Hall, 1988 A critically acclaimed and accessible biography of one of the towering figures of New England's colonial period winner of The Conference on Christianity and Literature's Book Award Innerworldly Individualism Adam B. Seligman, 2017-07-12 Innerworldly Individualism looks to colonial history in particular seventeenth century New England to understand the sources of modern nation building Seligman analyzes how cultural assumptions of collective identity and social authority emerged out of the religious beliefs of the first generation of settlers in New England He goes on to examine how these assumptions crystallized three generations later into patterns of normative order forming the foundation of an American consciousness Seligman uses sociological research grounded in early American history as his laboratory and does

so in a highly original way Seligman uses Max Weber's paradigm of sociological inquiry to explore how a combination of ideational and structural factors helped to develop modern conceptions of authority and collective identity among New England communities. Seligman addresses a number of significant issues including social change, the mutual interaction and development of process and structure, and the role of charisma in the forging of a social order. His book profoundly increases our understanding of the ideological and social processes prevalent in early American history as well as their contemporary influence on civil identity. Innerworldly Individualism uniquely intertwines sociological study with cultural history. It uses American history to develop and elucidate problems of broad theoretical significance. Seligman's argument is bolstered by a close examination of concrete detail. His book will be of interest to anthropologists, sociologists, political theorists, and historians of American culture.

New England Encounters Alden T. Vaughan, 1999. The essays which were originally published in *The New England Quarterly: A Historical Review of New England Life and Letters* consider a wide range of areas in Native American-white relations from Abenaki territory in northern Maine to Pequot lands in southern Connecticut, from profitable commerce to devastating warfare, from religious persuasion to labor exploitation, from cultural mixing to non-violent resistance, from literary representation to political argumentation. A comprehensive and insightful introduction by the editor places the richly diverse topics and perspectives within the broader context of New England ethnohistory. Most of the authors have added postscripts to their original essays commenting on recent scholarship and interpretations.

The Protestant Temperament Philip J. Greven, Jr., 2013-09-04. Bringing together an extraordinary richness of evidence from letters, diaries, and other intimate family writing of the 17th and 18th centuries, Philip Greven, the distinguished scholar of colonial history, explores the strikingly distinctive ways in which Protestant children were reared and the Protestant temperament shaped in America. Through this cache of remarkable and remarkably immediate and moving material, the family papers of some of America's most famous theologians, political figures, lawyers, and ministers, as well as those of lesser-known contemporaries, farmers, merchants, housewives, who embodied Protestant life and wrote about it most expressively, Philip Greven traces the hidden continuities of religious experience, of attitudes toward God, children, the will, the body, sexuality, achievement, pleasure, virtue, and selfhood among the three Protestant groups of the time. He examines in turn the three strains that persisted regardless of denomination. First, the evangelicals, their dictum for raising children: Break their wills that you may save their souls, ruled by a hostility to the self, a feeling that selfhood is the source of sin, too dangerous to be sought or desired. Jonathan Edwards wrote: I have been before God and have given myself all that I am and have to God so that I am not in any respect my own. I have given myself clear away. And we hear the products of this upbringing in their twenties and thirties, speaking of themselves in the harshest tones: My affections carnal, corrupt, and disordered; distrusting themselves in the most profound ways. A woman faced with the choice of a husband wrote: I dare not decide myself and dread nothing more than to be left to the bent of my own heart. In counterpoint we see the moderates, poised between duty and personal desire.

preoccupied but not obsessed with morality more interested in self control than self suppression an eminent Unitarian the Reverend Theodore Parker of Boston wrote The will needs regulation not destroying I should as soon think of breaking the legs of a horse in training him as a child s will And finally we see the genteel in polite society taking their state of grace for granted more interested in self assertion than self control completely at ease with ambition and worldliness music dancing games convivial drinking hunting and sports all an integral part of the children s lives as they grow into maturity the boys groomed for social responsibility the girls encouraged to be steady studious docile with a mild and winning presence a sweet obliging temper The Protestant Temperament uncovers the personal experience and the psychological and social effects of religion and piety in the American of the 17th and 18th centuries the feelings as well as the beliefs of religious people Fascinating and groundbreaking in its revelations and its radical reassessment of the role of religion in early American life Philip Greven s book is a major intellectual event an important and illuminating interpretation of the American Protestant experience *Literature, American Style* Ezra Tawil,2018-08-21 Literature American Style finds early U S authors self consciously imitating European literary forms even as they claimed radical originality The notion of style helped them manage this peculiar contradiction It was their American use of style they claimed that marked their departure from literary precedents *The Battle for the American Mind* Carl J. Richard,2004-10-08 The Battle for the American Mind brings together religion politics economics science and literature to present a compelling history of the American people In this brief and entertaining book noted historian Carl J Richard argues that there have been three worldviews that have dominated American thought theism humanism and skepticism Theists put their faith in God humanists in man and skeptics have faith in neither god nor man Each worldview has had an epoch of domination leading to the present Age of Confusion where theists humanists and skeptics battle one another for control of American hearts and minds By clearly explaining what Americans believed exploring why they did so and showing how that impacted the nation s development Carl J Richard presents a unique portrait of the United States past and present *"The Pompe and Pride of Man"* Sandra Slater,2024-10-28 Huddled on dank ships and tossed about in the waves of the Atlantic English Puritans envisioned a new society predicated on the values of individual and communal humility Pride a pervasive sin jeopardized their very survival and incited God s wrath The first generation of New England settlers deeply affected by the miseries of their migration experience crafted New England society on the dichotomy of pride and humility Embracing demonstrative suffering as essential Puritans embraced perpetual martyrdom often taking great pride in the extent of their humiliation This ideology affected self perceptions and informed legal codes theology and community values Anxieties around pride resulted in violent efforts to eradicate proud individuals but also whole communities as demonstrated by the Pequot War 1636-37 The dichotomy of pride and humility permeated all aspects of New England Puritanism *Jonathan Edwards's Interpretation of Revelation 4:1-8:1* Glenn R. Kreider,2004 The Bible was at the center of Jonathan Edwards intellectual and ministerial life As an eighteenth century theologian pastor the

Scriptures were the focus of his work and the perspective through which he viewed his world Edwards had a particular interest in the interpretation of the Apocalypse devoting a notebook to the collection of observations and thoughts from his reading and reflection This book examines Edwards interpretation of Revelation 4 8 as seen in his working notebooks and theological treatises and sermons and then compares his views with some of his major contemporary biblical interpreters
