China's Urban Health Care Reform Chack-kie Wong, Vai Io Lo, Kwong-Leung Tang, 2006-01-01. One way to describe the importance of social policy is to say it's about what is and what might be. This ethos is the driving force behind Chack Kie Wong, Vai Io Lo and Kwong Leung Tang's *China's Urban Health Care Reform*. Based on a study of a mid-level city in China, these three scholars provide analysis and offer theory-based recommendations on health care development. Using a comparative policy framework supported by a legal expert's knowledge of regulatory specifications, *China's Urban Health Care Reform* argues that a strategy with priority in economic growth as in the case of China does not bring forth cost efficiency and equity in health care for the whole nation. Ultimately, Wong, Lo and Tang strive to offer direction for health care reform that will lead to better health care in China's cities. As a result, this is a work of great significance to anyone involved in public health, social work, public policy, medicine or law.

A neoliberal revolution? Hugh Pemberton, James Freeman, Aled Davies, 2024-07-09. This book examines the Thatcher government's attempt to revolutionise Britain's pensions system in the 1980s and create a nation of risk-taking savers with an individual stake in capitalism. Drawing upon recently released archival records, it shows how the ideas motivating these reforms journeyed from the writings of neoliberal intellectuals into government and became the centrepiece of a plan to abolish significant parts of the UK's welfare state and replace these with privatised personal pensions. Revealing a government that veered between political caution and radicalism, the book explains why this revolution failed and charts the malign legacy left by the evolutionary changes that ministers salvaged from the wreckage of their reforms. The book contributes to understanding of policy change, Thatcherism and international neoliberalism by showing how major reforms to social security could reflect neoliberal thought and yet profoundly disappoint their architects.

Marginalization and Social Welfare in China Linda Wong, 2005-07-25. This book provides a systematic analysis that defines and accounts for the contours and operation of China's welfare system. It is underpinned by recent empirical research and strong comparative theory and will be welcomed as a significant advance in furthering our understanding of social welfare in China.

The Perfect Revolution The Very Revd. Stuart W. Lambert, 2014-01-02. In *The Perfect Revolution*, author Stuart W. Lambert examines from an ethical perspective what has been previously understood as human development and addresses the corruption of the moral good in that realm. Building on Lambert's master's thesis, this

study demonstrates how the prevailing immoral human development policies and practices under the sway of globally entrenched Friedmanite Reaganite Revolutionary Capitalist philosophy exponentially multiplies structural inequality and represents a choice for death Lambert outlines the next generation UNDP MDG program predicated on needs based rights and points the way forward to the flowering of human development flowing from adopting an ethically centered approach together with a broader social justice methodology The Perfect Revolution communicates that the worlds of theology philosophy and academia must always be in the service of practical moral living
