## **Reconstituting The Global Liberal Order Legitimacy And Regulation:**

Reconstituting the Global Liberal Order Kanishka Jayasuriya, 2006-02-01 The events of September 11 2001 were a significant watershed in the emerging global order However the nature and consequences of this changing global order remain unclear This book argues that this new order is as much the result of issues relating to the evolving methods and forms of governance as of the new role and position of the United States in the world system Using an innovative framework derived from the work of Carl Schmitt Kanishka Jayasuriya explores the nexus between domestic political and constitutional structures and the global order and examines how the post war framework of international liberalism is crumbling under the new pressures of globalization As well as looking at the implications of 9 11 for the global order this new study relates the events of 9 11 to the deep transformations of the post war global order emphasizes the importance of the rise of the new regulatory state examines the new politics of fear in liberal democracies including the US UK and Australia studies the appropriation of the language of the left by conservative forces explores the illiberal outcomes of actions undertaken in the name of liberalism This unique and timely study will be of great interest to students and researchers of international political economy globalization and international political theory

**Critique, Security and Power** Tara McCormack, 2009-09-10 This book aims to engage with contemporary security discourses from a critical perspective It argues that rather than being a radical analytical outlook much critical security theory fails to fulfil its promise to pose a challenge to contemporary power relations In general critical security theories and dialogues are understood to be progressive theoretical frameworks that offer a trenchant evaluation and analysis of contemporary international and national security policy Tara McCormack investigates the limitations of contemporary critical and emancipatory theorising and its relationship with contemporary power structures Beginning with a theoretical critique and moving into a case study of the critical approaches to the break up of the former Yugoslavia this book assesses the policies adopted by the international community at the time to show that much contemporary critical security theory and discourse in fact mirrors shifts in post Cold War international and national security policy Far from challenging international power inequalities and offering an emancipatory framework contemporary critical security theory inadvertently ends up serving as a theoretical justification for an unequal international order This book will be of much interest to students of critical security studies international relations and security studies Tara McCormack is Lecturer in International Politics at the University of Leicester and has a PhD in International Relations from the University of Westminster

International Cooperation and Arctic Governance Olav Schram Stokke, Geir Hønneland, 2006-12-05 A new exploration of the impacts of Arctic regimes in such vital areas as pollution biodiversity indigenous affairs health and climate change The post Cold War era has seen an upsurge in interest in Arctic affairs With new international regimes targeting Arctic issues at both the global and regional levels the Northern areas seem set to play an increasingly prominent role in the domestic and foreign policies of the Arctic states and actors not least Russia the USA

and the EU This volume clearly distinguishes between three key kinds of impact effectiveness defined as mitigation or removal of specific problems addressed by a regime political mobilization highlighting changes in the pattern of involvement and influence in decision making on Arctic affairs region building understood as contributions by Arctic institutions to denser interactive or discursive connectedness among the inhabitants of the region Empirically the main focus is on three institutions the Arctic Council the Barents Euro Arctic Region and the Council of the Baltic Sea States International Cooperation and Arctic Governance is essential reading for all students with an interest in Arctic affairs and their impact on global society

*International Relations Theory and Philosophy* Cerwyn Moore, Chris Farrands, 2010-01-04 This book discusses the contribution of philosophers and thinkers whose ideas have recently begun to permeate international relations theory It provides an introduction to the contemporary debates regarding theories and methodologies used to study international relations particularly the relationships between interpretive accounts of social action European philosophical traditions hermeneutics and the discipline of international relations The authors provides a platform for dialogue between theorists and researchers engaged in a more specific area studies geo political studies political theory and historical accounts of international politics The volume analyzes a variety of theoretical and explores the work of Nietzsche Heidegger Gramsci Wittgenstein Gadamer Levinas Bakhtin Patocka Derridean Deleuze and Susan Sontag Making an important contribution to discussions about how to study the complexities of world politics this book will be of interest to students and researchers of international relations politics sociology philosophy and political theory

*The Role, Position and Agency of Cusp States in International Relations* Marc Herzog, Philip Robins, 2014-06-20 This work seeks to develop a new concept with which to analyse the actions and activities of states that tend to be relatively ignored by the discipline of International Relations IR As a discipline IR has a tendency to lean towards the analytically safe Given the current and recent dynamism of the international system that is both surprising and undesirable Arranged around the concept of the idea of the Cusp State and cuspness more generally the book consists of empirical analysis of eight different countries Brazil Iran Israel Japan Mexico Taiwan Turkey and Ukraine defined as states that lie uneasily on the political and or normative edge of what is widely believed to be an established region By focusing on the importance of comparing groups of states like states with high degrees of cuspness this book argues that it is possible to categorise the world in a fresher and more original way and one which covers more of the globe than either a systemic or regionalist approach would do This work will be of great interest to students and scholars of Geopolitics International Security and Regionalism

**Coping and Conformity in World Politics** Hugh C. Dyer, 2009-12-16 Conformity is a common coping strategy for dealing with stresses in political situations as well a strategy for dealing with the lack of agreed foundations This work introduces the conceptual frameworks of coping and conformity to provide a new analysis of the ethical and political demands of international life The volume argues that coping through conformity is the only means available for dealing with uncertainty and the absence of shared foundations and while

conformity may be a largely practical issue it also reflects a consensus on values Dyer draws on recent critical theoretical perspectives as well as engaging with dominant liberal assumptions in the global context providing a critical study of the impact of norms and values in world politics The book also addresses wider issues of freedom and necessity individualism and communitarianism and cosmopolitanism agency and structure and the legitimacy of governance and institutions The theoretical arguments are illuminated within the ecological context and such recent concerns as climate and energy security are examined as forceful illustrations of current political challenges as well as a potential source of insights into the alternatives Providing a fresh theoretical perspective on world politics this work will be of great interest to all scholars of global politics international relations and globalization studies

**Capitalism, Democracy and the Prevention of War and Poverty** Peter Graeff, Guido Mehlkop, 2008-11-20 This book seeks to explore and understand the causes of war and poverty drawing on the theory of democratic peace and the theory of capitalistic peace It discusses democracy conflict resolution economic development and industrial modernization

The World Bank and HIV/AIDS Sophie Harman, 2010-06-10 The governance of the HIV AIDS pandemic has come to represent a multi faceted and complex operation in which the World Bank has set and sustained the global agenda for by the World Bank The governance of HIV AIDS Through economic incentive they have restructured the is a political foundations of countries in sub Saharan Africa and the pursuit of change in state project that seeks to embed liberal practice through individual state and societal community behaviour At the heart of this practice is the drive to impose blueprint neoliberal market based solutions on a personal global issue This book unravels how the Bank s good governance agenda and commitment to participation ownership and transparency manifests itself in practice through the Multi Country AIDS Program MAP and crucially how it is pushing an agenda that sees a shift in both global health interventions and state configuration in sub Saharan Africa The book considers the mechanisms used by the Bank and the problems therein to engage the state civil society and the individual in responding to the HIV AIDS crisis and how these mechanisms have been exported to other global projects such as the Global Fund and UNAIDS Harman argues in conclusion that not only has the Bank set the global agenda for HIV AIDS but underpinning this is a wider commitment to liberal governance reform through neoliberal incentive Making an important contribution to our understanding of global governance and international politics this book will be of interest to students and scholars of politics international political economy international relations development studies and civil society

**Urbicide** Martin Coward, 2008-09-30 Developing the concept of urbicide the deliberate destruction of cities Martin Coward outlines a theoretical understanding of the urban condition at stake in such violence The first comprehensive analysis Coward argues that it is necessary to address the widespread and deliberate destruction of buildings as a distinct form of political violence

**International Mobility in Australia** Xianlin Song,Greg McCarthy,2019-08-12 This book examines the governance of Asian student and academic mobility which has transformed the higher education landscape While campuses are experiencing an unprecedented level of diversity knowledge creation remains explicitly Eurocentric and dominated by the Global North The authors advocate for a new educational paradigm that takes into account the transcultural flow of knowledge on campus as a public good capitalises on Asian students and academics multilingual competencies and offers them equal access to creating quality orientated education The book argues that international higher education must be grounded in both a plurality of knowledges and the ethics of cognitive justice and that the governing policies should facilitate the higher education sector to build a platform of internationalising affect and effect on campus *Rethinking Ethical Foreign Policy* David Chandler,Volker Heins,2006-11-28 This new volume moves beyond the limits of current debate to show how today s foreign policy is increasingly about values rather than interests and why ethics are now playing a central role Rather than counterposing interests and ethics trying to find hidden agendas or emphasizing the double standards at play in ethical foreign policy this book brings together leading international theorists and a variety of stimulating approaches to develop a critical understanding of the rise of ethical foreign policy and to analyze the limits of ethical policy making on its own terms They deal with the limits of ethical foreign policy both in the light of the internal dynamic of these policies themselves and with regard to the often unintended consequences of policies designed to better the world This book also shows how the transformation of both the domestic and the international spheres of politics means that ethics has become a rallying point for non state actors and experts who gather around values and norms in order to force institutions to justify their behavior This process results from different structural changes and the transformation of the international system the individualization of Western societies and the growing importance of expertise in the justification of decisions in risk adverse societies It leads to a transformation of norms and to a redefinition of a global ethical framework that needs to be clarified

This book will be of great interest to all students and researchers of foreign policy formation politics and international relations

**India in South Asia** Sinderpal Singh, 2013-09-02 South Asia is one of the most volatile regions of the world and India's complex democratic political system impinges on its relations with its South Asian neighbours. Focusing on this relationship, this book explores the extent to which domestic politics affect a country's foreign policy. The book argues that particular continuities and disjunctures in Indian foreign policy are linked to the way in which Indian elites articulated Indian identity in response to the needs of domestic politics. The manner in which these state elites conceive India's region and regional role depends on their need to stay in tune with domestic identity politics. Such exigencies have important implications for Indian foreign policy in South Asia. Analysing India's foreign policy through the lens of competing domestic visions at three different historical eras in India's independent history, the book provides a framework for studying India's developing nationhood on the basis of these ideas of India. This approach allows for a deeper and a more nuanced interpretation of the motives for India's foreign policy choices than the traditional realist or neo liberal framework and provides a useful contribution to South Asian Studies, Politics and International Studies.

Interregionalism and International Relations Heiner Hänggi, Ralf Roloff, Jürgen Rüland, 2006 Interregionalism, the institutionalized relations between world regions, is a new phenomenon in international relations. It is also a new layer of development in an increasingly differentiated global order. This volume examines the structure of this phenomenon and the scholarly discourse it is generating. It takes stock of empirical facts and theoretical explanations, bringing together with clarity and concision the latest research on this key area. This essential new book traces the emergence of interregionalism and reviews the latest literature, provides a conceptual and theoretical framework for study, includes case studies of inter-regional relations between Asia and America, Asia and Europe, Europe and America, and Europe and Africa, delivers comparative analyses and special cases such as continental summits and interregional relationships beyond the Triad, summarizes and evaluates the findings of each chapter, providing a basis for further research. This is a key reference book for students and researchers of regionalism, global governance and international relations.

**Profits, Security, and Human Rights in Developing Countries** James Rochlin, 2015-06-19 The extractive sector is a particular area of expertise for Canada, and more than half of Canada's mining assets abroad are located in Latin America, specifically in Brazil, Peru, Chile, and Colombia. The Canada-Colombia accord was the first free trade agreement in the world to include annual Human Rights Impact Assessments (HRIA) and also includes a labour side accord where abuse complaints can be formally registered. Using Colombia as a case study, James Rochlin and his international and multidisciplinary line-up of Canadian and Colombian scholars and activists working in the area of human rights and the judiciary explore: What is the best way to identify and operationalize for mutual benefit the concentric space between the interests of extractive corporations in profit and security on the one hand and the interests of the host communities in the promotion of human rights and human security on the other? What can the four emblematic and diverse

cases in Colombia Meta Sergovia Marmato and Bolivar La Guajira tell us about how to fine tune and improve a newly implemented governmental HRIA to render it an increasingly useful global instrument to promote simultaneously corporate security and human security for host communities What is the most efficient and effective way to design and implement Corporate Social Responsibility Programs in a manner that promotes simultaneously corporate security and community human security Written in a clear and accessible style Profits Security and Human Rights presents practical lessons on how to promote both corporate security and human security in communities where the extractive sector operates in the Global South

The Politics of Conflict Economies Morten Bøås, 2014-08-21 Conflict economies cannot be approached in isolation but must instead be contextualised socially and historically These economies did not emerge in vacuum but are part and parcel of the history of people and place This book explores the informal and illicit extraction and trade of minerals and other types of natural resources that takes place in the borderlands during periods of conflict This type of extraction and marketing often referred to as conflict trade depends on a weak state and works alongside the structures of the state and its officials The book emphasises that conflicts do not start as competition over natural resources and in turn suggests that the integration of the extraction and marketing of natural resources only starts once fighting is well under way Boas argues that although economic agendas are an integral part of African conflicts the desire to accumulate is not the only motivation Thus in order to present a more comprehensive analysis of conflict we need to take into account political cultural and historical factors in addition to the economic dimensions of conflict This book will be of very strong interest to students and scholars of political economy conflict studies international relations and development

Economic Globalisation as Religious War Michael McKinley, 2007-06-28 Using a critical theory approach to analyze the globalization of the world economy this provocative and topical new book presents economic globalization not as a recent development but rather as a familiar process that has occurred throughout history Michael McKinley argues that it is ultimately a self serving arbitrary and destructive imperial project that should be viewed as a religious war

**Ethics, Liberalism and Realism in International Relations** Mark D. Gismondi, 2007-09-17 This book explores the complex issue of international ethics in the two dominant schools of thought in international relations Liberalism and Realism Both theories suffer from an inability to integrate the ethical and pragmatic dimensions of foreign policy Liberal policy makers often suffer from moral blindness and a tendency toward coercion in the international arena whilst realists tend to be epistemic sceptics incorporating Nietzsche s thought directly or indirectly into their theories Mark Gismondi seeks to resolve the issues in these two approaches by adopting a covenant based approach as described by Daniel Elazar s work on the covenant tradition in politics to international relations theory The covenant approach has three essential principles policy makers must have a sense of realism about the existence of evil and its political consequences power must be shared and limited liberty requires a basis in shared values Ethics Realism and Liberalism in International Relations will be of interest to students and researchers of politics philosophy ethics

and international relations      International Relations and Security in the Digital Age Johan Eriksson, Giampiero Giacomello, 2007-02-01 This book examines the impact of the information revolution on international and domestic security attempting to remedy both the lack of theoretically informed analysis of information security and the US centric tendency in the existing literature International Relations and Security in the Digital Age covers a range of topics including critical infrastructure protection privacy issues international cooperation cyber terrorism and security policy It aims to analyze the impact of the information revolution on international and domestic security examine what existing international relations theories can say about this challenge and discuss how international relations theory can be developed to better meet this challenge The analysis suggests that Liberalism s focus on pluralism interdependence and globalization Constructivism s emphasis on language symbols and images including virtuality and some elements of Realist strategic studies on the specific topic of information warfare contribute to a better understanding of digital age security This book will be of interest to students of security studies globalization international relations and politics and technology
