an important bridge between the early existentialist Sartre and the later Marxist social thinker of the Critique of Dialectical Reason Sartre grapples anew with such central issues as authenticity and the relation of alienation and freedom to moral values In dealing with fundamental modes of relating to the Other among them violence entreaty demand appeal refusal and revolt he highlights the notions of conversion and creation as they figure in the necessary transition from individualism to historical consciousness The Notebooks themselves are complemented here by two appendixes one on the good and subjectivity the other on the problem of blacks in theUnited States as a case study of oppression **Genesis (Brazos**

Christian Krijnen,2013-10-24 There has been an intensive debate in recent years particularly in political philosophy on how the concept of recognition Anerkennung can bring insight into understanding social and political relationships and answering ethical questions Proponents of this philosophy seek to apply German Idealism especially Hegel to the arguments of recognition in order to solve contemporary problems However does the present debate incorporate sufficiently the requirements of the idealist philosophy which it pretends to inherit and update As a new paradigm for philosophy claiming to

actualize German idealist philosophy it provokes questions about the foundation of the principle of recognition itself as well as about which philosophical method provides the best means for addressing recognition In *Recognition German Idealism as an Ongoing Challenge* renowned authors address this fascinating and far reaching questions in discussion with Kant Fichte Schelling and Hegel Contributors include Robert Brandom Paul Cobben Simon Critchley Pirmin Stekeler Weithofer Kenneth Westphal Klaus Vieweg Erzs bet R sza Christian Krijnen Heikki Ik heimo Donald Loose Kurt Walter Zeidler Jean Christophe Merle Sasa Josifovic Arthur Kok Emiliano Acosta *Living with Indifference* Charles E. Scott,2007-05-18 *Living with Indifference* is about the dimension of life that is utterly neutral without care feeling or personality In this provocative work that is anything but indifferent Charles E Scott explores the ways people have spoken and thought about indifference Exploring topics such as time chance beauty imagination violence and virtue Scott shows how affirming indifference can be beneficial and how destructive consequences can occur when we deny it Scott s preoccupation with indifference issues a demand for focused attention in connection with personal values ethics and beliefs This elegantly argued book speaks to the positive value of diversity and a world that is open to human passion *Going Against the Flow* Alan M. Laibelman,2004 Most contemporary efforts in philosophy treat metaphysics and ethics as isolated arenas of thought Critical analytical exploration of a multitude of ethical theories emanating from historically diverse philosophical and theological traditions demonstrates that a consistent and comprehensive ethic depends upon a solid metaphysical foundation Building upon a metaphysical scheme first explicated in *The Other Perennial Philosophy A Metaphysical Dialectic* Alan M Laibelman elaborates on a syncretistic ethical system incorporating elements from many cross cultural sources and also develops an extensive theory of consciousness inclusive of both transcendental and existential components **Sartre, Jews, and the Other** Manuela Consonni,Vivian Liska,2020-02-24 The starting point for this compilation is the wish to rethink the concept of antisemitism race and gender in light of Sartre s pioneering *R flexions sur la Question Juive* seventy years after its publication The book gathers texts by prestigious scholars from different disciplines in the Humanities and the Social Sciences with the objective of revisiting this work locating it within the setting of two other pioneering and we argue related publications namely Simone De Beauvoir s *Le deuxi me sexe* of 1949 and Franz Fanon s *Peau noire et masques blancs* of 1952 This particular and original standpoint sheds new light on the different meanings and political functions of the concept of antisemitism in a political and historical context marked by the post modern concepts of multi ethnicity and multiculturalism **Sex, Ecology, Spirituality** Ken Wilber,2001-01-02 Hailed as one of the most significant books ever published this work of far reaching vision is a comprehensive exploration of the evolution of human consciousness In this tour de force of scholarship and vision Ken Wilber traces the course of evolution from matter to life to mind and describes the common patterns that evolution takes in all three of these domains From the emergence of mind he traces the evolution of human consciousness through its major stages of growth and development Wilber particularly focuses on modernity and

postmodernity what they mean how they impact gender issues psychotherapy ecological concerns and various liberation movements and how the modern and postmodern world conceive of Spirit This second edition features forty pages of new material new diagrams and extensively revised notes      *Logos of Phenomenology and Phenomenology of The Logos. Book Four* Anna-Teresa Tymieniecka, 2006-07-09 Prompted and ever diversified by the specifically human interrogative logos scientific inquiries seek a common system of links in order to mutually confirm and rectify their results Coming closer and closer to phenomenology the sciences of life find the common ground of the reality in the onto-poiesis of life Could it not be that the interrogative logos of science participating in human creative inventiveness will bring together also the divergent scientific methods in a common network A network which comprises natural processes societal sharing in life and existential communication      Gramsci's Critique of Civil Society Marco Fonseca, 2016-03-31 Antonio Gramsci was an Italian Marxist thinker whose radical ideas on how to build an alternative world from below remain vigorously relevant today Gramsci's philosophy of praxis critically dissects the institutions of modern liberal democracy to reveal what is perhaps its deepest secret it is the most successful political system in modernity at preserving an objective condition of domination while transforming it into a subjective conviction of freedom Based on a careful reading of Gramsci's The Prison Notebooks Marco Fonseca shows hegemony as more than leadership of elites over subaltern majorities based on consent Following Gramsci's critique of citizenship civil society and democracy including the current project of neoliberal democracy promotion particularly in the Global South he discloses a hidden process of hegemony that generates the preconditions for consent and thus successful domination As the struggles from Zapatismo to Chavismo and from the Arab Springs to Spain's Podemos show liberation is not possible without counter hegemony This book will be of interest to activist scholars engaged in the study of Marxism Gramsci political philosophy and contemporary debates about the renewal of Marxist thought and the relevance of revolution and Communism for the twenty first century      *Broken by Beauty* Joy Farrington, 2013-10-01 As Joy struggled through the traumas of teenage relationships she also witnessed around her the broken lives of those who had become the victims of addiction and sexual exploitation She began to feel a calling to reach out to vulnerable women and men working in the sex industry Starting with the red light district in Liverpool this has taken her to the crack dens in Brazil the strip bars in LA and the notorious bars and brothels of Bangkok
