## **Reciprocal Influences Literary Production Distribution And Consumption In America:**

**Reciprocal Influences** Steven Fink, Susan S. Williams, 1999 The essays in this volume represent renewed interest in the history of the American book Inspired by the work of William Charvat the contributors trace the complex web of reciprocal influences among authors readers and the publishing trade in nineteenth and early twentieth century America *American Literature and the Culture of Reprinting, 1834-1853* Meredith L. McGill, 2013-10-11 The antebellum period has long been identified with the belated emergence of a truly national literature And yet as Meredith L McGill argues a mass market for books in this period was built and sustained through what we would call rampant literary piracy a national literature developed not despite but because of the systematic copying of foreign works Restoring a political dimension to accounts of the economic grounds of antebellum literature McGill unfolds the legal arguments and political struggles that produced an American culture of reprinting and held it in place for two crucial decades In this culture of reprinting the circulation of print outstripped authorial and editorial control McGill examines the workings of literary culture within this market shifting her gaze from first and authorized editions to reprints and piracies from the form of the book to the intersection of book and periodical publishing and from a national literature to an internally divided and transatlantic literary marketplace Through readings of the work of Dickens Poe and Hawthorne McGill seeks both to analyze how changes in the conditions of publication influenced literary form and to measure what was lost as literary markets became centralized and literary culture became stratified in the early 1850s *American Literature and the Culture of Reprinting 1834 1853* delineates a distinctive literary culture that was regional in articulation and transnational in scope while questioning the grounds of the startlingly recent but nonetheless powerful equation of the national interest with the extension of authors rights *Nineteenth-Century American Women Write Religion* Mary McCartin Wearn, 2016-05-06 Nineteenth century American women s culture was immersed in religious experience and female authors of the era employed representations of faith to various cultural ends Focusing primarily on non canonical texts this collection explores the diversity of religious discourse in nineteenth century women s literature The contributors examine fiction political writings poetry and memoirs by professional authors social activists and women of faith including Elizabeth Stuart Phelps Angelina and Sarah Grimk Louisa May Alcott Rebecca Harding Davis Harriet E Wilson Sarah Piatt Julia Ward Howe Julia A J Foote Lucy Mack Smith Rebecca Cox Jackson and Fanny Newell Embracing the complexities of lived religion in women s culture both its repressive and its revolutionary potential *Nineteenth Century American Women Write Religion* articulates how American women writers adopted the language of religious sentiment for their own cultural political or spiritual ends **American Literature in Transition, 1820-1860: Volume 2** Justine S. Murison, 2022-06-23 The essays in *American Literature in Transition 1820 1860* offer a new approach to the antebellum era one that frames the age not merely as the precursor to the Civil War but as indispensable for understanding present crises around such issues as race imperialism climate change and the role of literature in American society The

essays make visible and usable the period's fecund imagined futures that certainly included disunion but not only disunion. Tracing the historical contexts, literary forms and formats, global coordinates and present reverberations of antebellum literature and culture, the essays in this volume build on existing scholarship while indicating exciting new avenues for research and teaching. Taken together, the essays in this volume make this era's literature relevant for a new generation of students and scholars.

This perennially popular Norton Critical Edition has been revised to reflect the most current scholarly approaches to *The Scarlet Letter*, Hawthorne's most widely read novel, as well as to the five short prose works *Mrs. Hutchinson*, *Endicott and the Red Cross*, *Young Goodman Brown*, *The Minister's Black Veil*, and *The Birthmark*, that closely relate to the 1850 novel. This Second Norton Critical Edition also includes revised and expanded explanatory footnotes, a new preface, and a note on the text by Leland S. Person. *Negotiating Copyright* Martin T. Buinicki, 2014-02-04. This book examines how debates over copyright law in the United States during the nineteenth century, particularly over the lack of an international copyright law, intersected with the business practices and political and artistic beliefs of American authors. These debates shaped a discourse of literary property rights that forced authors to negotiate their copyrights not only with their publishers but with their readers as well. The author argues that the act of taking out a copyright was more than a mere legal mechanism marking a transition from amateur to professional or artist to businessperson. Taking out a copyright had a profound impact on how audiences viewed authors, how authors perceived their profession, and how they represented individual rights and property ownership within their texts. The book is unique in the scope of its research, tracking developments from the 1820s through the 1890s and in the way it approaches the work and careers of well-known authors. The author employs research from the American Antiquarian Society, the Harriet Beecher Stowe Center, and the Government and Special Collections at the University of Iowa, drawing on an array of documents including newspaper editorials, legislative hearings, court decisions, and the public and private writing of James Fenimore Cooper, Walt Whitman, Harriet Beecher Stowe, Samuel Clemens, and Emily Dickinson to demonstrate how authors found themselves in an uneasy opposition to their reading public.

*Henry James and the Media Arts of Modernity* June Hee Chung, 2019-03-20. Henry James and the Media Arts of Modernity. Commercial cosmopolitanism turns to the author's late fiction, letters, and essays to investigate his contribution to the development of an American cosmopolitan culture, both in popular and high art. The book contextualizes James's writing within a broader cultural and social history to uncover relationships among increasingly sensory-focused media technologies, mass consumer practices, and developments in literary style when they spread to Europe at the inception of the era of big

business Combining cultural studies with neoclassical Marxism and postcolonial theory the study addresses a gap in scholarship concerning the rise of literary modernism as a cosmopolitan phenomenon Although scholars have traditionally acknowledged the international character of artists participation in this movement when analyzing the contributions of American expatriate writers in Europe they generally assume an unequal degree of reciprocity in transatlantic cultural exchange with European artists being more influential than American ones This book argues that James identifies a cultural form of American imperialism that emerged out of a commercialized version of cosmopolitanism Yet the author appropriates the arts of modernity when he realizes that art generated with the mechanized principles of mass production spurred a diverse range of aesthetic responses to other early twentieth century technological and organizational innovations

**Capital Letters** David Dowling, 2009 In the 1840s and 1850s as the market revolution swept the United States the world of literature confronted for the first time the gaudy glare of commercial culture Amid growing technological sophistication and growing artistic rejection of the soullessness of materialism authorship passed from an era of patronage and entered the clamoring free market In this setting romantic notions of what it meant to be an author came under attack and authors became professionals In lively and provocative writing David Dowling moves beyond a study of the emotional toll that this crisis in self definition had on writers to examine how three sets of authors in pairings of men and women Harriet Wilson and Henry David Thoreau Fanny Fern and Walt Whitman and Rebecca Harding Davis and Herman Melville engaged with and transformed the book market What were their critiques of the capitalism that was transforming the world around them How did they respond to the changing marketplace that came to define their very success as authors How was the role of women influenced by these conditions *Capital Letters* concludes with a fascinating and daring transhistorical comparison of how two superstar authors Herman Melville in the nineteenth century and Stephen King today have negotiated the shifting terrain of the literary marketplace The result is an important contribution to our understanding of print culture and literary work

wider distribution of books woodblock technology's simplicity and mobility allowed for a shift in China of its production and distribution sites farther down the hierarchy of urban sites than was common in Europe And the different demands and consumption practices within these two regions expanding markets led to different genre preferences and uses as well as to the growth of distinctive female readerships A substantial introduction pulls the work together and the volume ends with an essay that considers how these historical developments shape the present book worlds of Eurasia This splendid volume offers expert new insight into the ways of producing financing distributing and reading printed books in early modern Europe and East Asia This is comparative history at its best which leaves us with a better understanding of each context and of the challenges common to book cultures across space and time Ann Blair author of *Too Much to Know* Managing Scholarly Information before the Modern Age and professor of history Harvard University This engrossing account of the history of the book by leading specialists on the European and East Asian publishing worlds takes stock of what we know and how much we still need to know about the places that books had in the lives of our early modern forebears Each chapter is masterful state of the field coverage of its subject and together they set a new standard for future studies of the book East and West Timothy Brook author of *The Troubled Empire* China in the Yuan and Ming Dynasties
