Reclaiming The American Revolution:

Reclaiming the American Revolution W. Watkins, 2016-04-30 Reclaiming the American Revolution examines the struggles for political ascendancy between Federalists and the Republicans in the early days of the American Republic Watkins views the struggle through the lens of the Kentucky and Virginia Resolutions charters written by Thomas Jefferson and James Madison respectively that were responses to the Alien and Sedition Acts passed by Federalists that among other things made criticism of the federal government a crime Viewing those acts as a threat to states rights as well as indicative of a national government that sought supreme power the Resolutions restated the principles of the American Revolution and sought to return the nation to the tenets of the Constitution in which rights for all were protected by checking the power of the national government

Reclaiming Freedom Aziz Rana, 2024-01-02 A curious thing has happened within American culture Aziz Rana writes The language of freedom has been claimed almost entirely by the political right Can it be reclaimed Freedom has a dual legacy On the one hand it stands for the great struggles long associated with the left from abolition and anticolonialism to women s and queer liberation On the other hand it has long been the watchword of an exclusionary right playing a central role in the politics of neoliberalism and resurgent white nationalism Rejecting this view of freedom as an exclusively right wing concern this issue reclaims freedom as a fundamental political value essential to any vision of a more just world Aziz Rana leads a forum on the path to a different politics of freedom In the United States he argues reactionary uses of freedom at home have been emboldened by U S imperial power abroad But the language of freedom can be genuinely liberating by building emancipatory institutions of collective agency and self rule Featuring eleven respondents including Pulitzer Prize winning historian Jefferson Cowie political theorists Adom Getachew Lea Ypi and Nancy Hirschmann and philosophers Ol f mi O T w and Philippe Van Parijs the forum clarifies how both political messaging and institution building are essential to extending real freedom to all Plus essays on the legacy of Cold War liberalism fifty years of liberation theology violence in Israel Palestine and the Stop Cop City movement reviews of M E O'Brien s Family Abolition Melissa Kearney s The Two Parent Privilege Helen Hester and Nick Srnicek s After Work and Paul Lafargue s The Right to Be Lazy an interview on Black existentialism and prose poetry

The Memory of '76 Michael D. Hattem,2024-06-11 The surprising history of how Americans have fought over the meaning and legacy of the Revolution for nearly two and a half centuries Americans agree that their nation s origins lie in the Revolution but they have never agreed on what the Revolution meant For nearly two hundred and fifty years politicians political parties social movements and a diverse array of ordinary Americans have constantly reimagined the Revolution to fit the times and suit their own agendas In this sweeping take on American history Michael D Hattem reveals how conflicts over the meaning and legacy of the Revolution including the Declaration of Independence and the Constitution have influenced the most important events and tumultuous periods in the nation s history how African Americans women and other oppressed groups have shaped the popular memory of the Revolution and how much of our contemporary memory of the Revolution is a product of the Cold War By exploring the Revolution s unique role in American history as a national origin myth Hattem shows how the meaning of the Revolution has never been fixed how remembering the nation s founding has often done far more to divide Americans than to unite them and how revising the past is an important and long standing American political tradition

Losing Hearts and Minds Matthew K. Shannon, 2017-12-15 Matthew K Shannon provides readers with a reminder of a brief and congenial phase of the relationship between the United States and Iran In *Losing Hearts and Minds* Shannon tells the story of an influx of Iranian students to American college campuses between 1950 and 1979 that globalized US institutions of higher education and produced alliances between Iranian youths and progressive Americans *Losing Hearts and Minds* is a narrative rife with historical ironies Because of its superpower competition with the USSR the US government worked with nongovernmental organizations to create the means for Iranians to train and study in the United States The stated goal of this initiative was to establish a cultural foundation for the official relationship and to provide Shah Mohammad Reza Pahlavi with educated elites to administer an ambitious program of socioeconomic development Despite these goals Shannon locates the incubation of at least one possible version of the Iranian Revolution on American college campuses which provided a space for a large and vocal community of dissident Iranian students to organize against the Pahlavi regime and earn the support of empathetic Americans Together they rejected the Shah's authoritarian model of development and called for civil and political rights in Iran giving unwitting support to the rise of the Islamic Republic of Iran
