Military Order of World Wars ,1996-06-15 In this ambitious study of the intense and often adversarial relationship between English and American literature in the nineteenth century Robert Weisbuch portrays the rise of American literary nationalism as a self conscious effort to resist and finally to transcend the contemporary British influence Describing the transatlantic double cross of literary influence Weisbuch documents both the American desire to create a literature distinctly different from English models and the English insistence that any such attempt could only fail The American response as he demonstrates was to make strengths out of national disadvantages by rethinking history time and traditional concepts of the self and by reinterpreting and ridiculing major British texts in mocking allusions and scornful parodies Weisbuch approaches a precise characterization of this double cross by focusing on paired sets of English and American texts Investigations of the causes motives and literary results of the struggle alternate with detailed analyses of several test cases Weisbuch considers Melville s challenge to Dickens Thoreau s response to Coleridge and Wordsworth Hawthorne s adaptation of Keats and influence on Eliot Whitman s competition with Arnold and Poe s reshaping of Shelley Adding a new dimension to the exploration of an emerging aesthetic consciousness Atlantic Double Cross provides important insights into the creation of the American literary canon

What Price Fame? Tyler Cowen,2000 In a world where more people know who Princess Di was than who their own senators are where Graceland draws more visitors per year than the White House and where Michael Jordan is an industry unto himself fame and celebrity are central currencies In this intriguing book Tyler Cowen explores and elucidates the economics of fame Fame motivates the talented and draws like minded fans together But it also may put profitability ahead of quality visibility above subtlety and privacy out of reach The separation of fame and merit is one of the central dilemmas Cowen considers in his account of the modern market economy He shows how fame is produced outlines the principles that govern who becomes famous and why and discusses whether fame seeking behavior harmonizes individual and social interests or corrupts social discourse and degrades culture Most pertinently Cowen considers the implications of modern fame for creativity privacy and morality Where critics from Plato to Allan Bloom have decried the quest for fame Cowen takes a more pragmatic optimistic view He identifies the benefits of a fame intensive society and makes a persuasive case that however bad fame may turn out to be for the famous it is generally good for society and culture

For Military Merit Fred L Borch,2010-07-15 More than one million men and women have received the Purple Heart since its creation as an award for military merit in 1932 This book provides a brief history of the Purple Heart with a focus on how the decoration s award criteria have evolved over the last 75 years The book then takes a representative look at Purple Heart recipients from all the services by conflict starting with the Civil War and concluding with the on going conflicts in Afghanistan and Iraq
