Reconsidering the East Asian Economic Model Eduardo T. Gonzalez,1999 **Reform and Recovery in East Asia** Peter Drysdale,2003-09-02 This exciting sequel to East Asia in Crisis offers a completely up to date assessment of the progress of East Asian recovery including coverage of the controversial topic of the role of the state in East Asian development Featuring an outstanding line up of international contributors many of whom also contributed to East Asia in Crisis this title also provides a detailed review of the experience of the region s economies It is stimulating and informative reading for all those interested in further understanding the dynamics of East Asian economic crisis and recovery **The Philippine Economy** Arsenio M. Balisacan, Hal Hill,2003-03-06 This book examines all major facets of the Philippine economy and development policy Contributors to this volume look both to the past and to the future and their approaches are variously descriptive analytical interpretive and comparative The book assesses trends since the 1980s identifies major policy issues and provides a balance sheet of achievements and deficiencies over the past decade and beyond It highlights future challenges that need to be addressed if the country is to embark on a sustainable durable and equitable growth trajectory The book also offers lessons from the country s development experience which may be relevant for many countries at the present time The volume has particular relevance for the country s policymakers academics and the business community and will also appeal to a broader international audience Diagnosing the Philippine Economy Dante B. Canlas, Muhammad Ehsan Khan, Juzhong Zhuang,2011 Diagnosing the Philippine Economy describes the conditions that depress economic growth in the Philippine economy and their causes and potential solutions The studies findings provide insight for politicians academicians and economists into the issues and their potential solutions *Critical Reflections on Cities in Southeast Asia* Tim Bunnell, Lisa Drummond, Ho,2021-11-15 Critical Reflections draws together the multi disciplinary research of scholars working in on cities across Southeast Asia The fourteen essays collected in the volume are organised into three thematic sections re conceptualisation competition and intervention Collectively these reflections contribute to and interrogate the expanding urban and regional studies literature The volume constitutes a critical corrective to the existing literature which all too often seeks to diagnose contemporary urban trends everywhere from a small number of mostly Western paradigmatic cases Yet while acknowledging the increasing interconnectedness and shared global orientation of most cities in Southeast Asia the volume is wary of positing an equally generalising regional model Individually these essays attend to the diversity of contemporary urban experiences in Southeast Asia *Philippine Politics* Lynn White III,2014-12-17 Philippine political history especially in the twentieth century challenges the image of democratic evolution as serving the people and does so in ways that reveal inadequately explored aspects of many democracies In the first decades of the twenty first century the Philippines has nonetheless shown gradual socioeconomic progress This book provides an interpretive overview of Philippine politics and takes full account of the importance of patriotic Philippine factors in making decisions about future political

policies It analyses whether regional and local politics have more importance than national politics in the Philippines Discussing cultural traditions of patronism it also examines how clan feuds localize the state and create strong local policies These conflicts in turn make regional and family run polities collectively stronger than the central state institution The book goes on to explore elections in the Philippines and in particular the ways in which politicians win democratic elections the institutionalized role of public money in this process and the role that media plays Offering a new interpretive overview of Philippine progress over many decades the author notes recent economic and political changes during the current century while also trying to advance ideas that might prove useful to Filipinos Presenting an in depth analysis of the problems and possibilities of politics and society in the Philippines the book will be of interest to those researching Southeast Asian Politics Political History and Asian Society and Culture Philippine Security in the Age of Terror Rommel Banlaoi, 2009-10-13 As the twelfth most populous nation the Philippines diverse religious and ethnic population makes it an ideal example of the changing tenet of what is deemed national security post 9 11 Issues previously considered social or public are now viewed as security issues Food production is now analyzed in the context of food security and environmental **U.S. Imperialism and Revolution in the Philippines** E. McKay, 2018-09-05 Satanic Mills or Silicon Islands challenges the myth of globalization's homogenizing power arguing that the uniqueness of place is becoming more not less important Steven McKay documents how multinational firms secure worker control and consent by reaching beyond the high tech factory and into local labor markets He also traces the rise of a new breed of privatized export processing zones revealing the state's in these cases the Philippines revamped role in the wider politics of global production Finally McKay gives voice to the women workers themselves as they find meaning identity and agency on and beyond the new shop floor This book deftly weaves together three critical strands of global studies Southeast Asia as a key site of global production the organization of work in advanced electronics and working class conditions under globalization Drawing on the author's rich analysis of four multinational electronics firms from their boardrooms to boarding houses Satanic Mills or Silicon Islands makes a unique contribution to the study of work labor and high tech production **Political Booms** Lynn T. White, 2009 Why have Taiwan rich parts of China and Thailand boomed famously while the Philippines has long remained stagnant both economically and politically Do booms abet democracy Does the rise of middle classes promise future liberalization Why has Philippine democracy brought no boom and barely served the Filipino people This book unlike previous books shows that both the roots and results of growth are largely political not just economic Specifically it pays attention to local not just national power networks that caused or prevented growth in the aforementioned countries Violence has been common in these politics along

with money Elections have contributed to socio political problems that are also obvious in Leninist or junta regimes because elections are surprisingly easy to buy with corrupt money from government contracts Liberals should pay more serious theoretical attention to the effects of money on justice and Western political science should focus more clearly on the ways non state local power affects elections By considering the role of local money and power above all from small and medium sized firms that emerged after agrarian reforms on elections and justice this book asks democrats squarely to face the extent to which electoral procedures have failed to help ordinary citizens Students and scholars of Asia will all need this book as will students of the West whose methods have become parochial *Political Booms: Local Money And Power In Taiwan, East China, Thailand, And The Philippines* Lynn T White, 2009-06-10 Why have Taiwan rich parts of China and Thailand boomed famously while the Philippines has long remained stagnant both economically and politically Do booms abet democracy Does the rise of middle classes promise future liberalization Why has Philippine democracy brought no boom and barely served the Filipino people This book unlike most previous studies shows that both the roots and results of growth are largely political rather than economic Specifically it pays attention to local not just national power networks that caused or prevented growth in the four places under consideration Violence has been common in these polities along with money Elections have contributed to socio political problems that are also obvious in Leninist or junta regimes because elections are surprisingly easy to buy with corrupt money from government contracts Liberals should pay more serious theoretical attention to the effects of money on justice and Western political science should focus more clearly on the ways non state local power affects elections By considering the effects on fair justice of local money and power largely from small and medium sized firms that emerge after agrarian reforms this book asks democrats to face squarely the extent to which electoral procedures fail to help ordinary citizens Students and scholars of Asia will all need this book as will students of the West whose methods have become parochial The Philippine Review of Economics ,2001 Toward Filipino Self-Determination E.
