Purloined Poe Lacan Derrida And Psychoanalytic Reading:

The Purloined Poe John P. Muller, William J. Richardson, William John Richardson, 1988 In 1956 Jacques Lacan proposed as interpretation of Edgar Allan Poe's Purloined Letter that at once challenged literary theorists and revealed a radically new conception of psychoanalysis Lacan's far reaching claims about language and truth provoked a vigorous critique by Jacques Derrida whose essay in turn has spawned further responses from Barbara Johnson Jane Gallop Irene Harvey Norman Holland and others The Purloined Poe brings Poe's story together with these readings to provide in the words of the editors a structured exercise in the elaboration of textual interpretation The Purloined Poe reprints the full text of Poe's story followed by Lacan's Seminar on The Purloined Letter along with extensive commentary by the editors Marie Bonaparte's and Shoshana Felman's discussions of traditional and contemporary approaches to psychoanalysing texts precede Alan Bass's new translation of Derrida's Purveyor of Truth The subsequent essays join the Lacan Derrida debate and offer alternative readings by literary theorists philosophers psychologists and psychoanalysts The Purloined Poe convenes much of the most important current scholarship on The Purloined Letter and presents a rich sampling of poststructuralist discourse

background chapters that place those movements in a broader intellectual national and socio cultural perspective In comparison with Volumes Seven and Eight also devoted to twentieth century developments there is marked emphasis on the rethinking of historical and philosophical approaches which have emerged especially during the past two decades as among the most challenging areas of debate

Poe's Perfect Crimes Yasuhiro Takeuchi, 2025-02-12 The genius of Edgar Allan Poe extends far beyond his groundbreaking creation of Auguste Dupin which laid the foundation for detective fiction What remains little known is that Poe envisioned an even more sophisticated form of the genre Works in this form take an innovative approach allowing the reader rather than a fictional detective to uncover and solve hidden murders In 1844 as the Dupin stories concluded Poe published two lesser known works *Thou Art the Man* and *A Tale of the Ragged Mountains* These stories reflect his ambition to engage readers in a game of wits with himself This study endeavors to rise to his challenge and unravel the perfect crimes hidden for nearly two centuries within these tales As we delve deeper another mystery arises What is analysis By examining Dupin's secrets to successful analysis and contrasting them with the failures of the narrators in stories like *The Black Cat* and *The Fall of the House of Usher* this book seeks to unlock Poe's fundamental mystery of analysis

Death and the Mother from Dickens to Freud Carolyn Dever, 1998-05-14 The cultural ideal of motherhood in Victorian Britain seems to be undermined by Victorian novels which almost always represent mothers as incapacitated abandoning or dead Carolyn Dever argues that the phenomenon of the dead or missing mother in Victorian narrative is central to the construction of the good mother as a cultural ideal Maternal loss is the prerequisite for Victorian representations of domestic life a fact which has especially complex implications for women When Freud constructs psychoanalytical models of family gender and desire he too assumes that domesticity begins with the death of the mother Analysing texts by Dickens Collins Eliot Darwin and Woolf as well as Freud Klein and Winnicott Dever argues that fictional and theoretical narratives alike use maternal absence to articulate concerns about gender and representation Psychoanalysis has long been used to analyse Victorian fiction Dever contends that Victorian fiction has much to teach us about psychoanalysis

Freud's Memory R. White, 2008-07-24 Rob White reconsiders Freud's controversial theory of inherited memory referring it both to Anglo American commentary and post structuralist work on psychoanalysis White proposes that this theory is evidence of an underlying haunted retrospection in Freudian theorizing which time and again discovers that meaning has been lost

Writing the Structures of the Subject Will Greenshields, 2017-03-07 This book examines and explores Jacques Lacan's controversial topologisation of psychoanalysis and seeks to persuade the reader that this enterprise was necessary and important In providing both an introduction to a fundamental component of Lacan's theories as well as readings of texts that have been largely ignored it provides a thorough critical interpretation of his work Will Greenshields argues that Lacan achieved his most pedagogically clear and successful presentations of his most essential and notoriously complex concepts such as structure the subject and the real through the deployment of topology The book will help readers

to better understand Lacan and also those concepts that have become prevalent in various intellectual discourses such as contemporary continental philosophy politics and the study of ideology and literary or cultural criticism **Stuckness in the Fiction of Mervyn Peake** Alice Mills, 2005 Mervyn Peake has been acclaimed as an author of fantasy and as an illustrator but as yet has received little attention from literary critics This book is the first to analyse all of Peake's works of fiction including his two picture story books and novella as well as the Gormenghast series and Mr Pye Alice Mills pinpoints the fictional quirks that render Mervyn Peake such a memorable fantasy writer examining his literary works from Jungian Freudian Kristevan and post Jungian perspectives Stuckness in the Fiction of Mervyn Peake will be of interest to fantasy lovers and students of fantasy as a genre as well as those exploring the psychoanalysis of literary texts
