Purpose Killers Rhonda J. Ferguson, 2004 **Goliath Killers** Israel Jimah, 2020-02-21 Goliath of Gath was a powerful enemy who defied the Israeli army of King Saul and by extension the God of Israel No Israelite could withstand Goliath but when David came on the scene the story changed As it was then so it is today There are Goliath forces that are seeking to frustrate the glorious destinies of individuals families communities and even nations The God of David has not changed what he did through David he is still doing today Goliath killers are being raised by the God of heaven to bring down the Goliaths that stand on their way just like David It is amazing that upon all the boastings of Goliath a young man brought him down with a stone and a sling God directed David's stone into Goliath's soft spot his forehead Your Goliath has a soft spot and God knows how to target that spot with your sling and smooth stone That Goliath in your life must die that enemy has to be brought down by the power of the God of heaven That stubborn challenge staring you in the face must come down This book is a Holy Spirit inspired spiritual war material that details the killing of Goliath by David and how you and I can rise up today and also kill our own Goliaths by the power of God We cannot allow the forces of Goliath any more space no more room for them no more chance for them enough is enough now is the time to get them down and God wants to use us like he used David Check out this book and see how you can be a Goliath killer SERIAL KILLERS William M. America's Favourite Serial Killer Jasmin Teuteberg,2009 Master s Thesis from the year 2009 in the subject Communications Movies and Television grade A excellent Stockholm University JMK Department of Journalism Media and Communication language English abstract In this study the television crime series Dexter is analysed in its significance to create a feeling of sympathy for a serial killer that is here exemplified by the analyses of the title character and protagonist Dexter Morgan Deriving from this apparently contradictory presumption the main objective of the study is thereby to examine to what extent the conception of the series and its form of representation contribute to this alleged effect and which media devices can be considered for this purpose As a starting point the theories of social constructionism and frame theory are to be analysed to show what we know and how we gain our knowledge about crime and criminals from the real life and those in fictional narratives The achieved findings of current media frames of serial killers in fiction and non fiction reveal that there are differences in the representation of serial killers in the mass media but the tools which are used to establish those frames are comparable Further by reconciling these existing frames with the frame the series Dexter generates of a serial killer a range of variations are identifiable The main finding is that the form of representation often violates genre expectations of the audience and also hitherto familiar frames of serial killers are questioned by the series concept and challenges the viewer in some way in order to promote an effect of sympathy Due to the quite innovative character of the series its investigation might provide new input in the field of media and film studies of television crime narratives Key words
