## **Recollections Of The Storming The Castle Of Badajos:**

Recollections of the Storming of the Castle of Badajos Captain MacCarthy, 2001 The siege and storming of Badajos from 18 March to 6 April 1812 was one of the bloodiest episodes of the Peninsular War In conditions resembling the trenches of the First World War Wellington's infantry dug their way towards the huge medieval walls of the Spanish frontier fortress before storming the place on the night of 6 April The town had denied them on two previous occasions and it is little wonder that once inside the men went berserk and embarked upon an orgy of rape pillage and destruction that lasted for a full seventy two hours Even the iron hand of Wellington himself could not stop it and in the words of one of the great historians of the war the disorder subsided rather than it was quelled The storming of Badajos was not achieved without huge cost to Wellington however Indeed he watched helpless as the flower of his army was smashed upon the breaches Over forty times did the 4th and Light Divisions attack and forty times were they beaten back with heavy loss Fortunately two other attacks intended only to distract the French succeeded One of them was made by the 3rd Division who took the Castle of Badajos by escalade the men scaling the forty feet high walls by means of flimsy ladders The 3rd Division was guided to its point of attack by James MacCarthy whose own vivid account of the siege and storming is reproduced here in this facsimile the latest in the acclaimed Spellmount Library of Military History series As well as being a graphic account of the siege MacCarthy's book is both extremely rare and is much sought after by students of the Peninsular War and by book collectors alike Dust jacket *Recollections Of The Storming Of The Castle Of Badajos* Captain James MacCarthy, 2014-06-13 The situation for the Duke of Wellington and his British and Portuguese troops in 1812 was somewhat perilous Although they had chased Massena and his French Legions from Spain overwhelming numbers of enemy troops were still in Spain despite being scattered through the provinces For Wellington to move forward and take the fight to the enemy he would have to take the two border fortresses of Ciudad Rodrigo and Badajos and do so quickly before the bickering French marshals united against him After capturing Ciudad Rodrigo in a bloody but short siege the Iron Duke turned his attention on the much more formidable fortress of Badajos a fortress that they had failed to take before The few trained Allied engineers were bolstered by volunteer officers like the author Captain MacCarthy who undertook the dangerous work of the engineers However a lack of artillery and shot meant that the task would be exceptionally difficult and pressed by time Wellington orders an early assault by the best of his infantry over barely practicable breaches As a diversion he also orders an attempt to capture the castle of Badajos by escalade the author himself being part of this diversionary effort In the event the breaches prove to be impregnable and after repeated murderous attempts the defences of Badajos are only breached by the ladder borne assault on the castle Captain MacCarthy's short narrative is vividly written filled with the blood and shot of the siege and the castle's final capture
