ever changing contemporary healthcare systems A wide range of issues central to spiritual care delivery are covered including reflections on what it feels like to be cared for by a chaplain through illness the nature of chaplaincy as a profession and how chaplains can engage with healthcare institutions in ways that have integrity yet are also deeply spiritual The focus throughout is that chaplaincy should not only be guidance for people in distress as a form of crisis intervention but is rather about helping to promote wellbeing and enhance people s quality of life Where specialisms tend to fragment systems and individuals this book seeks to show that true health and wellbeing can only be found through a holistic approach and shows how chaplaincy can bring this to the table This book is for anyone who recognises the centrality of spirituality for wellbeing and wishes to see what that might look like in practice Receive Your Healing and Reclaim Your Health Cal
