Reclaimed Powers Men And Women In Later Life:

Reclaimed Powers David Gutmann,1994 A unique feature of human development is that mothers and fathers are bound to a long period of child rearing during which the continuity of our species depends on the fulfilment of distinct parental roles and on the suppression of psychological potentials that conflict with those roles But once the parental emergency is over the author argues men and women can assert those parts of their personalities curbed by the restrictions of raising children It is this shift in roles a product of evolution found throughout our species that led David Gutmann to propose a new psychology of ageing based not on the threat of loss but on the promise of important new pleasures and capacities *Reclaimed Powers* David Gutmann,1988 *Handbook of Emotional Disorders in Later Life* Ken Laidlaw,Bob Knight,2008 Although the perceptions and realities of ageing have changed markedly over the last few decades for practitioners working with older people emotional problems remain a major factor of health and happiness in later life This handbook provides a concise authoritative and up to date guide to best practice in therapy for older people for a wide range of mental health professionals The editors bring together chapters by experienced trainers and clinicians that cover all the significant problems and issues in the assessment and treatment of emotional disorders in later life The introductory chapters examine the individual social cultural and physical experience of ageing and provide an essential background for a caring and professional understanding of related emotional disorders and their effective treatment Throughout the book key research and clinical experience is reported as underlying evidence based treatment but the emphasis is on practical guidance for assessment and interventions rather than detailed discussion of methodological issues With each chapter written by a specialist in their field a range of expertise is provided in a single source making this book an invaluable resource for anyone dealing with the mental health needs of older people **Encyclopedia of Adult Development** Robert Kastenbaum,1993-10-01 Robert Kastenbaum creator of the award winning Encyclopedia of Death has now collected and edited a source of reliable information on adult development that is accessible to the general reader useable by professionals and perfect for those who are simply browsing This work is a fascinating and highly informative look at the milestones and ordeals the key issues and the concerns of American adults The book expands our understanding of adulthood through 105 articles written by more than 70 contributing specialists from the fields of psychology anthropology religion and sociology *Older Men's Lives* Edward H. Thompson,Edward H. Thompson (Jr.),1994-06-07 In this multidisciplinary portrait of men and their concerns in later life the contributors use both a life course and gendered perspective to point out that the image and self image of men are continually reconstructed throughout the life cycle Issues examined include the position of older men in society and the changes wrought in their status and roles over time men s relationships to spouse children grandchildren and friends and policy implications *Longevity and Social Change in Australia* Allan Borowski,Sol Encel,Elizabeth Ozanne,2007 Covers a wide range of issues including health retirement incomes aged care family relations employment housing and town planning

special attention is given to the particular structural disadvantages affecting women Aboriginal Australians and ethnic minorities

Authoritative Communities Kathleen Kovner Kline, 2007-11-25 Authoritative Communities The Scientific Case for Nurturing the Whole Child introduces innovative solutions based firmly in the children's mental health and resilience literature and in the hypothesis that humans are hardwired to connect These authoritative communities consist of such individuals and institutions as parents teachers coaches elders and a variety of organizations that are committed to each other's well being over the long term and who instill children with prosocial values such as empathy and compassion Living within these communities enables children and youth to develop a consistent sense of purpose and meaning so that they in turn are able to grow up to be responsible productive and nurturing adults The comprehensive coverage in this volume brings new insights and evidence to the nature nurture debate from developmental attachment neurobiological spiritual and community perspectives including Nurturing as a protective factor against genetic predispositions Counteracting the adverse influence of the media on children Promoting a sense of community in disadvantaged youth Spiritual approaches from the Buddhist minding children with mindfulness to traditional young men's rites of passage Adolescent development from psychobiology to the formation of conscience Dispatches from the civil society movement the School Development Program and the motherhood movement This volume is essential reading for researchers and practitioners as well as graduate level students in developmental clinical and social psychology as well as related fields such as sociology social work education and religious studies

Your One Wild and Precious Life Maureen Gaffney, 2021-09-16 WINNER OF THE AUDIENCE CHOICE IRISH BOOK AWARD 2021 Once you've got a few decades on the clock life can seem sort of cross roadsy Once you're no longer thinking of yourself as young you may be looking back thinking How did I get here And also looking ahead wondering What do I do now This realization that neither time nor choices are limitless is both daunting and exciting This is the moment to take stock and figure out how to make the best of every precious moment of the rest of your life And to develop the tools to be able to do so again and again Your One Wild and Precious Life is an eye opening account of this surprisingly liberating process Using the latest ground breaking research leading psychologist Maureen Gaffney has written an inspiring and practical guide for getting to grips with time Taking the key stages of our life from infancy to old age she explores what we learn at each stage And crucially she explains how no matter what has happened in the past and what age you are you can find a better route forward Your One Wild and Precious Life is both profound and reassuring It will transform your thinking connect you with who you truly are and help you to reclaim control over your life Crucially it will empower you to face the future with optimism It is a book to fundamentally alter your relationship with time and show you that every age can be your best age A profound important work simultaneously wise instructive and a love letter to humanity IRISH TIMES Fascinating and engaging SUNDAY TIMES A must read IRISH DAILY MAIL It will transform your thinking IRISH FARMERS JOURNAL

The Psychological Development of Girls and Women Sheila Greene, 2014-11-27 Choice Recommended

Read This thoroughly revised new edition updates Sheila Greene s original transformative account of the psychological development of girls and women and the central role of time in shaping human experience Greene critically reviews traditional and contemporary theoretical approaches ranging from orthodox psychoanalysis to relational and post modern theories and argues that even those that claim to focus on development have presented a view of women s lives as fixed and determined by their nature or their past These theories she believes should be rejected because of their inherent lack of validity and their frequently oppressive implications for women Essential but often neglected insights from the more compelling developmental and feminist theories are woven together within a theoretical framework that emphasizes temporality emergence and human agency The result is a liberating theory of women s psychological development as constantly emerging and changing in time rather than as static and fixed by their nature socio cultural context and personal history Updated for a new generation of readers The Psychological Development of Girls and Women will continue to be essential reading for students and researchers in the psychology of women developmental psychology and women s studies

Women & Aging Helen Rippier Wheeler,1997 Guide with more than two thousand bibliographic entries and cross references It includes journal articles book chapters essays and doctoral dissertations as well as complete books The Meanings of Age Bernice L. Neugarten,1996-12-15 Neugarten who explains and highlights Neugarten s contributions in light of the most recent research in the fields of gerontology and social policy Carefully edited by Dail A Neugarten each chapter presents the reader with Bernice Neugarten s original formulations on topics such as age norms and age constraints the changing meanings of age and age neutral social policy Learning to Be Old Margaret Cruikshank,2009-01-16 What does it mean to grow old in America today Is successful aging our responsibility What will happen if we fail to grow old gracefully Especially for women the onus on the aging population in the United States is growing rather than diminishing Gender race and sexual orientation have been reinterpreted as socially constructed phenomena yet aging is still seen through physically constructed lenses The second edition of Margaret Cruikshank s Learning to Be Old helps put aging in a new light neither romanticizing nor demonizing it Featuring new research and analysis expanded sections on gay lesbian bisexual transgender aging and critical gerontology and an updated chapter on feminist gerontology the second edition even more thoroughly than the first looks at the variety of different forces affecting the progress of aging Cruikshank pays special attention to the fears and taboos multicultural traditions and the medicalization and politicization of natural processes that inform our understanding of age Through it all we learn a better way to inhabit our age whatever it is **Handbook of Personality**
