**Deconstructing Sacramental Theology and Reconstructing Catholic Ritual** Joseph Martos, 2015-05-12 Catholic sacramental doctrine has lost much of its credibility Baptized people leave the church adolescents stop attending shortly after they are confirmed supposedly indissoluble marriages regularly dissolve few go to confession and many do not believe in transubstantiation Drawing upon his decades long study of the sacraments Martos reveals how teachings that seemed rooted in the scriptures and Catholic life have become unmoored from the contexts in which they arose and why seemingly eternal truths are actually historically relative After carefully constructing Catholic teaching from the church s own documents he deconstructs it by demonstrating how biblical passages were misconstrued by patristic authors and how patristic writings were misunderstood by medieval scholastics The long process of misinterpretation culminated in the dogmatic pronouncements of the Council of Trent which continues to dominate Catholic thinking about the church s religious ceremonies If the sacraments are released from their dogmatic baggage Martos believes that the spiritual realities they symbolize can be celebrated in any human culture without being tied to their traditional rites

Reconstructing Catholicism Trish Sullivan Vanni, 2014 In recent years a movement to form Catholic faith communities outside the umbrella of Rome has been gaining momentum in the U S Most trace their roots to a centuries old trajectory that began in Europe Old Catholicism However these emergent U S Catholic jurisdictions are also shaped by a particularly American sensibility particularly the experience of the renewal of the Church promised by Vatican II This book explores the genesis of these faith communities and describes for readers what is the same and what s different in this emergent independent and inclusive way of being Catholic

**Rebuilding Catholic Culture** Ryan Nathan Scott Topping, Ryan Topping, 2013-01-18 Rarely does a book come along that so succinctly explains the decline of modern culture articulates a defense of the Church s teachings and offers a hope filled path for building a civilization grounded in Catholic truth In these pages Dr Ryan Topping does all three pulling back the curtain on the false philosophies of the secularists and showing that in the West today the most formidable threat to freedom is not failing economies or Islam but secularism Our best defense he claims is a vibrant Catholic culture and our best hope for creating it lies in the principles found in the Catechism of the Catholic Church In *Rebuilding Catholic Culture* you ll discover sensible ways to begin restoring Catholic culture right now in your own life and family and in our larger communities as well in the theater in the classroom in our hospitals and even in the public square This profoundly accessible book will renew your confidence in the world transforming character of our Creed and in the potency of our Faith to shape and redefine the culture of the West Book jacket

*Reconstructing Spain* Dacia Viejo-Rose, 2011 This book explores the role of cultural heritage in post conflict reconstruction whether as a motor for the prolongation of violence or as a resource for building reconciliation The research was driven by two main goals to understand the post conflict reconstruction process and

to identify how this process evolves in the medium term and the impact it has on society The Spanish Civil War 1936-39 and its subsequent phases of reconstruction provides the primary material for this exploration In pursuit of the first goal the book centers on the material practices and rhetorical strategies developed around cultural heritage in post civil war Spain and the victorious Franco regime's reconstruction The analysis captures a discursively complex set of practices that made up the reconstruction and in which a variety of Spanish heritage sites were claimed rebuilt or restored and represented as signs of historical narratives political legitimacy and group identity The reconstruction of the town of Gernika is a particularly emblematic instance of destruction and a significant symbol within the Basque regions of Spain as well as internationally By examining Gernika it is possible to identify some of the trends common to the reconstruction as a whole along with those aspects that pertain to its singular symbolic resonance In order to achieve the second goal the book examines the processes of selection value change and exclusionary dynamics of reconstruction Exploring the possible impact of post civil war reconstruction in the medium term is conducted in two time frames the period of political transition that followed General Franco's death in 1975 and the 2004-2008 period when Rodriguez Zapatero's government undertook initiatives to recover the historic memory of the war and dictatorship Finally the observations made of the Spanish reconstruction are analyzed in terms of how they might reveal general trends in post conflict reconstruction processes in relation to cultural heritage These insights are pertinent to the situations in Cambodia Bosnia and Herzegovina Afghanistan and Iraq

The Future of Catholicism in America Mark Silk, Patricia O'Connell Killen, 2019-04-02 Catholics constitute the largest religious community in the United States Yet most American Catholics have never known a time when their church was not embroiled in controversies over liturgy religious authority cultural change and gender and sexuality Today these arguments are taking place against the backdrop of Pope Francis's progressive agenda and the resurgence of the clergy sexual abuse crisis What is the future of Catholicism in America This volume considers the prospects at a pivotal moment Contributors scholars from sociology theology religious studies and history look at the church's evolving institutional structure its increasing ethnic diversity and its changing public presence They explore the tensions among members of the hierarchy between clergy and laity and along lines of ethnicity immigration status class generation political affiliation and degree of religious commitment They conclude that American Catholicism's future will be pluriform reflecting the variety of cultural political ideological and spiritual points of view that typify the multicultural democratic society of which Catholics constitute so large a part

*Roman Catholicism in America* Chester Gillis, 2020-03-24 Who are American Catholics and what do they believe and practice How has American Catholicism influenced and been influenced by American culture and society This book examines the history of American Catholics from the colonial era to the present with an emphasis on changes and challenges in the contemporary church Chester Gillis chronicles America Catholics where they have come from how they have integrated into American society and how the church has influenced their lives He highlights key events and people examines data on

Catholics and their relationship to the church and considers the church's positions and actions on politics, education and gender and sexuality in the context of its history and doctrines. This second edition of *Roman Catholicism in America* pays particular attention to the tumultuous past twenty years and points toward the future of the religion in the United States. It examines the unprecedented crisis of sexual abuse by priests, the legal, moral, financial and institutional repercussions of which continue to this day and the bishops' role in it. Gillis also discusses the election of Pope Francis and the controversial role Catholic leadership has played in American politics. *Catholicism in the Third Millennium* Thomas P.

Rausch, 2016-03-24 What is Catholicism? And where is the Catholic Church headed in the third millennium? These two questions provide the structure for Thomas Rausch's *Catholicism in the Third Millennium*. Here Rausch combines a faithful presentation of the tradition with a critical theological reflection and interpretation of where the Church is today and where it might be moving. *Catholicism in the Third Millennium* offers an appreciation of the forces and movements that have shaped and continue to influence the ongoing change and development of Roman Catholicism. Chief among these is the influence of the Second Vatican Council (1962-1965) in reshaping Catholicism. This revised edition includes updated text from Rausch's *Catholicism at the Dawn of the Third Millennium*, particularly the final chapter on The Unfinished Agenda of Vatican II. Each chapter concludes with focus questions developed by Catherine E. Clifford of St. Paul's University, Ottawa. This experience of guided reading provides readers with a broad survey of Roman Catholic faith and practice in its contemporary context. For readers who wish to compare particular passages of this volume with the Catechism of the Catholic Church, an outline is provided in an appendix with references to the appropriate sections of the Catechism. A second appendix offers a glossary of terms used in the book, while a third appendix lists a number of basic works for further investigation of Catholic faith and life. Chapters are: The Church and the Council; Faith and the Believing Community; A Visible Church; A Living Tradition; Sacraments and Christian Initiation; Christian Life and Discipleship; Sin, Forgiveness and Healing; Sexual Morality and Social Justice; Prayer and Spirituality; The Fullness of Christian Hope; and The Unfinished Agenda. Includes Appendix I: Outlook of Book with References to the Catechism of the Catholic Church; Appendix II: Glossary of Terms; and Appendix III: Basic Reference Works on Catholicism. An Index of Names and an Index of Subjects are also included. Thomas P. Rausch, SJ, PhD, is professor of theology at Loyola Marymount University in Los Angeles. He is the author of *Catholicism at the Dawn of the Third Millennium*, *Reconciling Faith and Reason*, and editor of the bestselling *The College Student's Introduction to Theology*, published by Liturgical Press. Catherine E. Clifford, PhD, is a professor of theology at St. Paul's University in Ottawa, Ontario.

**American Catholics** William V. D'Antonio, James D. Davidson, Dean R. Hoge, Katherine Meyer, Bishop William B. Friend, 2001-08-07 How much do American Catholics still identify with the Catholic Church? Do they agree with the Church's teachings and how often do they participate in its sacraments? What do they think it takes to be a good Catholic? What do they consider to be the Church's core teachings? How do they believe issues of faith and morals should be decided by the hierarchy?

the laity or some combination of the two How are they coping with the priest shortage and what do they believe the Church should do to solve the problem How do they feel about social issues such as capital punishment and increased military spending In American Catholics four distinguished sociologists use national surveys from 1999 1993 and 1987 to examine these issues They show that Catholics beliefs and practices are changing They also demonstrate how differences in gender generation and commitment to the Church influence attitudes on all of these issues Balanced and clear filled with useful tables and charts and unique in its ability to compare results over time American Catholics makes essential reading for anyone interested in the future of Catholicism in the United States

conclusion with practical suggestions on how to become an effective and credible intergenerational preacher     Mediating Catholicism Eric Hoenes del Pinal, Marc Roscoe Loustau, Kristin Norget, 2022-03-10 This book focuses on the ethnographic study of Catholicism and media Chapters demonstrate how people engage with the Catholic media scape and analyse the social cultural and political processes that underlie Catholic media and mediatization Case studies examine Catholic practices in North America Western and Eastern Europe Latin America South East Asia and Africa providing a truly comparative de centred representation of global Catholicism Illustrating the vibrancy and heterogeneity of Catholicism world wide the book also examines how media work to sustain larger global Catholic imaginaries     Making Catholic America William S. Cossen, 2023-08-15 In Making Catholic America William S Cossen shows how Catholic men and women worked to prove themselves to be model American citizens in the decades between the Civil War and the Great Depression Far from being outsiders in American history Catholics took command of public life in the early twentieth century claiming leadership in the growing American nation They produced their own version of American history and claimed the power to remake the nation in their own image arguing that they were the country s most faithful supporters of freedom and liberty and that their church had birthed American independence Making Catholic America offers a new interpretation of American life in the Gilded Age and Progressive Era demonstrating the surprising success of an often embattled religious group in securing for itself a place in the national community and in profoundly altering what it meant to be an American in the modern world
