Escobar, 1980-01-01 The Reticuloendothelial RE Society which is concerned with advancement of knowledge concerning the many diverse functions of RE cells organizes national and international meetings and publishes a scientific journal The VIII International Congress of the RE Society was held in Jerusalem Israel June 18 23 1978 The Congress had as its scientific objective a wide range of subjects concerning the RE System especially as related to macrophage function and interaction with lymphocytes Emphasis of the Congress was placed on the nature and function of macrophages and other cells of the RE System with reference to immune responses anti infectious activity tumor immunity autoimmunity and trans plant rejection The secretion of soluble factors by macrophages and lymphocytes and the mode of action of these factors on other cells was stressed During the Congress some discussion was entertained concerning the controversy as to what constitutes the RE System per se Some investigators feel that the phagocytic activity of macrophages is the most important aspect of the RE System playing also a major role in many parameters of immunity Mononuclear phagocytes include tissue macrophages as well as circulating monocytes and their precursors Although phagocytosis is a major functional activity of these cells it is only one of several activities      *Purine Metabolism in Man-iii* Aurelio

Rapado, 1980      **Structure and Function of Gangliosides** Lars Svennerholm, 2012-12-06 This volume records the proceedings of an International Symposium on The Structure and Function of Gangliosides held at Le Bischenberg Alsace France in April 23 27 1979 The meeting was convened to get a comprehensive view of the immense activity that had occurred in the field since the previous conference on gangliosides held at Mont Sainte Odile Alsace France in April 1973 At a conference on Enzymes of Lipid Metabolism held at the same place in April 1977 several of the participants from the first ganglioside conference in 1973 met again All previous participants agreed that the first meeting with its many frank and stimulating lectures round tables and informal discussions had been of tremendous importance for the activity in the field and led to many personal contacts and a warm friendship among the ganglioside researchers The success of the first meeting must be ascribed largely to one single man PAUL MANDEL Therefore we decided to dedicate the next ganglioside conference to him and I was given the privilege to arrange the meeting together with him and staff members at Centre de Neurochimie Strasbourg The Symposium on The Structure and Function of Gangliosides was arranged to honour PAUL MANDEL for his unique and never failing efforts to promote and strengthen international collaboration in all fields of neurochemistry      *Purine Metabolism in Man 3*, 1980      *The Endocrine Pancreas and Juvenile Diabetes* David M.

Klachko, 2013-03-09 Dr Robert L Jackson Professor of Child Health at the University of Missouri Columbia decided to retire from clinical practice in 1977 and the Department of Child Health planned a conference in his honor The Thirteenth Annual Midwest Conference on Endocrinology and Metabolism also was in the planning stages and scheduled for two days in the fall It seemed appropriate to combine the two into an expanded three day conference In view of Dr Jackson's international

reputation in the study and care of children with diabetes mellitus the conference topic was not difficult to find Experts in this field were delighted to be asked to speak at a conference in Dr Jackson's honor We selected a number of excellent speakers to survey the physiology and pathophysiology of pancreatic hormones and their effects in diabetes mellitus to discuss current knowledge of the microvascular complications of the disease and to put it all into the proper historical perspective of where we have been and where we are going We think the conference achieved its objective to pay meaningful tribute to a distinguished member of the scientific community As with any conference the conversion of the presentations and discussions to the printed page is a long and arduous process Many manuscripts were completed well after the conference and references often are more recent than the date of the conference     *Screening for Disorders of Purine and Pyrimidine Metabolism* Albert Hendrik van Gennip, 1981     **Cumulated Index Medicus**, 1984     *Revue roumaine de biochimie*, 1980     *Current Catalog* National Library of Medicine (U.S.), 1980 Includes subject section name section and 1968 1970 technical reports     **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1983     The President's Report to the Board of Regents for the Academic Year ...
