Purity And Pollution In Zoroastrianism Triumph Over Evil:

Purity and Pollution in Zoroastrianism Jamsheed Kairshasp Choksy, 1989 Cosmologies of Pure Realms and the Rhetoric of Pollution Yohan Yoo, James W. Watts, 2021-05-30 This collaboration between two scholars from different fields of religious studies draws on three comparative data sets to develop a new theory of purity and pollution in religion arguing that a culture's beliefs about cosmological realms shapes its pollution ideas and its purification practices The authors of this study refine Mary Douglas foundational theory of pollution as matter out of place using a comparative approach to make the case that a culture's cosmology designates which materials in which places constitute pollution By bringing together a historical comparison of Ancient Near Eastern and Mediterranean religions an ethnographic study of indigenous shamanism on Jeju Island Korea and the reception history of biblical rhetoric about pollution in Jewish and Christian cultures the authors show that a cosmological account of purity works effectively across multiple disparate religious and cultural contexts They conclude that cosmologies reinforce fears of pollution and also that embodied experiences of purification help generate cosmological ideas Providing an innovative insight into a key topic of ritual studies this book will be of vital interest to scholars and graduate students in religion biblical studies and anthropology

The Talmud's Red Fence Shai Secunda, 2020-06-16 The Talmud's Red Fence explores how rituals and beliefs concerning menstruation in the Babylonian Talmud and neighboring Sasanian religious texts were animated by difference and differentiation It argues that the practice and development of menstrual rituals in Babylonian Judaism was a product of the religious terrain of the Sasanian Empire where groups like Syriac Christians Mandaeans Zoroastrians and Jews defined themselves in part based on how they approached menstrual impurity It demonstrates that menstruation was highly charged in Babylonian Judaism and Sasanian Zoroastrian where menstrual discharge was conceived of as highly productive female seed yet at the same time as stemming from either primordial sin Eve eating from the tree or evil Ahrimen's kiss It argues that competition between rabbis and

Zoroastrians concerning menstrual purity put pressure on the Talmudic system for instance in the unusual development of an expert diagnostic system of discharges It shows how Babylonian rabbis seriously considered removing women from the home during the menstrual period as Mandaeans and Zoroastrians did yet in the end deemed this possibility too heretical Finally it examines three cases of Babylonian Jewish women initiating menstrual practices that carved out autonomous female space One of these the extension of menstrual impurity beyond the biblically mandated seven days is paralleled in both Zoroastrian Middle Persian and Mandaic texts Ultimately Talmudic menstrual purity is shown to be driven by difference in its binary structure of pure and impure in gendered terms on a social axis between Jews and Sasanian non Jewish communities and textually in the way the Palestinian and Babylonian Talmuds took shape in late antiquity **Parsis in India and the**

Payne, 2015-09-01 Christian communities

flourished during late antiquity in a Zoroastrian political system known as the Iranian Empire that integrated culturally and geographically disparate territories from Arabia to Afghanistan into its institutions and networks Whereas previous studies have regarded Christians as marginal insular and often persecuted participants in this empire Richard Payne demonstrates their integration into elite networks adoption of Iranian political practices and imaginaries and participation in imperial institutions The rise of Christianity in Iran depended on the Zoroastrian theory and practice of hierarchical differentiated inclusion according to which Christians Jews and others occupied legitimate places in Iranian political culture in positions subordinate to the imperial religion Christians for their part positioned themselves in a political culture not of their own making with recourse to their own ideological and institutional resources ranging from the writing of saints lives to the judicial arbitration of bishops In placing the social history of East Syrian Christians at the center of the Iranian imperial story A State of Mixture helps explain the endurance of a culturally diverse empire across four centuries Sacred Paths of the West Theodore M Ludwig, 2015-08-07 This text combines study of the dynamic historical development of each religious tradition with a comparative thematic structure Students are encouraged to discover and explore the nature of religious

experience by comparing basic themes and issues common to all religions finding connections with their own personal experiences By sensitively introducing descriptive material within a comparative thematic structure this text helps students to understand how each religion provides for its adherents patterns and meanings that make up a full way of life

The Purity and Sanctuary of the Body in Second Temple Judaism Hannah K.

Harrington, 2019-08-12 This study traces the emergence of the concept of the body as a sanctuary from its biblical roots to its expressions in late Second Temple Judaism Harrington's hypothesis is that the destruction of the first Jerusalem temple was a catalyst for a new reality vis vis the temple and the emergence of increased emphasis on the holiness of the people along with concomitant standards of purity in a certain stream of Judaism The study brings into relief elements of this attitude from exilic texts e g Ezekiel to Ezra Nehemiah the Dead Sea Scrolls and other Second Temple Jewish texts including early Jesus

and Pauline traditions The goal is to provide a history of the concept of the body cum temple metaphor which comes to its fullest expression in the letters of Paul to the Corinthians The concept of the body as a sanctuary as it comes to fruition in late second temple Judaism must be understood within the conceptual world of Jewish holiness of the time The metaphor of the temple provides a frame of reference but only a close analysis of the concepts of holiness purity and impurity and the dynamics between them can provide depth and distinction Of particular importance critical to proper understanding of the temple metaphor are the notions of the elect holy status of Israel and its possible desecration by wrongful sexual relations the loss of the temple and the ripple effect of creating at least temporary substitutes for processes of the cult the widespread concern in Second Temple Judaism for ritual purity in support of greater holiness and a desire among Jews for the residence and agency of the spirit of holiness
