**Between Systems and Violence** Julio Montanez, Amy Donley, Amy Reckdenwald, 2022-02-27 Between Systems and Violence offers a compilation and analysis of state level statutes targeting intimate partner violence IPV in immigrant and or refugee IMR lives The book analyzes such statutes legal language via various theoretical lenses as well as provides a discussion of implications for research prevention intervention and public policy Some IMR victim survivors of IPV such as those who are undocumented may be pinned between systems and violence as violent partners use the immigration system as a mechanism of power and control While protections are available for these victim survivors the story told about the encompassing legal landscape remains incomplete and relegated to federal law Graduate students as well as scholars and practitioners will acquire an in depth understanding of this important nexus

**Pimpin' Ain't Easy** Beretta E. Smith-Shomade, 2012-08-21 Launched in 1980 cable network Black Entertainment Television BET has helped make blackness visible and profitable at levels never seen prior in the TV industry In 2000 BET was sold by founder Robert L Johnson a former cable lobbyist to media giant Viacom for 2 33 billion dollars This book explores the legacy of BET what the network has provided to the larger US television economy and more specifically to its target African American demographic The book examines whether the company has fulfilled its stated goals and implied obligation to African American communities Has it changed the way African Americans see themselves and the way others see them Does the financial success of the network secured in large part via the proliferation of images deemed offensive and problematic by many black communities come at the expense of its African American audience This book fills a major gap in black television scholarship and should find a sizeable audience in both media studies and African American studies

**Reconstructing Trauma and Meaning** Ileana Carmen Rogobete, 2015-09-04 Repressive regimes regardless of their nature and geographic location have a destructive and dehumanizing effect on people's lives. Oppression and political violence shatter victims' identities, their relationships, communities, and the meaning of their world as a safe and coherent place. However, while some people suffer traumatising long-term effects, others become stronger and more resilient, able to rebuild their lives in the aftermath of tragedy. *Reconstructing Trauma and Meaning* is an invitation to revisit, bear witness, and listen to the stories of suffering and healing of survivors of apartheid repression in South Africa. This work is an exploration of the life trajectories of former victims of gross human rights violations during apartheid and their creative ways of reconstructing meaning after trauma. Their life narratives, shaped by social, political, and cultural realities, are a valuable contribution to the collective memory of the nation as an intrinsic part of the continuous process of reconciliation and transformation in South Africa.

**Africa in the Age of Globalisation** Edward Shizha, Lamine Diallo, 2016-03-09 This is a collection of bold and visionary scholarship that reveals an insightful exposition of re-visioning African development from African perspectives. It provides educators, policy makers, social workers, non-governmental agencies, and development agencies with an interdisciplinary conceptual base that can effectively guide them in planning and implementing programs for socio-economic development in Africa. The book provides up-to-date scholarly research on continental trends on various subjects and concerns of paramount importance to globalisation and development in Africa: politics, democracy, education, gender, technology, global relationships, and the role of non-governmental organisations. The authors challenge the familiar paradigms in order to show how imperfectly, if at all, assumptions about globalisation and development theories have failed in their depictions and applications to Africa. The scholars in this volume both inform and advocate for a re-visioning of perceptions on Africa and how it navigates global processes.

**Psychology and Gender Dysphoria** Jemma Tosh, 2016-03-02 Psychiatry and psychology have a long and highly debated history in relation to gender. In particular, they have attracted criticism for policing the boundaries of normal gender expression through gender identity diagnoses such as transvestism, transsexualism, gender identity disorder, and gender dysphoria. Drawing on discursive psychology, this book traces the historical development of psychiatric constructions of normal and abnormal gender expression. It contextualizes the recent reconstruction of gender in the 5th edition of the *Diagnostic and Statistical Manual of Mental Disorders (DSM-5)* and its criteria for gender dysphoria. This latest diagnosis illustrates the continued disagreement and debate within the profession surrounding gender identity as disordered. It also provides an opportunity to reflect on the conflicted history between feminist and transgender communities in the changing context of a more trans-positive feminism and the implications of these diagnoses for these distinct but linked communities. *Psychology and Gender Dysphoria* examines debates and controversies surrounding psychiatric diagnoses and theories related to gender and gender nonconformity by

exploring recent research examples of collaborative perspectives and existing feminist and trans texts As such the book is relevant for postgraduate and postdoctoral researchers of gender feminism and critical psychology as well as historical issues within psychiatry Social Work Treatment 4th Edition Francis J.
