Easy history for upper standards, adapted from 'The little folks' history of England'. Isa Craig- Knox,1884 The Post-Reformation John Spurr,2014-06-11 The 17th century was a dynamic period characterized by huge political and social changes including the Civil War the execution of Charles I the Commonwealth and the Restoration The Britain of 1714 was recognizably more modern than it was in 1603 At the heart of these changes was religion and the search for an acceptable religious settlement which stimulated the Pilgrim Fathers to leave to settle America the Popish plot and the Glorious Revolution in which James II was kicked off the throne This book looks at both the private aspects of human beliefs and practices and also institutional religion investigating the growing competition between rival versions of Christianity and the growing expectation that individuals should be allowed to worship as they saw fit *The A to Z of the Puritans* Charles Pastoor,Galen K. Johnson,2009-09-28 Members of the Church of England until the mid 16th century the Puritans thought the Church had become too political and needed to be purified While many Puritans believed the Church was capable of reform a large number decided that separating from the Church was their only remaining course of action Thus the mass migration of Puritans known as Pilgrims to America took place Although Puritanism died in England around 1689 and in America in 1758 Puritan beliefs such as self reliance frugality industry and energy remain standards of the American ideal The A to Z of Puritans tells the story of Puritanism from its origins until its eventual demise This is done through a chronology an introduction a bibliography and several hundred cross referenced dictionary entries on important people places and events

The English Civil War Peter Gaunt,2014-05-09 Sir God hath taken away your eldest son by a cannon shot It brake his leg We were necessitated to have it cut off whereof he died In one of the most famous and moving letters of the Civil War Oliver

Cromwell told his brother in law that on 2 July 1644 Parliament had won an emphatic victory over a Royalist army commanded by King Charles I's nephew Prince Rupert on rolling moorland west of York. But that battle Marston Moor had also slain his own nephew the recipient's firstborn. In this vividly narrated history of the deadly conflict that engulfed the nation during the 1640s Peter Gaunt shows that with the exception of World War I the death rate was higher than any other contest in which Britain has participated. Numerous towns and villages were garrisoned, attacked, damaged or wrecked. The landscape was profoundly altered. Yet amidst all the blood and killing the fighting was also a catalyst for profound social change and innovation. Charting major battles, raids and engagements the author uses rich contemporary accounts to explore the life-changing experience of war for those involved, whether musketeers at Cheriton, dragoons at Edgehill or Cromwell's disciplined Ironsides at Naseby 1645.
