**Women of Kurdistan: A Historical and Bibliographic Study** Shahrzad Mojab, Amir Hassanpour, 2021-04-19 Women of Kurdistan A Historical and Bibliographic Study documents a century long history of Kurdish women's struggles against oppressive gender relations and state violence It speaks to bibliographic silences on Kurdish women silences that are systemic and structured with many factors contributing to their reproduction The book

records extensive literature on violence perpetrated by the family community and the state as well as presenting the reader with a vibrant archive of resistance and struggle of Kurdish women The analysis avoids the fashionable state centered scholarship which purifies processes of nation building state building and disguises their violence The image depicted of the women of Kurdistan in this bibliography is shaped also by the languages we have chosen English French and German It is a record of material in languages that are not spoken by the majority of the Kurds It will therefore be different from a bibliography of works in the Kurdish language which have a majority of Kurdish authors with more entries on topics such as poetry fiction education and arts Love and learning made the making of this bibliography imaginable It began more than 20 years ago when Amir was expanding his theoretical ground for class analysis of nationalism and peasant movement in the Kurdish region of Mukriyan Hassanpour 2021 Simultaneously I was engaged with debates on Marxist feminism and transnational feminism while grappling with post al tendencies in feminism such as post colonialism post structuralism and post modernism We wanted to better understand the explanatory power and political implications of Marx s dialectical historical materialism in explicating the intersecting and refracting relations of gender class race culture nation and nationalism This commitment nonetheless did not remain in the realm of epistemology as a disembodied intellectual exercise As a member of a dominant nation a Shirazi born Iranian I wanted to critically confront this national identity and the sense of belonging Amir sought to scrutinize patriarchal structures and gender relations in Kurdish history society culture and nation This intertwined mind and heart desire put us onto a path of renewed discoveries of our personal and intellectual relations In a nutshell this was the beginning of the making of Women of Kurdistan A Historical and Bibliographic Study Women of Kurdistan provides a meticulously researched source book for readers interested in women gender and sexuality in Kurdistan and the Middle East It covers a wealth of bibliographic material including both scholarly and non academic publications many of which have not previously been accessible to broader audiences But Women of Kurdistan is more than a source of information It is also an eloquent reflection on the entanglement of knowledge production and political power and a call to recognize scholarship s potential in shaping historical change Above all it is a passionate statement about the impossibility to comprehend the intersection of colonial capitalist and nationalist forces without attention to women s lives and struggles Marlene Sch fers British Academy Newton International Fellow University of Cambridge Women of Kurdistan is simply an excellent template for how to chronicle women s resistance politics By framing the Kurdish women s struggles within a historical materialism under different modes of production and discussing the political influence of five different nations on the Kurdish peoples the authors offer a rich context that surpasses the common fetishization of women s armed resistance Internationally known for their Marxist and feminist works Mojab and Hassanpour apply theories of nationalism capitalism peasantry knowledge production and relationship between state and non state to understand the Kurdish experience while honouring the struggle voice and poetry of Kurdish women activists The book is as unapologetically critical of regional and

religious hegemonies as it is of Kurdish patriarchies and is candid about the slipperiness of the concept of the ideal Kurdish woman while skeptical of the benefits of transnationalization for the women honoured in this book Afiya Zia author of Faith and Feminism Religious Agency or Secular Autonomy CONTENTS PART I THE MAKING OF THE BIBLIOGRAPHY THE STATE OF KNOWLEDGE ABOUT KURDISH WOMEN WOMEN OF KURDISTAN PART II WOMEN OF KURDISTAN A BIBLIOGRAPHIC STUDY GENERAL WORKS ARTS AND CULTURE CUSTOMS AND BELIEFS DISPLACEMENT REFUGEES AND MIGRATION EDUCATION ETHNIC FORMATIONS FEMINIST AND WOMEN S MOVEMENTS GENDER RELATIONS GENOCIDE GENDERCIDE WAR CRIMES AND CRIMES AGAINST HUMANITY GEOGRAPHY HEALTH AND MEDICINE HISTORY LANGUAGE LAW LITERATURE POLITICS RELIGION SOCIAL AND ECONOMIC ORGANIZATION WAR AND PEACE APPENDIX INDEX

### **Honour Based Crimes and the Law**

Mukaddes Gorar, 2021-05-10 Honour based violence and abuse manifests itself in different forms and this book offers a comprehensive understanding of this phenomenon This book argues that the limits of honour crimes must be defined more widely so that they include conducts and behaviours that originate from the patriarchal notion of honour such as honour based oppression and breast ironing The book provides a critical analysis and synthesis of the law in England and Wales and in the international human rights sphere The relevant domestic legislation and cases are examined to reflect on whether adequate protection is provided for the victims and potential victims of honour based violence and abuse Since honour based violence is a violation of human rights the relevant international human rights law is examined to illustrate the perception of such crimes in the international arena The effectiveness of any remedy for victims of honour based violence and abuse depends on its capability to change deep rooted behaviours in communities with honour based patriarchal values This book argues that the law does not provide the effective impact required in part due to patriarchal structures and that more efforts

should be dedicated to changes in education It is held that there is a need for an educational programme that is especially designed to tackle violence and promote gender equality The book will be essential reading for academics researchers and policy makers working in the areas of Human Rights Law Criminal Law and Gender Studies      **International Human Rights Law and Crimes Against Women in Turkey** Ayşe Güneş,2020-12-20 This book evaluates the effectiveness of current international human rights law and in particular the recent Istanbul Convention in eradicating so called honour killings in Turkey So called honour killings have become an issue of concern for the international community In Turkey in particular the practice still exists despite the adoption of the relevant human rights instruments The book argues that the improvement of the status of women in Turkey in accordance with gender equality as well as the application of the principle of state due diligence both requirements of the Istanbul Convention and international human rights law are fundamental means towards eradicating the killing of women in the name of honour Using feminist approaches in particular the intersectionality approach the study looks at the application of such standards as well as the current obstacles Through such a lens the study discusses the strengths and weaknesses of the Turkish Constitution Turkish Civil Code Turkish Penal Code and Law to Protect Family and Prevent Violence Against Women and questions the judicial approach to the implementation of the women s right to life It identifies the lacunae in the Turkish legislation that allow inadequate legal protection for women and the inconsistency of the judicial approach to the definition of the so called honour killings in the judgements The study then recommends some concrete amendments to the relevant legal provisions in order to better reflect the international framework and the feminist approaches The book will be a valuable resource for academics researchers and policy makers in the areas of international human rights law and feminist legal theory      **Execution by Family** Mark Cooney,2019-03-21 Across many parts of the world violence inflicted in the name of family honor is attracting an increasing amount of attention Family honor violence otherwise known as honor based violence is physical force inflicted primarily on women for conduct defined as dishonorable This book explores these conflicts of honor how they are triggered how they are handled and why some lead to death Drawing on a range of case studies and employing Donald Black s concept of social geometry Execution by Family incorporates and goes beyond patriarchy culture and kinship to develop a unified theory of family honor violence It discusses the honor belt a series of countries stretching from north Africa to southeast Asia in which similar forms of inequality patriarchy group authority and gerontocracy are prevalent and how within the confines of this inequality honor violence flourishes Reviewing survey data and pointing to a multi pronged cross national social movement the book also discusses the future of honor based violence Given the growing awareness of family honor violence Execution by Family will be of interest to anybody concerned with family conflict violence crime and popular morality It will be invaluable reading for academics and students in the fields of criminology criminal justice sociology social psychology and anthropology      *Clash of Modernities* Khaldoun Samman,2015-12-03 To understand the Middle East we must also understand how the West

produced a temporal narrative of world history in which westerners placed themselves on top and all others below them In a landmark reinterpretation of Middle Eastern history this book shows how Arabs Muslims Turks and Jews absorbed revised yet remained loyal to this Western vision Turkish Kemalism and Israeli Zionism in their efforts to push their people forward accepted the narrative almost wholeheartedly eradicating what they perceived as archaic characteristics of their Jewish and Turkish cultures Arab nationalists negotiated a more culturally schizophrenic approach to appeasing the colonizer s gaze But so too Samman argues did the Islamists who likewise wanted to improve their societies But in order to modernize Islamists prescribed the eradication of Western contamination and reintroduced the prophetic stage that they believe if the colonizer and their local Arab coconspirators hadn t intervened would have produced true civilization Samman s account explains why Islamists broke more radically with the colonizer s insult For all these nationalists gender would be used as the measuring device of how well they did in relation to the colonizer s gaze

Gender and Multiculturalism Amanda Gouws, Daiva Stasiulis,2015-12-22

Multiculturalism is a concept that has been stretched to include a variety of political conditions mainly in countries that have liberal democratic political systems and traditions In this North South comparison we illuminate remedies pursued by

governments and various political interests to address the binary Tensions of culture and rights may not be the same everywhere An interesting point of comparison is in the treatment of liberalism often assumed in the global North to be the universal norms to be defended whereas in the global South liberalism itself may be viewed as the problem Colonial histories are fraught with discriminatory legislation aimed at accommodating indigenous populations often a trade off for more structural redistributive justice through for example land reform In Africa for example the codification of customary law has reinforced misogynistic and static interpretations of African culture This book will show how varied and complex the embodiment of multiculturalism as a political practice or policy discourse in different political contexts can be and how often the outcome of multicultural discourses creates a binary between culture and universal human rights The aim of this book is to grapple with dislodging this binary This book was published as a special issue of *Politikon*     *Honor Related Violence*

Robert Ermers,2018-02-02 Honor related violence is generally associated with crimes committed by people from the Middle East and adjacent areas Perpetrators sometimes justify their deeds saying they had to restore their honor Theorists have argued that men from these populations exclusively correlate honor with the behaviour of their womenfolk which they use as a pretext to further oppress and dominate women Due to large scale migration western societies have become acquainted with honor related violence and honor killings In this book Robert Ermers addresses a number of questions related to honor related violence including the use of predominantly negative frames regarding the cultural and social background of non westerners and immigrants In many publications including the press crimes committed by non western individuals are often attributed to their cultural background rather than specific contexts or circumstances in contrast to western cases Vague and insufficiently defined concepts such as honor and culture strongly contribute to this bias *Honor Related Violence* deals with honor and honor related violence their background and contexts what honor is and what it is not It examines stigma in relation to honor and based upon stigma research reliably explains analyses and predicts honor related violence The book argues that people all over the world can be stigmatized excluded and ostracized when they commit misbehavior and therefore find themselves in a state of dishonor which can lead to honor related violence A timely intervention into the psychology of honor related violence this is an essential resource for students and researchers in the fields of social psychology sociology law criminology and anthropology     *Honor, Politics, and the Law in Imperial Germany, 1871-1914*

Ann Goldberg,2010-04-29 Honor in nineteenth century Germany is usually thought of as an anachronistic aristocratic tradition confined to the duelling elites In this innovative study Ann Goldberg shows instead how it pervaded all aspects of German life and how during an era of rapid modernization it was adapted and incorporated into the modern state industrial capitalism and mass politics In business state administration politics labor relations gender and racial matters Germans contested questions of honor in an explosion of defamation litigation Dr Goldberg surveys court cases newspaper reportage and parliamentary debates exploring the conflicts of daily life and the intense politicization of libel jurisprudence in an era

when an authoritarian state faced off against groups and individuals from below claiming new citizenship rights around a democratized notion of honor and law Her fascinating account provides a nuanced and important understanding of the political legal and social history of imperial Germany

Writing the History of Emotions Ute Frevert, 2024-02-22 Emotions make history and they have a history They influence historical events such as revolutions riots and protest movements At the same time they are shaped by historical experiences tied to family upbringing educational and cultural institutions work and the home Writing the History of Emotions shows how emotions like love trust honour pride shame empathy and greed have impacted historical change since the 18th century and were themselves dependent on social political and economic environments Importantly this book provides a timely exploration of racialized gendered class based notions of emotions This exciting addition to Bloomsbury's successful Writing History series analyses how emotions matter in and to history and how they are themselves objects of history Here leading scholar Ute Frevert eschews a traditional chronological history of emotions in favour of an innovative collection which transgresses time periods to illustrate the different emotional meanings one particular material object has had throughout history This book sheds light on how emotions have been used instrumentalised and manipulated both to propel and suspend democratic politics In doing so it opens a rich new avenue of research for the history of emotions
