**Neighborhood Church** Robert G. Moss, 2014-09-16 The purpose of this book is to provide a theologically sound yet easy to use resource based on the image of God that can help congregations engage relationally in their neighborhoods Rather than using the neighborhood as a resource to help make congregations successful The Neighborhood Church contends that God places congregations in neighborhoods to help make neighborhoods successful in accordance with God s vision This book is intended as a resource for pastors and other church leaders who pour significant amounts of energy into their congregations but feel frustrated with the results The problem isn t with church leaders energy or commitment On the contrary it s a lack of awareness as to how that energy and commitment can be channeled within God s call mission and movement This book is a crucial resource for congregations having difficulty navigating the treacherous waters of what it means to be successful according to God s vision

*Christianity and Ethnicity in Canada* Paul Bramadat, David Seljak, 2008-06-14 Over the past decade scholars and policy makers interested in Canadian multiculturalism have begun to take religion much more seriously Moreover Christian communities have become increasingly aware of the impact of ethnic diversity on church life However until very recently almost no systematic academic attention has been paid to the intersection between the ethnic and religious identities of individuals or communities This gap in both our academic literature and our public discourse represents an obstacle to understanding and integrating the large numbers of ethnic Christians most of whom either join existing Canadian churches or create ethnically specific congregations In *Christianity and Ethnicity in Canada* eleven scholars explore the complex relationships between religious and ethnic identity within the nine major Christian traditions in Canada The contributors discuss the ways in which changes in the ethnic composition of these traditions influence religious practice and identity as well as how the nine religious traditions influence communal and individual ethnic identities An introductory chapter by Paul Bramadat and David Seljak provides a thorough discussion of the theoretical historical and empirical issues involved in the study of Christianity and ethnicity in Canada This volume complements *Religion and Ethnicity in Canada* in which the authors address similar issues within the six major non Christian communities in Canada and within Canadian health care education and politics

*Sexuality and Social Justice in Africa* Marc Epprecht, 2013-07-11 The persecution of people in Africa on the basis of their assumed or perceived homosexual orientation has received considerable coverage in the popular media in recent years Gay bashing by political and religious figures in Zimbabwe and Gambia draconian new laws against lesbians and gays and their supporters in Malawi Nigeria and Uganda and the imprisonment and extortion of gay men in Senegal and Cameroon have all rightly sparked international condemnation However much of the analysis has been highly critical of African leadership and culture without considering local nuances historical factors and external influences that are contributing to the problem Such commentary also overlooks grounds for optimism in the struggle for sexual rights and justice in Africa not just for sexual minorities but for the majority population as well Based on pioneering research on the history of homosexualities and engagement with current LGBTI and HIV AIDS activism Marc Epprecht provides a sympathetic overview of the issues at play and a hopeful outlook on the potential of sexual rights for all

*Mother on Fire* Sandra Tsing Loh, 2009-08-04 Sandra Tsing Loh is the fiercest funniest and most incredibly honest voice to emerge from the mommy war debates Here she fires away with the trademark satire of societal and personal irks prompted by her own midlife crisis when she realizes she can't afford private school for her daughter and her only alternative is her neighborhood's beyond repair public school Publisher's note

**We Are All Priests** Roger Whittall, 2023-12-11 In this book Roger Whittall argues that Luther's teaching on the common priesthood the priesthood of believers was a persistent element of Luther's ecclesiology and closely related to his understanding of the church as the communion of saints Whittall's focus is the common priesthood's activity in the Christian community moving beyond its contested relationship to the church's ordained ministry or the views that limit its appearance to Luther's early polemical writings Rather the common priesthood stands alongside the public ministry They are equal partners in the church's mandate to receive and speak God's word to respond in prayer praise and joyful service of God's world and all its people This wide ranging investigation features later material not often considered in relation to the common priesthood For Luther priesthood was a biblical expression of Christian spiritual life worship and service forming

both the personal faith of individual Christians and the corporate nature of the Christian community Whittall also examines Luther's use of key biblical texts to link church and priesthood through the themes of unity and community equality and participation Understood in this way this priesthood still speaks powerfully to the identity and mission of the church today

**Feminism and Modernity in Anglophone African Women's Writing** Dobrota Pucherová, 2022-07-29 This book re-reads the last 60 years of Anglophone African women's writing from a transnational and trans-historical feminist perspective rather than postcolonial from which these texts have been traditionally interpreted Such a comparative frame throws into relief patterns across time and space that make it possible to situate this writing as an integral part of women's literary history Revisiting this literature in a comparative context with Western women writers since the 18th century the author highlights how invocations of tradition have been used by patriarchy everywhere to subjugate women the similarities between women's struggles worldwide and the feminist imagination it produced The author argues that in the 21st century African feminism has undergone a major epistemic shift from a culturally exclusive to a relational feminism that conceptualizes African femininity through the risky opening of oneself to otherness transculturation and translation Like Western feminists in the 1960s contemporary African women writers are turning their attention to the female body as the prime site of women's oppression and freedom reframing feminism as a demand for universal human rights and actively shaping global discourses on gender modernity and democracy The book will be of interest to students and researchers of African literature but also feminist literary scholars and comparatists more generally
