## **Reclaiming Our Lives Hope For Adult Survivors Of Incest:**

*Reclaiming Our Lives* Carol Poston, Karen Lison, 2001 It is estimated that at least one in four or five women and one out of ten men was sexually abused as a child by a family member Most of those people continue to suffer in adulthood because of undeserved guilt anxiety and shame *Reclaiming Our Lives* written by a survivor of abuse and a psychotherapist specializing in the treatment of adult survivors of abuse uses interviews with survivors and a healing approach to track the adult problems and what to do about them Issues of trust power control sexuality and intimacy are examined in detail The book concludes with an alphabet of survival tactics and a fourteen step guide for growth for the survivor     Communication and Disenfranchisement Eileen Berlin Ray, 2013-12-02 This volume and its companion case studies book deal with some of the people groups and classes who are living a disenfranchised existence in the United States Whether through birth life events or unfortunate circumstances they are denied full privileges rights and power within the existing societal structure Centered around societal health problems as they relate to socioeconomic status family abuse and health concerns these volumes examine salient issues from several theoretical frameworks including feminist theory and the social construction of reality *Communication and Disenfranchisement* provides theory based essays on topics such as the homeless adult survivors of sexual assault battered women persons with disabilities impoverished women the indigent living in the inner city persons with HIV AIDS the terminally ill and the elderly *Case Studies in Communication and Disenfranchisement* provides parallel case studies applying the issues and concepts discussed in the essays Used together these books provide theoretically based applications of social health issues within a communication framework Traditionally health communication research has emphasized the communication physical health relationship Inadvertently this primary focus has restricted what information has been included under the domain of health communication These books expand that domain by examining how the communication disenfranchisement relationship is accomplished managed and overcome and by recognizing the significance of the pragmatic and theoretic implications of this inquiry     *Beyond Survival* Cathy Brochu, 2007-10-24 *Beyond Survival* Reclaiming Self the third and final segment of the trilogy series exemplifies the true meaning of individuals and community working together You will experience through another's eyes the pain and healing power in the form of imagery poetry short stories and lyrics all of which can be instrumental in the healing journey of incest and sexual assault     Case Studies in Communication and Disenfranchisement Eileen Berlin Ray, 2013-12-02 See blurb for *Communication and Disenfranchisement* Books will be promoted together     The Myth of Repressed Memory Elizabeth Loftus, Katherine Ketcham, 2013-06-25 According to many clinical psychologists when the mind is forced to endure a horrifying experience it has the ability to bury the entire memory of it so deeply within the unconscious that it can only be recalled in the form of a flashback triggered by a sight a smell or a sound Indeed therapists and lawyers have created an industry based on treating and litigating the cases of people who suddenly claim to have recovered memories of everything from child abuse to murder This book reveals that

despite decades of research there is absolutely no controlled scientific support for the idea that memories of trauma are routinely banished into the unconscious and then reliably recovered years later Since it is not actually a legitimate psychological phenomenon the idea of recovered memory and the movement that has developed alongside it is thus closer to a dangerous fad or trendy witch hunt

From Surviving to Thriving Christine Dinsmore, 1991-01-01 This book will be of great value to any survivor of incest Equally important Christine Dinsmore teaches the rest of us therapists family members and friends how to be helpful to the survivor who takes on the task of ending the secrecy recovering memories and experiencing feelings Dinsmore points out that the recovery process is unique for each survivor You won't find any pat formulas here Instead the reader is left with a sensitivity and an awareness of the role one might play in the survivor's journey from the Foreword Jane R Hirschmann From Surviving to Thriving Incest Feminism and Recovery analyzes incest recovery from a feminist perspective It is based on research with incest survivors and years of therapy with survivors of childhood sexual abuse Unlike other writings on incest recovery this book links the incest with patriarchy and its belief in male sexual entitlement The discussions of incest and its traumatic effects society's response to the sexual abuse of children the recovery process and the role of the supporting cast are reinforced by the words of incest survivors themselves A detailed account of the incest healing treatment is also provided with specific treatments suggested for therapists working with incest survivors

*Unspeakable Acts* Doug W. Pryor, 1999 A holistic sociological approach that explores why offenders sexually abuse children. The sexual abuse of children is one of the most morally unsettling and emotionally inflammatory issues in American society today. It has been estimated that roughly one out of every four girls and one in ten boys experience some form of unwanted sexual attention either inside or outside the family before they reach adulthood. How should society deal with the sexual victimization of children? Should known offenders be released back into our communities? If so, where and with what rights should they be allowed to live? In *Unspeakable Acts* Douglas W. Pryor argues that much of this debate designed to deal with abusers after they have offended ignores the important issue of why men cross these forbidden sexual boundaries to molest children in the first place and how the behavior can possibly be prevented before it starts. Incorporating in-depth interviews with more than thirty convicted child molesters, Pryor explores how men become involved with breaking sexual boundaries with children. He looks at how their lives prior to offending contributed to and led up to what they did, the ways that initial interest in sex with children began, the tactics offenders employed to molest their victims over time, how they felt about and reacted to their behavior between offending episodes, and how they were ultimately able to stop. The author expands our understanding of this often reviled little understood group, leaving us with the uneasy conclusion that the moral wall separating us from what is defined as extreme sick behavior is not as opaque as we would like to believe.

*Skeletons in the Closet* Jan E. Trost, 2011-01-17 *Skeletons in the Closet* consists of ten essays about unresolved or unresolvable family conflicts. The contributors start from the assumption that families, whether legal marriage, families, common law marriage, families, single parent families, multiple generation families, same sex partnerships, or adoptive families, are cradles of intense emotion. That intensity, they argue, may translate into conflict, competition, domination, abuse, exploitation, or even hate. This book explores those areas most likely to grip family members in unresolved interpersonal strife, as well as the strategies people use to solve the issues and the shame and isolation that conflict brings in societies that normatively expect family life to be one of joy, mutual sharing, and caring.

**True And False Allegations Of Child Sexual Abuse** Tara Ney, 2013-06-20 It is important for society that the backlash does not result in the reburial of the problem of child sexual abuse. *True and False Allegations of Child Sexual Abuse* represents an important contribution to that effort. This book is about conducting evaluations of allegations of child sexual abuse that take into account research knowledge and practice wisdom. It is not a cookbook about how to do evaluations. Rather, it provides a great deal of food for thought and is aimed at child abuse professionals who can critically read and test the material against their experiences in the field. It includes a wide spectrum

of information approaches and opinions about child sexual abuse evaluation

Time and Commodity Culture is a set of four linked essays on the cultural systems of postmodernity Rather than taking modernity and postmodernity as real historical epochs however it understands them as strategies for organizing time and social order by means of a nostalgic division within them Each essay explores a particular dimension of this organization of time especially in relation to the anxieties and the possibilities created by the commodification of culture The central essay Gift and Commodity studies two areas in which the speed of commodification has increased markedly in recent years That of the person and that of information Using a mix of anthropological legal economic and historical materials it investigates the privatization of the commons in information by way of such things as the development of markets in human DNA the trade in human organs and the creation of property rights in personality What Was Postmodernism analyses the structured anxiety about the commodification of culture that is called postmodern theory A further essay explores tourism as a figure of modernity and a final essay on memory explores the phenomena of recovered memory and of Holocaust remembrance as ways of constructing temporally ordered forms of the real
