Freedom of Religion or Belief Paul T.

Babie, Neville G. Rochow, Brett G. Scharffs, 2020-05-29 Using the metaphor of constitutional space this thought provoking book describes the confluence and convergence of powers in a constitutional system comprised of the principled exercise of the legislative executive and judicial powers of constitutional government Addressing the issues surrounding the freedom of religion or belief the book explores the dimensions of constitutional space and the content of this freedom as well as comparative approaches to defining and protecting this freedom *Religious Freedom and Religious Pluralism in Africa* Pieter Coertzen, M Christian Green, Len Hansen, 2016-05-22 Africa continues to be a region with strong commitments to religious freedom and religious pluralism These however are rarely mere facts on the ground they are legal political social and theological projects that require considerable effort to realise This volume compiling the proceedings of the third annual conference of the African Consortium for Law and Religion Studies focuses on various issues which vastly effect the understanding of religious pluralism in Africa These include amongst others religious freedom as a human right the importance of managing religious pluralism and the permissibility of religious practice and observance in South African public schools **Uneasy Partners** Janice Stein, David Robertson Cameron, John Ibbitson, Will Kymlicka, John Meisel, Haroon Siddiqui, Michael Valpy, 2009-10-22 After decades of extraordinary successes as a multicultural society new debates are bubbling to the surface in Canada The contributors to this volume examine the conflict between equality rights as embedded in the Charter and multiculturalism as policy and practice and ask which charter value should trump which and under what circumstances The opening essay deliberately sharpens the conflict among religion culture and equality rights and proposes to shift some of the existing boundaries Other contributors disagree strongly arguing that this position might seek to limit freedoms in the name of justice that the problem is badly framed or that silence is a virtue in rebalancing norms The contributors not only debate the analytic arguments but infuse their discussion with their personal experiences which have shaped their perspectives on multiculturalism in Canada This volume is a highly personal as well as strongly analytic discussion of multiculturalism in Canada today **The Status of Religion and the Public Benefit in Charity Law** Barry W. Bussey, 2020-02-29 The Status of Religion and the Public Benefit in Charity Law is an apologetic for maintaining the presumption of public benefit for the charitable category advancement of religion in democratic countries within the English common law tradition In response to growing academic and political pressure to reform charity law including recurring calls to remove tax exemptions granted to religious charities the scholars in this volume analyse the implications of legislative and legal developments in Canada the UK Australia New Zealand and South Africa In the process they also confront more fundamental sociological or philosophical questions on the very nature and role of religion in a secular society that would deny any space for religious communities outside their houses of worship In other words this book is concerned with the place of religion and religious institutions in contemporary society It represents a series of concerns about the proper role of the state in relation to the differing beliefs of citizens some of which will quite rightly manifest in actions to benefit the wider

society This debate then naturally engages with broader issues related to secularism civic engagement and liberal democratic freedoms

Faith in Democracy? Religion and Politics in Canada Boris DeWiel, John Young, 2009-01-14

This collection of essays questions the capacity of Canadian democracy to promote religious pluralism and recognize disparate faith groups as legitimate players on the political stage These are more than rhetorical questions as issues and public policies in contemporary Canada reflect an increasing concern that religion and religious belief ought not to intrude in political debate and matters of governance Despite playing an active role in Canadian politics in the past religious faith now risks relegation to the private sector Efforts to push religious belief outside the public square set a dangerous precedent provide rationale for further exclusion rather than inclusion and logically culminate in monism rather than pluralism Faith in Democracy focuses on contemporary challenges to religious pluralism in Canada with attention to the changing religious landscape throughout the country These challenges are both old and new They include such tasks as reconciling universal and particular perspectives of liberalism in law and recognizing the limits of secularism as an emergent dominant faith How Canada responds to these challenges will not only influence public policy but also test its commitment to democracy

The Agnostic Age Paul Horwitz, 2011-02-17 Argues that the fundamental reason for church state conflict is our aversion to questions of religious truth By trying to avoid the question of religious truth law and religion has ultimately reached a state of incoherence He asserts that the answer to this dilemma is to take the agnostic turn to take an empathetic and imaginative approach to questions of religious truth one that actually confronts rather than avoids these questions but without reaching a final judgment about what that truth is

God's Plenty William Closson James, 2011-09-20 *God's Plenty* examines the religious landscape of Kingston Ontario in the twenty first century The rich religious life of Kingston a mid sized city with a strong sense of its history and its status as a university town is revealed in a narrative that integrates material from sociological and historical studies websites interviews religious and literary scholarship and personal experience In Kingston as in every Canadian city downtown parishes and congregations have dwindled disappeared or moved to the suburbs Attendance at mainline churches and their political authority has declined Ethnic diversity has increased within Christian churches while religious communities beyond Christianity and Judaism have grown Faith groups have split along liberal and conservative lines and the number of those claiming to have no religion or to be spiritual but not religious has increased Yet amidst all this religion continues to be evident in institutions and public life and important to the lives of many Canadians *God's Plenty* a ground breaking contribution to the study of religion in Canada and a model for future community based research is the first overview of the religious topography of a Canadian city telling the story of various faith communities and adding to the study of religious diversity and multiculturalism

Christianity and Constitutionalism Nicholas Aroney, Ian Leigh, 2022 The first volume of its kind *Christianity and Constitutionalism* explores the contribution of Christianity to constitutional law and constitutionalism as viewed from the perspectives of history law and theology The authors examine a

wide range of key figures including Augustine Thomas Aquinas Moses Martin Luther and Roger Williams offering innovative and thoughtful analyses of the relationship between religious thought and constitutional law Part I features contributions from historians and is focused on the historical influence of Christianity on constitutionalism recounting how the relationship between the Christian faith and fundamental ideas about law justice and government has evolved from era to era Part II offers the analyses of constitutional lawyers focusing on the normative implications of Christianity for particular themes or topics in constitutional law The chapters in this section orbit around several central doctrines and principles of this field including sovereignty the rule of law democracy the separation of powers human rights conscience and federalism evaluating them from a range of Christian perspectives Part III rounds out the study with theologians focused on particular Christian doctrines exploring their constructive and sometimes critical implications for constitutionalism As a whole Christianity and Constitutionalism breaks new ground by offering wide ranging interdisciplinary contributions to the study of the relationship between the Christian religion and constitutional law

Human Rights and Charity Law Kerry O'Halloran,2016-03-10

The 60 or so nations that subscribe to the common law tradition had for centuries broadly accepted the same legal definitions of what constitutes a charity In recent years however a number of countries have embarked on charity law reform processes designed to strengthen the regulatory framework and to review and encode common law concepts A primary driver of reform was the need to modernise national charity law and ensure human rights compatibility In light of these reforms this book takes stock of how charity law is adapting to face the challenges presented by human rights The book identifies the key areas where human rights and charity law intersect and examines the importance of those areas the principles involved and their political significance It offers a comparative analysis of selected common law countries including England Wales Ireland US Canada Australia and New Zealand assessing the extent of national human rights and charity compatibility Kerry O Halloran also goes on to consider tensions arising from the intersection of human rights and charity law including the significance of cultural values and heritage the importance of proportionality and striking a balance between public and private interests in current society

Islamic Family Law in Australia Ghena Krayem,2014-02-03

In recent years all over the western world a conversation has begun about the role of Islamic law or Shariah in secular liberal democratic states Often this has focused on the area of family law including matters of marriage and divorce Islamic Family Law in Australia considers this often controversial issue through the lens of multiculturalism and legal pluralism Primarily its main objective is to clarify the arguments that have been made recently In both Australia and overseas debates have occurred which have been both controversial and divisive but have rarely been informed by any detailed analysis of how Muslim communities in these countries are actually dealing with family law issues Islamic Family Law in Australia responds to this need for accurate information by presenting the findings of the first empirical study exploring how Australian Muslims resolve their family law matters Through the words of religious and community leaders as well as ordinary Australian Muslims the book questions the

assumption that accommodating the needs of Australian Muslims requires the establishment of a separate and parallel legal system Islamic Studies Series Volume 16 Fighting over God Janet Epp Buckingham, 2014-03-01 From before Confederation to the present day religion has been one of the most contentious issues in Canadian public life In Fighting over God Janet Buckingham surveys a vast array of religious conflicts exploring both their political aspects and the court cases that were part of their resolution While topics such as the Manitoba Schools Crisis and debates about Sunday shopping are familiar territory Buckingham focuses on lesser known conflicts such as those over the education of Doukhobor and Mennonite children and the banning of the Jehovah's Witness religion under the Defence of Canada Regulations during the Second World War Subjects are explored thematically with chapters on the history of religious broadcasting education freedom of expression religious practices marriage and family and religious institutions Contentious issues about religious accommodation are not going away Fighting over God cites over six hundred legal cases across nearly four centuries to provide a rich context for the ongoing social debate about the place of religion in our increasingly secular society **Civil Religion in Political Thought** Ronald L. Weir, John von Heyking, 2010-03 The essays in this volume blend historical and philosophical reflection with concern for contemporary political problems They show that the causes and motivations of civil religion are a permanent fixture of the human condition though some of its manifestations and proximate causes have shifted in an age of multiculturalism religious toleration and secularization **Politics in Theology** Gabriel R. Ricci, 2017-07-12 This new volume examines the relationship between religion and politics from a historical perspective Contributors address specific moments in which political governance intersects with religious ideals in dramatic ways These moments question the relationship between religious sentiments and political solutions and threaten to reorder the geopolitical landscape These essays discuss the tensions produced by secularism in an Islamic culture the influence of Catholic theology in workers political movements and how Hinduism has been transformed by the political process Also featured are essays that emphasize how civil religion coincides with constitutional order and how the drama of religious tolerance and legitimization of the power of Christian hierarchy originated in the political power of the Roman emperor This volume is an interdisciplinary effort from up and coming and cutting edge scholars Contents include Something as Yet Unfinished Adam Stauffer Carl Schmitt Leo Strauss and the Necessity of Political Theology Grant N Havers Escape from Theology Peter Grosvenor The Persistence of Civil Religion in Modern Canada John von Heyking The Politicization of Hinduism and the Hinduization of Politics Jeffery D Long Ontology Plurality and Roman Catholic Social Teaching Roland Boer The Pseudo Isidorian Decretals and Church State Conflict Mary Sommar Thomas Aquinas on Providence Prudence and Natural Law Christopher S Morrissey The Mystical Body of Christ and French Catholic Action 1926 1949 W Brian Newsome and Secularism in Turkey Oya Dursun Ozkanca Education, Politics and Religion James Arthur, Liam Gearon, Alan Sears, 2010-06-28 In recent years a number of popular books have savaged religion arguing it is a dangerous delusion that poisons human societies and relationships This is

but the most recent manifestation of a secularising agenda that has been sweeping contemporary democratic societies since the Enlightenment This book pushes back against that agenda examining its key assumptions and arguing that the exclusion of religious people and ideas from education and the public square is both undemocratic and unwise For the most part the book draws arguments and examples from Christianity the religious tradition of the authors but it recognises that many religions share the concerns and possibilities examined The book examines contemporary expressions of the secularising agenda in Western democracies with particular focus on how that is played out in education It demonstrates how republican theory understood within a faith perspective provides a shared understanding and substantive basis for education within a Western democracy It explores the historical connections and disconnections between religion and civic life in the West from ancient to contemporary times and examines religiously based civic action and pedagogical approaches contending both have the potential to contribute greatly to democracy It will be of value to any who are interested in exploring how democracies can include the voices of all their citizens the religious and the secular

Constitutionalism, Democracy and Religious Freedom Hans-Martien ten Napel, 2017-05-18 In both Europe and North America it can be argued that the associational and institutional dimensions of the right to freedom of religion or belief are increasingly coming under pressure This book demonstrates why a more classical understanding of the idea of a liberal democracy can allow for greater respect for the right to freedom of religion or belief The book examines the major direction in which liberal democracy has developed over the last fifty years and contends that this is not the most legitimate type of liberal democracy for religiously divided societies Drawing on theoretical developments in the field of transnational constitutionalism Hans Martien ten Napel argues that redirecting the concept and practice of liberal democracy toward the more classical notion of limited constitutional government with a considerable degree of autonomy for civil society organizations would allow greater religious pluralism The book shows how in a postsecular and multicultural context modern sources of constitutionalism and democracy supplemented by premodern transcendental legitimation continue to provide the best means of legitimating Western constitutional and political orders

Faith & Religion in a Secular Society Cardinal De Kesel, Jozef, 2023-03 Cardinal Jozef De Kesel makes the same bet as Pope Francis that in the face of the phenomena of secularization religious indifference and institutional weakening is not by preaching about or idealizing a bygone past that Christianity can expect to regain hearing and color in Europe because it risks isolating and separating even more than it is from a culture that no longer waits The salvation of the Church and the safeguarding of her universal mission depend rather on its ability to facilitate a culture of encounter with all those who want to humanize the modern pluralist and secular society while also asserting its freedom of expression It is this pastoral option that Joseph De Kesel is already experimenting with in a Belgian society deeply secularized after having been like France a land of Christianity
