Family Policies and Family Well-Being Shirley L. Zimmerman, Shirley Zimmerman, 1992-07-20

Exploring the connections between family policies individual and family well being and political culture this volume examines several research projects and concludes that their results challenge the view that governmental social programmes in the United States have been detrimental to family life The results also clarify the relationship between states political cultures and the kinds of family policies enacted Additionally Zimmerman provides guidelines to aid the development of a policy agenda designed to enhance the well being of individuals and families regardless of where they live *Canadian Family Policies* Maureen Baker, 1995-01-01

With poverty unemployment and one parent families on the rise in most Western democracies government assistance presents an increasingly urgent and complex problem This is the first study to explore Canada s family policies in an international context Maureen Baker looks at the successes and failures of social programs in other countries in search of solutions that might work in Canada Baker has chosen seven industrialized countries for her comparative study Australia France Germany The Netherlands Sweden the United Kingdom and the United States These countries experience social and economic strains similar to those felt in Canada and though they share certain policy solutions major differences in policy remain Baker considers which of the policies in these countries are most effective in reducing poverty enhancing family life and improving the status of women then applies her findings to the Canadian situation Bringing together research and statistics from the fields of demography political science economics sociology women s studies and social policy this rich multidisciplinary study provides a unique resource for anyone interested in Canadian family policy *Feminist Perspectives on Family Care* Nancy R. Hooyman, Judith Gonyea, 1995-08-29

Today women find themselves playing an ever increasing role in caring for older family members who are frail developmentally disabled or suffering from serious mental illness While this has role of women as caregivers has been documented the actual impact on the lives of women has remained largely unstudied In this volume the authors examine caregiving as a central feminist issue looking at its impact on women socially personally and economically The authors review how changing family structures the changing economy and workforce and the changing health care demands of needy adults have impacted on women s lives They critique existing public and private policies demonstrating a need for fundamental structural changes in social institutions and attitudes to improve the lives of women Finally they propose a social model of care that is oriented toward gender justice recognition of the work of caring and its impact upon women socially personally and economically For students scholars and practitioners in the field of gerontology gender studies and social work this book is a must *The Work-Family Challenge*

Suzan Lewis, Jeremy Lewis, 1996-09-11 In *The Work Family Challenge* contributors from the United Kingdom Europe and the United States explore the possibilities of challenging traditional employment structures to take account of contemporary work and family realities They take a critical look at the notion of family friendly employment and explore ways in which the rapidly changing needs of both organizations and the workforce can be met The volume argues that real progress requires

moving the focus from specific policies and practices towards more systemic organizational change. It examines the contexts and opportunities global, international, national, sociopolitical, legal, and economic for this change. The book concludes that positive solutions are attainable but will require a rethinking of employment with constructive partnerships at many different levels and with work and family as a core strategic business issue.

Intercultural Variation in Family Research and Theory Roma S Hanks, Marvin B Sussman, 2014-05-12

Intercultural Variation in Family Research and Theory sets forth 23 critical reviews in a 2 volume set that document the development of family research and theory in various societies around the world. Focusing on modern research while drawing on the historical roots of theoretical and methodological approaches employed in the study of family, this collection not only increases your knowledge about the status of family research in various countries but also inspires cross national research among researchers and scholars. The societies being studied have been grouped by region. Volume I contains the set's Introduction and contributions from the Far East, the Baltic region, Australia, and South Africa. Volume II covers the Middle East, Western Europe, Scandinavia, and also includes the Index. The materials in these two volumes are the result of the charge given to scholars of 23 societies to review the development of family theory and research in their homelands. Their obligation was to provide an analytic report telling a story from their perspective of reality. The book's editors now present some of the commonality of experiences and trends of the researchers and interpret country differences and similarities from their writings.

Intercultural Variation in Family Research and Theory holds numerous suggestions for your investigations into the family field. You'll find that the set adds to the body of knowledge on comparative family analysis and raises concerns and issues for future research. The questions addressed in this book include how gender of the investigator influences choice of research topics, how funding sources shape the research agenda, what influence a researcher's career trajectory has on research topics, methods, and procedures, why psychological and sociological frameworks and methodologies are commonly used in family research, how political policy influences and dictates theory development and research, what to do about the multitude of new questions that inevitably arise from such intercultural research.

Pioneering Paths in the Study of Families Gary W Peterson, Suzanne Steinmetz, 2014-03-18

Meet the men and women whose groundbreaking work elevated the field of family studies. In *Pioneering Paths in the Study of Families: The Lives and Careers of Family Scholars*, you'll find 40 autobiographies written by leading scholars in sociology, family studies, psychology, and child development. Their fascinating stories demonstrate how their family experiences, educational opportunities, and occupational endeavors not only shaped the disciplines they chose but also shaped the theoretical perspectives they utilized and the topics they researched. From the editors: These autobiographies document the experiences of scholars from the early twentieth century to the present. The descriptions of early influences on their education, of their graduate school experiences, and of their academic career paths provide a wealth of valuable material. Since four of these scholars have died and a number are in their eighties or older, these histories provide rich case studies on factors that

influence the decision to go to college get married pursue an advanced degree make specific occupational choices and investigate certain topics These autobiographies also detail the barriers that early women scholars in the social sciences faced The scholars whose lives you will learn about in *Pioneering Paths in the Study of Families* include Joan Aldous Katherine R Allen Pauline Boss Carlfred B Broderick Wesley R Burr Catherine Street Chilman Harold T Christensen Marilyn Coleman Rand D Conger Randal D Day William J Doherty Evelyn Millis Duvall Glen H Elder Jr Bernard Farber Margaret Feldman Mark A Fine Greer Litton Fox Frank F Furstenberg Viktor Gecas Harold D Grotevant Gerald Handel Michael E Lamb Ralph LaRossa Gary R Lee Helena Znaniecka Lopata Harriette P McAdoo Hamilton McCubbin Brent C Miller Phyllis Moen Gerhard Neubeck Gary W Peterson Ira L Reiss John Scanzoni Walter R Schumm Barbara H Settles Laurence Steinberg Suzanne K Steinmetz Sheldon Stryker Marvin B Sussman Irv Tallman

Restructuring Family Policies Maureen Baker, 2006-01-01 Recent years have seen significant changes in the social policies of many liberal welfare states this is especially true of social programs for families with children Increasingly governments are making family policy trade offs reducing support for some families but improving it for others Why are such trade offs occurring and how do governments differ in their approach to family social policy This study addresses these questions by examining the political demographic and socio economic factors influencing the restructuring of family related programs in OECD countries Adopting a feminist political economy approach Maureen Baker shows that while some governments encourage their citizens to see children as future resources and promote strong support for reproductive health programs child welfare services women s refugees subsidized childcare and pay equity others make these claims while simultaneously reducing family incomes through the deregulation of labour markets and restrictions on income support Ultimately Baker demonstrates that nation states with the best outcomes for families offer a variety of social supports which are increasingly important as global markets reduce economic security for some families while improving the financial situation of others This study also explores strategies employed by states to incorporate or resist international pressures and the reasons why some states tenaciously defend their family policy traditions while others restructure according to international guidelines Drawing from nation based research cross national studies and international data bases *Restructuring Family Policies* successfully integrates mainstream academic debates about restructuring welfare states with feminist research findings and current policy concerns

Handbook of Contemporary Families Marilyn Coleman, Lawrence H Ganong, 2004 Coleman and Ganong recruited an outstanding group of scholars to contribute to the *Handbook of Contemporary Families* Authors represent a wide array of disciplines and the topics touch on every aspect of family life The organization of the book is excellent and the writing of high quality Scholars and students alike will find the book a valuable resource Alan Booth Penn State University Marilyn Coleman and Larry Ganong have produced a comprehensive handbook exploring the changes and challenges confronting contemporary families The chapters written by some of the most distinguished social scientists studying families give a

balanced research based analysis of some of the most contentious issues of our time E Mavis Hetherington University of Virginia This useful handbook brings together many of the most important new findings and provocative ideas about America's diverse and changing families An excellent resource Stephanie Coontz author of The Way We Really Are Coming to Terms with America's Changing Families What has happened to marriage and families What is the current state of families Where are families headed Where is family scholarship headed As families face challenges today brought on by events that have changed their perception of the world there is a need for a clear assessment of what has happened to families in the past and an examination of some data based theories about what is likely to happen in the future The Handbook of Contemporary Families explores how families have changed in the last 30 years and speculates about future trends Editors Marilyn Coleman and Lawrence H Ganong along with a multidisciplinary group of contributors critique the approaches used to study relationships and families while suggesting modern approaches for the new millennium The Handbook looks at how changes within the contemporary family have been reflected in family law family education and family therapy Features of this Handbook Examines a diverse array of families and relationships in which people live including chapters on alternative lifestyles gay and lesbian relationships economically distressed families religion and families racial and ethnic diversity a feminist vision for families older families and the effect of computers and other technology on family relationships Includes both a historical review and future speculation on the subjects covered in each chapter Interdisciplinary contributors representing a variety of fields such as history family studies sociology law therapy social work psychology nursing and human development The Handbook of Contemporary Families is an excellent resource for advanced undergraduate and graduate students researchers educators and practitioners who study and work with families in several disciplines including Family Science Human Development and Family Studies Sociology Marriage Family Therapy and Social Work

Family Change and Family Policies in Contemporary China Hu Zhan, 2025-09-05 This book examines the dramatic transformation of Chinese families in recent decades analyzing how economic and social policies and changes have reshaped family structures and relationships The book explores government policy responses to emerging family related challenges while balancing traditional values with modern realities In seven detailed chapters the author explores key aspects of China's family evolution including changing family structures intergenerational dynamics social services and institutional reconfiguration The work provides an in depth analysis of how policies have adapted to address population aging shifting Special attention is given to the delicate balance between preserving traditional family values and accommodating inevitable demographic and economic changes This title will be essential reading for scholars policymakers and students of Chinese studies sociology and social policy It will also provide valuable insights for anyone interested in understanding contemporary Chinese society and family dynamics

Family Values Isabel Heinemann, 2023-10-04 Clashes over the American family and its values have always implicitly or explicitly addressed issues of gender and highlighted the significance of present and future families to American

society This is the insight underpinning Isabel Heinemann's groundbreaking study which traces over the course of the twentieth century debates on the family and its role the relationship between the individual and society and individual decision making rights as well as their denial or curtailment Unpacking these issues in a vivid and innovative analysis the book recounts the prehistory of current conflicts over the family and gender while illuminating the relationship between social change normative shifts and the counter movements spawned in response to them Family Life and Family Policies in Europe Franz-Xaver Kaufmann, 2002 This volume is a comparative study of family change in Europe and its dependency on social policy regimes The authors explore family discourse family law single parents gender relations the new fathers divorce and abortion within the framework of national policies vis a vis the family Conventional wisdom assumes that policy decisions affecting the life situation of a population shape different opportunities for private living particularly in relation to children and the family But the authors argue it would be too simplistic to assume a direct causal link between welfare policies for the family and developments in the family sector Family change is in fact mediated by institutional factors as well as by cultural traditions and political intervention The chapters in this volume deal with the substantial and methodological problems of ascertaining the impact of different national policy regimes on family change Capitalisms Compared John R. Bowman, 2013-08-06 How different would Americans' lives be if they had guaranteed access to health care generous public pensions paid family leave high quality public pre school care increased rights at work and a greater say in how corporations are run This one of a kind book emphasizes that differences in policies and institutions affect the lives of citizens by comparing health pension and family policies as well as labor markets and corporate governance in the United States Sweden and Germany Demonstrating that the US model of capitalism is not the only one that is viable Bowman encourages students not only to rethink their assumptions about what policy alternatives are feasible but also to learn more about American capitalism through insightful contrast Covering a wide range of policy areas and written in a crisp engaging style Capitalisms Compared is a perfect companion for courses in political economy and public policy Disaster Governance in Urbanising Asia Michelle Ann Miller, Mike Douglass, 2015-12-09 This edited book approaches the threat and impact of environmental disasters on Asia's urban populations from a governance perspective It adopts a multi sector and multi disciplinary approach to disaster governance that emphasises the importance of multiple stakeholders in preparing for responding to and recovering from disasters and their cascading impacts in Asia's cities The contributors to this volume take a broad view of the multifaceted causalities and the interconnected threats and vulnerabilities of environmental disasters in urbanising Asia As such the book is an invitation to advance scholarship in the search for more effective comprehensive and inclusive disaster preparedness agendas recovery programs and development priorities Freedom's Promise Elizabeth Regosin, 2002-03-29 Emancipation and the citizenship that followed conferred upon former slaves the right to create family relationships that were sanctioned recognized and regulated by the laws that governed the families of all American citizens

Elizabeth Regosin explores what the acquisition of this legal familial status meant to former slaves personally socially and politically The Civil War pension system offers a fascinating source of documentation for this study of ex slave families in transition from slavery to freedom Because the provisions made to compensate eligible Union veterans and surviving family members created a vast bureaucracy pension officials required and verified extensive proof of qualification former slaves were obliged to reproduce and represent the inner workings of their familial relationships Regosin reveals through both their personal histories and pension narratives how former slaves constructed identities as individuals and as family members while they negotiated the boundaries of family as defined by the pension system The stories told by ex slaves their witnesses and the government officials who played a role in the pension process all serve to provide us with a richer understanding of life for newly emancipated African Americans

The State of Families ,1984 **The Family** J. Ross Eshleman,2000 The most comprehensive and readable survey text available for Sociology of Family courses This book uses all of the basic theoretical frameworks structural functionalist conflict interactionist exchange developmental and feminist to describe and analyze contemporary families and nontraditional lifestyles One user comments I can depend on this book I can be assured that my students can read and comprehend any topics presented in the text Eshleman does an excellent job of presenting a variety of information on numerous topics concerning the family in society The text explores contemporary issues in a comprehensive manner that is beneficial to both students and educators

The Politics of Fertility in Twentieth-Century Berlin Annette F. Timm,2010-08-30 How a declining population influenced reproductive and sexual health policy in Germany Family, Dependence, and the Origins of the Welfare State Susan Pedersen,1993 A comparative analysis of social policies in Britain and France between 1914 and 1945
