Rutland, 2021-02-22 This book explores the advantages of and challenges concerning Special Religious Education SRE in multicultural Australia and argues for the need for General Religious Education GRE as well Through the lens of the most recent scholarship and drawing on an in depth qualitative study and specific case studies the book examines the current debate on the role of religious education within government schools It addresses key concepts of values education spirituality health and wellbeing and cultural and religious identity It analyses why it is important to retain SRE together with GRE as government policy It explores highly relevant controversial and contested issues regarding SRE including the 30% of Australia's population who declare themselves as having no religion and brings fresh insights to the table While secularization has increased in both the national and international spheres there

has also been an increase in fundamentalism within religious beliefs. Events such as the September 11 terror attacks and the more recent mass shootings by white supremacists and eco fascists in Christchurch New Zealand and Pittsburgh and San Diego in the USA are reminders that religion is still a major actor in the twenty first century. This poses new challenges for the relationship between church and state and demonstrates the need to revisit the role of religious education within government schools. While the importance of GRE is generally acknowledged, SRE has increasingly come under attack by some researchers and teacher and parent bodies as being inappropriate and contradictory to the values of the postmodern world. On the other hand, the key stakeholders from all the faith traditions in Australia wish to retain the SRE classes in government schools. The book addresses this burning issue and shows that it is relevant not only for Australia but also globally.

*Conflicting Philosophies of Education in Israel/Palestine* Ilan Gur-Ze'ev, 2013-06-29 effectiveness and creativity in different contexts. In this issue, this will be presented in full detail in the articles which refer to different aspects of the Israeli educational context. This special issue of *Studies in Philosophy and Education* concentrates on the intellectual impotence, moral devotion, cultural willingness, and social and technological efforts for the preservation and enhancement of the tyranny of normalizing education over human beings in a specific arena. The various studies in this issue, with all their differences of orientation and issues under consideration, will reconstruct the ways for forcing subjects and communities to commit themselves to destroy the otherness or the human potential of the inner and external Other. They reveal this phenomenon as a characteristic of both the victimizers and their 8 victims. Normally, philosophy of education supports this process and justifies or hides this reality. As will be shown in this special issue, however, at the same time, philosophy of education might also become a non-productive or even a rebellious element in the culture industry and present a serious challenge to the present order. It can address and challenge the perpetual success of normalizing education in all its versions among all rival communities, narratives, and armies of teachers, consumers, soldiers, and intellectuals. This, of course, does not guarantee that such a critique or resistance will not become another dogmatic or nihilistic blow to the free Spirit or nothing but another version of normalizing education.

**Liberalism, Education and Schooling** T.H. McLaughlin, 2017-03-27 A tribute collection of essays edited by author's colleagues and friends.

**The Possibility/Impossibility of a New Critical Language in Education**, 2010-01-01 The critique of Critical Pedagogy in its current various trends and paths teaches me not only the shortcomings of various versions of Critical Pedagogy. No less important, it offers an invitation to a reflection on the limitations, costs, and open horizons of critique itself. It is an invitation to transcend critique as such. But what alternative do we have and from where or with what ears might we listen to the music of the new call? What is it that awaits us outside the critical tradition that in an unproblematic manner we could use, internalize, or surrender ourselves to? Such questions reintroduce us to Utopia. They reintroduce us to the Utopia of the possibility of happiness of the kind that is neither made possible nor advocated by self-abandonment and enslavement, destruction of the otherness of the Other, and the I. This book

manifests a refusal to abandon Critical Theory's telos it offers no solutions victories of the oppressed and emancipation neither does it promise peace and unproblematic consensus On the contrary all the eternal open Diasporic individual can hope for is worthy Diasporic Love of Life creativity mature forms of togetherness and eternal nomadism as a manifestation of co poiesis
