Recognition Of Lesbian Couples An Inalienable Right:

Recognition of Lesbian Couples Irène Demczuk, Canada. Status of Women Canada. Policy Research, 2002 This report provides a critical analysis of incrementalist strategy and the formal equality approach as applied to the legal recognition of same sex couples in Canada The analysis is based on an examination of the evolution of Canadian law an overview of the various models for the legal recognition of same sex couples adopted elsewhere in the world as well as a survey of the expectations needs expressed by lesbian groups in Quebec Francophone Ontario The study also attempts to determine the financial impact of including lesbian couples in Canada s income security tax programs Starting from a feminist multidisciplinary point of view the research draws its methodology from the disciplines of law economics sociology The study concludes by suggesting principles approaches for reform that go beyond merely extending to same sex couples the rights and obligations associated with marriage common law or de facto relationships It proposes a complete rethinking of conjugal regimes in both private public law so that they can be adjusted to reflect the diversity of domestic relationships and the fluidity of conjugal family realities that mark Canadian society today

Legal Recognition of Same-sex Couples in Europe Katharina Boele-Woelki, Angelika Fuchs, 2003 The legal recognition of same sex couples in Europe has undergone dramatic changes over the last few years Following the Scandinavian model many European countries have adopted statutes on registered partnerships or are currently debating draft legislation The differences are bigger than one would expect at first sight This book provides detailed information about the current state of affairs The latest adopted statutes and draft legislation are included

Queer Inclusions, Continental Divisions David Morton Rayside, 2008-01-01 No area of public policy and law has seen more change than lesbian gay bi sexual and trans gender rights and none so greatly needs careful comparative analysis *Queer Inclusions Continental Divisions* explores the politics of sexual diversity in Canada and the United States by analyzing three contentious areas relationship recognition parenting and schooling It enters into long standing debates over Canadian American contrasts while paying close attention to regional differences David Rayside s examination of change over time in the public recognition of sexual minorities is based on his long experience with the analysis of trends as well as on a wide ranging search of media legal and social science accounts of developments across Canada and the United States Rayside points to a take off pattern in Canadian policy change on relationship recognition and parenting but not in schooling At the same time he explores the reasons for a pioneering pattern in early gains by American LGBT activists a surprising number of court wins by American lesbian and gay parents and changes in American schooling that while still modest are more substantial than those instituted by the Canadian system *Queer Inclusions Continental Divisions* is a timely examination of controversial policy areas in North America and a reasoned judgment on the progress of lesbian and gay issues in our time

A Life in Balance? Catherine Krull, Justyna Sempruch, 2011-02-28 Magazine articles talk shows and commercials advise us that our happiness and well

being rest on striking a balance between work and family It goes unsaid however that the advice is based on an outmoded and unrealistic ideal This volume reopens the work life balance debate Contributors argue that to truly resolve work family issues we must recognize work and family life as overlapping aspects of a single existence rather than separate and competing spheres A Life in Balance transcends prevailing myths by revealing how paid work employment and unpaid work caregiving and housework continue to be set against each other particularly in support of neo liberal agendas A truly equitable national childcare policy must be informed by alternative approaches to integrating family and paid work such as stay at home fathers family policy in Quebec and work and care in Aboriginal communities **Beyond Expectation**

Jacquelyne Luce,2010-04-02 An in depth study of lesbian bi and queer women s experiences of thinking about and trying to become a parent Beyond Expectation draws on eighty two narrative interviews conducted during the late 1990s in British Columbia Jacquelyne Luce chronicles these women s experiences which took place from 1980 to 2000 during a period that saw significant changes to the governance of assisted reproduction and the status of lesbian gay bisexual and transgender parents and same sex partners Beyond Expectation looks closely at the changing contexts in which women s experiences occurred and draws attention to complex issues such as contracting relationships mediating understandings of biology and genetics and decision making amidst various social legal and medical developments Luce skillfully juxtaposes the stories of her interviewees with the wider public discourses about lesbian bi queer parenting and reproductive technology and highlights gaps in existing legislative reforms Most importantly Beyond Expectation foregrounds the lived experiences of lesbian bi and queer women as they negotiate kinship at the intersection of reproduction technology and politics Under

Auger, 2003 This study of the challenges that same sex couples face in Nova Scotia considers the legal issues that have arisen since Nova Scotia passed legislation permitting same sex couples to legally register their relationship and the social expectations that continue to affect personal decisions Closeted relationships and the history of discrimination have led many partners to avoid making end of life decisions The personal interviews and group discussions presented offer insight into the challenges that same sex couples face and provide a framework for discussing what partners need to consider to assert their legal rights Women's rights, gender inequality, and intersectional vulnerabilities: Exploring substantive transformative equality in the African continental and regional human rights systems 20 years after the adoption of the Maputo Protocol Annika Rudman, Alejandro Fuentes, 2025-06-01 This book titled Women's Rights Gender Inequality and Intersectional Vulnerabilities Exploring substantive transformative equality in the African continental and regional human rights systems 20 years after the adoption of the Maputo Protocol addresses a wide range of issues related to women's rights gender based discrimination abuse exploitation and violence It shifts away from a formalist approach to equality instead adopting a transformative perspective on human rights law The objective is to assess the progress made by the African human rights system toward implementing substantive transformative equality for women and girls while also identifying necessary improvements to achieve this goal The chapters in this book originate from the Regional Africa Human Rights Academic Network Conference 2023 held from 13-15 September 2023 at Stellenbosch University South Africa Hosted by the Faculty of Law at Stellenbosch University the conference was organised by the Raoul Wallenberg Institute of Human Rights and Humanitarian Law RWI with financial support from the Swedish International Development Cooperation Agency Sida in collaboration with its academic partner institutions the Academic Network under the Regional Africa Programme 2019-2024 **Historical Dictionary of the Lesbian and Gay Liberation Movements** JoAnne Myers, 2013-09-19 Not so long ago hardly anything was said of the Lesbian Liberation Movement and the Gay Liberation Movement indeed the terms gay and lesbian were not even used if some other expression could be found Today by contrast hardly a day passes when something important does not occur and is carried by the major media and disseminated on more personal levels through blogs and the social media If anything there is perhaps too much news and not enough information Obviously a book like this cannot keep up with the news but it can do something equally important when

it comes to information by reminding us of the past and what has been going and just how fast events are moving The Historical Dictionary of the Lesbian and Gay Liberation Movements covers the history of this movement through a cross referenced dictionary with over 1000 entries on specific countries and regions influential historical figures laws that criminalized same sex sexuality various historical terms that have been used to refer to aspects of same sex love and contemporary events and legal decisions Including a comprehensive chronology and bibliography this book is an excellent access point for students researchers and anyone interested in learning more about the struggle for equality Moral Argument, Religion, and Same-sex Marriage Gordon Albert Babst, Emily R. Gill, Jason Pierceson, 2009-01-01 This book engages with opponents of same sex marriage on their own turf morals discourse and demonstrates that legal and political argumentation is on the side of gay rights advocates on this contemporary vexing issue The diversity of its authors makes the book suitable for courses in political theory Constitutional law American politics and gay studies *Feminism, Capitalism, and Critique* Banu Bargu, Chiara Bottici, 2017-07-24 This edited collection examines the relationship between three central terms capitalism feminism and critique while critically celebrating the work and life of a thinker who has done the most to address this nexus Nancy Fraser In honor of her seventieth birthday and in the spirit of her work in the tradition of critical theory this collection brings together scholars from different disciplines and theoretical approaches to address this conjunction and evaluate Fraser s lifelong contributions to theorizing it Scholars from philosophy political science sociology gender studies race theory and economics come together to think through the vicissitudes of capitalism and feminism while also responding to different elements of Nancy Fraser s work which weaves together a strong feminist standpoint with a vibrant and complex critique of capitalism Going beyond conventional disciplinary distinctions and narrow debates all the contributors to this project share a commitment to critically understanding the connection between capitalism exploitation and the viable roads for emancipation They recover insights provided by classical traditions of political and social thought but they also open new research directions adapted to the global challenges of our time The Wiley Handbook of Developmental Psychology in Practice Kevin Durkin, H. relationship recognition on lesbian women as a class After an introduction on the history of Canadian legal and the importance of ensuring that relationship recognition laws do not differentially burden or benefit any class of people Sexy Families for Sexy Citizens? Dagmar Mehrtens, 2011-07-04 Master's Thesis from the year 2004 in the subject Politics Topic Public International Law and Human Rights grade 9.0 University of Lisbon Faculty of Law Ius Gentium University of Coimbra course European Master's Programme in Human Rights and Democratisation language English abstract Over recent years sexual minorities have growingly gained attention in the human rights discourse This attention focuses on the de-criminalisation and anti-discrimination of lesbians, gays and others However states and human rights instruments remain unwilling to view those belonging to these newly established minorities in their complexity as social individuals and citizens This makes it very difficult for sexual minorities to do things considered quite normal and essential for others such as living a family life and raising children Raising the topic of same sex families within a human rights discourse remains highly controversial Family however is more than a benevolent, luxurious minority topic in modern welfare states The human family constitutes the foundation of the human rights regime and as such is a fundamental cross-sectional institution and mechanism within liberal democratic societies Denying lesbians and gays the moral capacity of taking responsibility for partners and children assigns them an inferior second-class status in society Framing this distinction with categorical justifications by according them a special minority status only supports hierarchical distinctions It needs to be questioned whether a specific heteronormative life-long man-wife conception of partnership can serve as the universal standard for marriage, family and the conception of a good citizen and fully recognised member of society or whether it is not this concept of normality that needs to be questioned rather than the assumed specificities of excluded others **The Wedding Spectacle Across Contemporary Media and Culture** Jilly Boyce Kay, Melanie Kennedy, Helen Wood, 2019-10-24 This book interrogates the hyper-visibility and stubborn endurance of the wedding spectacle across media and culture in the current climate The wide-ranging chapters consider why the symbolic power of weddings is intensifying at a time when marriage as an institution appears to be in decline and they offer new insights into the shifting and complex gender politics of contemporary culture The collection is a feminist project but does not straightforwardly renounce the wedding spectacle Rather the diverse contributions offer close analyses of the myriad forms and practices of the wedding spectacle from reality television and cinematic film to wedding videography and bridal boutiques Drawing on feminist and queer theory the chapters illuminate the paradoxes, contradictions, disappointments, cruelties and pleasures that are intimately bound up with the wedding spectacle Written by leading and emerging feminist scholars the chapters range across different national and cultural contexts to explore how the gender politics of weddings are changing and adapting to a new cultural and social landscape This in-depth analysis of the wedding spectacle will appeal to academics and researchers in the fields of gender and mass media, cultural studies, feminist studies and intercultural communication The Constitution in the Classroom Stu

Woolman, Brahm Fleisch, 2009 About the publication The law on education and educational practices in South Africa would exhaust the capacity of any meaningful monograph Instead the authors of this book engage six discrete topics that reflect the broader currents and conflicts in South African education debates a school choice b school fees c the right to an adequate basic education d single medium public schools e school governing bodies and f independent schools The book has two further aims First To move beyond the debates taking place separately in the education policy community and the legal academy and to demonstrate how these disciplines working in concert with each other can advance our understanding of law and education in South Africa Second To show that the ANC's complex education agenda must mirror the egalitarian utilitarian democratic and communitarian commitments found within the Constitution How these competing political claims reflected in our basic law play themselves out in the enabling education legislation the case law and government education policy frames each topic assayed in this work About the editor Stu Woolman is the Academic Director at the South Africa Institute for Advanced Constitutional Public Human Rights and International Law Brahm Fleisch is Associate Professor in the Division of Education Leadership and Policy Studies in Wits School of Education
