Pure Gesture:

Gestures Vilém Flusser, 2014-06-01 Throughout his career the influential new media theorist Vilém Flusser kept the idea of gesture in mind that people express their being in the world through a sweeping range of movements He reconsiders familiar actions from speaking and painting to smoking and telephoning in terms of particular movement opening a surprising new perspective on the ways we share and preserve meaning A gesture may or may not be linked to specialized apparatus though its form crucially affects the person who makes it These essays published here as a collection in English for the first time were written over roughly a half century and reflect both an eclectic array of interests and a durable commitment to phenomenological thought Defining gesture as a movement of the body or of a tool attached to the body for which there is no satisfactory causal explanation Flusser moves around the topic from diverse points of view angles and distances at times he zooms in on a modest ordinary movement such as taking a photograph shaving or listening to music at others he pulls back to look at something as vast and varied as human making embracing everything from the fashioning of simple tools to mass manufacturing But whatever the gesture Flusser analyzes it as the expression of a particular form of consciousness that is as a particular relationship between the world and the one who gestures

Gesture and Film

Nicholas Chare, Liz Watkins, 2017-05-23 Gesture has held a crucial role in cinema since its inception In the absence of spoken words early cinema frequently exploited the communicative potential of the gestures of actors As this book demonstrates gesture has continued to assume immense importance in film to the present day This innovative book features essays by leading international scholars working in the fields of cinema cultural and gender studies examining modern and contemporary films from a variety of theoretical perspectives This volume also includes contributions from an esteemed actor and a world renowned psychologist working in the field of gesture enabling a pioneering interdisciplinary dialogue around this exciting emerging field of study Drawing on philosophy psychoanalysis and psychology the essays think through gesture in film from a range of new angles pointing out both its literal and abstract manifestations Gesture is analysed in relation to animal human relations trauma and testimony sexual difference ethics and communitarian politics through examples from both narrative and documentary cinema This book was originally published as a special issue of the Journal for Cultural Research

Staging Process Rachel Anderson-Rabern, 2020-02-15 Staging Process examines contemporary collective creation practices with particular focus on the work of four third wave American performance ensembles Goat Island Elevator Repair Service Nature Theater of Oklahoma and the TEAM The book examines ways in which these groups create blueprints for developing collaborative performance entwining methodology with emerging performance aesthetics Rachel Anderson Rabern explores the ideas of boredom and quotidian employment that permeate particular performance projects Using Henri Lefebvre's concepts of work roles within everyday philosophy she demonstrates that collective creation gives rise to new economies of performance The book also presents theories of the political stakes of danced gestural forms in

performance informed by Giorgio Agamben's writings on gesture and elaborates the ways in which these ensembles make use of durational performance to posit ethical frameworks ways of living in the world. Conversing with the ideas of Paul Virilio and Guy Debord among others, Anderson Rabel claims that these groups posit new models of aesthetic politics through careful speed-based investigations of construction and destruction that unearth the powerful potential of contemporary collaborative methods to be at once aesthetically minded, ethically driven, and politically engaged. *The Biopolitics of Gesture in the Cinema of Yorgos Lanthimos* Carlo Comanducci, 2024-12-03. This book establishes a dialogue between Yorgos Lanthimos and Giorgio Agamben as a way of interpreting the weird roles, rules, and rituals that define and discipline lives in Lanthimos's early works from *Kinetta* to *The Killing of a Sacred Deer*. By exploring the resonance between Lanthimos's cinema and Agamben's understanding of gesture, this work wants to contribute to a theory of performative power under biopolitical and spectacular modalities of government focussing in particular on Agamben's ideas of operativity and inoperativity and on the construction and deconstruction of the white bourgeois normative and consensual formality of life. In turn, the role gestures play in Lanthimos's critique of patriarchy and of neoliberal forms of vulnerabilisation is used to question Agamben's unspoken affinities with contemporary radical feminism and queer theory. **Efficiencies of Slowness**

Rachel Anderson-Rabel, 2011. This project focuses on the process and performance of three contemporary collective creation groups: Goat Island, Elevator Repair Service, and Nature Theater of Oklahoma. I draw processual and aesthetic connections between collective creation methodologies and the consequences of those methodologies in performance, claiming that processes leave footprints that are ultimately visible to audiences though their visibility requires new ways of seeing. Taking into account an American genealogy of collective creation, I outline the footprints of method through the images of everyday employment instances of untrained bodies enacting danced gesture and the speeds and velocities that characterize the work of these three contemporary groups. Through these aesthetics, we can locate evidence of methodological principles that constitute a politics. In the work of Goat Island, Elevator Repair Service, and Nature Theater of Oklahoma, this politics does not play out through the ideological content of performance but is embedded within collaborative acts of making. **The End of the Mind** DeSales Harrison, 2005-02-10. This book seeks to include among accounts of modern lyric poetry a theory of the poem's relation to the unintelligible. DeSales Harrison draws a distinction between sites of unintelligibility and sights of difficulty while much has been said about modernist difficulty, little has been said about the attention that poets give to phenomena that by definition arrest, impede, obscure, damage, or destroy the capacity for intelligible representation.

Ex-centric Cinema Janet Harbord, 2016-10-20. In the beginning, cinema was an encounter between humans, images, and machine technology, revealing a stream of staccato gestures, micrographic worlds, and landscapes seen from above and below. In this sense, cinema's potency was its ability to bring other, non-human modes of being into view to forge an encounter between multiple realities that nonetheless co-exist. Yet the story of cinema became, through its institutionalization, one in

which the human swiftly assumed centrality through the literary crafting of story character and the expression of interiority Ex centric Cinema takes an archaeological approach to the study of cinema through the writings of philosopher Giorgio Agamben arguing that whilst we have a century long tradition of cinema the possibility of what cinema may have become is not lost but co exists in the present as an unexcavated potential The term given to this history is ex centric cinema describing a centre less moving image culture where animals children ghosts and machines are privileged vectors where film is always an incomplete project and where audiences are a coming community of ephemeral connections and links Discussing such filmmakers as Harun Farocki the Lumiere Brothers Guy Debord and Wong Kar wai Janet Harbord draws connections with Agamben to propose a radically different way of thinking about cinema *Potentialities* Giorgio Agamben,2000-01-01 This book collects fifteen major philosophical essays spanning more than twenty years by acclaimed Italian philosopher and author of *State of Exception* Giorgio Agamben is one of contemporary philosophy s most influential thinkers on the subjects of language power society This collection of essays opens with an enlightening introduction by the translator Daniel Heller Roazen who situates Agamben s work with respect to both the history of philosophy and contemporary European thought The essays that follow articulate a series of theoretical confrontations with privileged figures in the history of philosophy politics and criticism from Plato to Spinoza Aristotle to Deleuze Carl Schmitt to Benjamin Hegel to Aby Warburg and Heidegger to Derrida Three fundamental concepts organize the collection as a whole the existence of language the nature of history and the problem of potentiality in metaphysics ethics and the philosophy of language All these topics converge in the final part of the book in which Agamben offers an extensive reading of Melville s short story *Bartleby the Scrivener* as a work that puts potentiality and actuality possibility and reality in a new light *Choreomania* Kéline Gotman,2018 When political protest is read as epidemic madness religious ecstasy as nervous disease and angular dance moves as dark and uncouth the disorder being described is choreomania At once a catchall term to denote spontaneous gestures and the unruly movements of crowds choreomania emerged in the nineteenth century at a time of heightened class conflict nationalist policy and colonial rule In this book author Kéline Gotman examines these choreographies of unrest rethinking the modern formation of the choreomania concept as it moved across scientific and social scientific disciplines Reading archives describing dramatic misformations of bodies and body politics she shows how prejudices against expressivity unravel in turn revealing widespread anxieties about demonstrative agitation This history of the fitful body complements stories of nineteenth century discipline and regimentation As she notes constraints on movement imply constraints on political power and agency In each chapter Gotman confronts the many ways choreomania works as an extension of discourses shaping colonialist orientalism which alternately depict riotous bodies as dangerously infected others and as curious bacchanalian remains Through her research Gotman also shows how beneath the radar of this colonial discourse men and women gathered together to repossess on their terms the gestures of social revolt **The Philosophy of Agamben** Catherine Mills,2014-12-05 Giorgio

Agamben has gained widespread popularity in recent years for his rethinking of radical politics and his approach to metaphysics and language. However, the extraordinary breadth of historical, legal, and philosophical sources which contribute to the complexity and depth of Agamben's thinking can also make his work intimidating. Covering the full range of Agamben's work, this critical introduction outlines Agamben's key concerns: metaphysics, language, and potentiality; aesthetics and poetics; sovereignty, law, and biopolitics; ethics and testimony; and his powerful vision of post-historical humanity. Highlighting the novelty of Agamben's approach while also situating it in relation to the work of other continental thinkers, *The Philosophy of Agamben* presents a clear and engaging introduction to the work of this original and influential thinker. **Dialogue on the**

Threshold Ian Alexander Moore, 2022-11-01 In the early 1950s, German philosopher Martin Heidegger proclaimed the Austrian expressionist Georg Trakl to be the poet of his generation and of the hidden Occident. Trakl, a guilt-ridden lyricist who died of a cocaine overdose in the early days of World War I, thus became for Heidegger a redemptive successor to Hölderlin. Drawing on Derrida's *Geschlecht* series and substantial archival research, *Dialogue on the Threshold* explores the productive and problematic tensions that pervade Heidegger's reading of Trakl and reflects more broadly on the thresholds that separate philosophy from poetry, gathering from dispersion, the same from the other, and the native from the foreigner. Ian Alexander Moore examines why Heidegger was reluctant to follow Trakl's invitation to cross these thresholds, even though his encounter with the poet did compel him to take up in astounding ways many underrepresented topics in his philosophical corpus, such as sexual difference, pain, animality, and Christianity. A contribution not just to Heidegger and Trakl studies but also more modestly to the old quarrel between philosophy and poetry, *Dialogue on the Threshold* concludes with new translations of eighteen poems by Trakl. **The Dark Interval** Padraic Killeen, 2022-05-05 Invoking key concepts from the philosophical writings of Gilles Deleuze and Giorgio Agamben, *The Dark Interval* examines a subtle but distinct iconography of passivity, stillness, and profound self-affection that recurs across noir films of every era. In doing so, it identifies the emergence of a specific cinematic figure: the intervallic noir protagonist, exposed to the redemptive force of his or her own passion. Significantly, the book contextualises the iconography of film noir in relation to prior art, historical, visual traditions, in particular earlier representations of melancholia, and the saturnine, locating noir against a much broader canvas than has been the norm. Examining central noir films of the classic and modern era, *The Killers*, *The Man Who Wasn't There*, as well as films at the peripheries of noir, from Jacques Tourneur's *Cat People* to Wong Kar Wai's *2046*, the book locates a series of iconographic gestures, performance traditions, and affective tonalities at once specific to noir and yet resonant with a deeper cultural and philosophical heritage. It is a meditation that uniquely grapples with the look and the feel of noir, and which dares to detect a unique quality of beatitude that runs through a certain strain of noir films. In doing so, it illuminates why film noir remains one of the most provocative and affecting visual milieus of our time. **Human-Computer**

The Hand at Work Susanne Strätling,2021-12-14 Art New Vision This formula shaped the avant garde With moving images abruptly expanding the boundaries of the visible world new printing techniques triggering a pictorial turn in graphic art and literature becoming almost inseparable from visual media we still regard the avant garde as heyday for modernism s obsession with the eye But what are the blind spots of this optocentrism Focusing on the gestures of giving touching showing and handcrafting this study examines key scenes of tactile interaction between subject and artifact Hand movements manual maneuvers and manipulations challenge optics and expose the crises of a visually dominated perspective on the arts The readings of this book call for a revision of an optically obscured aesthetics and poetics to include haptic experience as an often overlooked but pivotal part of the making as well as the perception of literature and the arts

The Gaze and the Labyrinth Gaetana Marrone,2021-09-14 In this the first comprehensive book on Liliana Cavani Gaetana Marrone redraws the map of postwar Italian cinema to make room for this extraordinary filmmaker whose representations of transgressive eroticism spiritual questing and psychological extremes test the limits of the medium pushing it into uncharted areas of discovery Cavani s film The Night Porter 1974 created a sensation in the United States and Europe But in many ways her critically renowned endeavors which also include Francesco di Assisi Galileo I cannibali Beyond Good and Evil The Berlin Affair and several operas and documentaries remain enigmatic to audiences Here Marrone presents Cavani s work as a cinema of ideas showing how it takes pleasure in the telling of a story and ultimately revolts against all binding ideological and commercial codes The author explores the rich visual language in which Cavani expresses thought and the cultural icons that constitute her style and images This approach affords powerful insights into the intricate interlacing of narrated events We also come to understand the importance assigned to the gaze in the genesis of desire and the acquisition of knowledge The films come to life in this book as the classical tragedies Cavani intended where rebels and madmen experience conflict between historical and spiritual reality the present and the past

Offering intertextual analyses within such fields as psychology history and cultural studies along with production information gleaned from Cavani s personal archives Marrone boldly advances our understanding of an intriguing important body of cinematic work

Politics of Benjamin's Kafka: Philosophy as Renegade Brendan Moran, 2018-06-05 This book provides a critical assessment of Benjamin s writings on Franz Kafka and of Benjamin s related writings Eliciting from Benjamin s writings a conception of philosophy that is political in its dissociation from its becoming renegade in relation to its philosophic shame about established laws norms and forms the book compares Benjamin s writings with relevant works by Agamben Heidegger Levinas and others In relating Benjamin s writings on Kafka to Benjamin s writings on politics the study delineates a philosophic impetus in literature and argues that this impetus has potential political consequences Finally the book is critical of Benjamin s messianism insofar as it is oriented by the anticipated elimination of exceptions and distractions Exceptions and distractions are the book argues precisely what literature like other arts brings to the fore Hence the philosophic and the political importance of literature

Andy Kaufman Florian Keller, Taking as his starting point the 1999 biopic *Man on the Moon* Florian Keller explores Andy Kaufman s career within a broader discussion of the ideology of the American Dream grasping Kaufman s radical agenda beyond avant garde theories of transgression Presenting readings of Kaufman s most significant performances Keller shows how he mounted a critique of America s obsession with celebrity and individualism

The Disappearance of Literature Aaron Hillyer, 2013-09-26 In this book Aaron Hillyer considers the implications of Maurice Blanchot s strange formulation Literature is heading to its essence which is its disappearance This quest leads Hillyer to stage a dialogue between the works of Blanchot and Giorgio Agamben Despite being primary points of reference for literary theory no significant critical work has examined their literary writings together The Disappearance of Literature initiates this new trajectory through readings of Blanchot s *The Unavowable Community* and Agamben s *The Open* two short books that harbor their most enigmatic writings A series of related concepts study community mysticism and friendship emerges from this pairing and Hillyer argues forms the basis of a new vein of contemporary literature found in the novels and hybrid fictions of Enrique Vila Matas Anne Carson and Cesar Aira
