Terence Dooley

Records And Reactions 1856 To 1939:

Records and Reactions, 1856-1939, 1939 *Burning the Big House* Terence Dooley, 2022-04-19 The gripping story of the tumultuous destruction of the Irish country house spanning the revolutionary years of 1912 to 1923 During the Irish Revolution nearly three hundred country houses were burned to the ground These Big Houses were powerful symbols of conquest plantation and colonial oppression and were caught up in the struggle for independence and the conflict between the aristocracy and those demanding access to more land Stripped of their most important artifacts most of the houses were never rebuilt and ruins such as Summerhill stood like ghostly figures for generations to come Terence Dooley offers a unique perspective on the Irish Revolution exploring the struggles over land the impact of the Great War and why the country mansions of the landed class became such a symbolic target for republicans throughout the period Dooley details the shockingly sudden acts of occupation and destruction including soldiers using a Rembrandt as a dart board and evokes the exhilaration felt by the revolutionaries at seizing these grand houses and visibly overturning the established order *Austen Chamberlain* David Dutton, 2020-02-17 First published in 1987 A biographical look into the character and career of Austen Chamberlain Chamberlain thought Lord Beaverbrook will be a fascinating subject for a biography These pages attempt to justify Beaverbrook's words **Democracy and Peace Making** Philip Towle, 2004-01-14 Democracy and Peace Making is an invaluable and up to date account of the process of peace making which draws on the most recent historical thinking It surveys the post war peace settlements of the nineteenth and twentieth centuries including the Vienna congress of 1815 the Treaty of Versailles the peace settlements of the Second World War peace talks after the Korean War the Paris Peace Accords of 1973 *Home Rule* Alvin Jackson, 2003 Alvin Jackson's *Home Rule* An Irish History examines the development of Home Rule and devolution in Ireland from the nineteenth century to the present It traces some of the main themes in Irish peace making from their late Victorian roots to the beginning of the millennium it explores the origins of the Good Friday Agreement and many of the interconnections between Irish political history and contemporary affairs The work offers an incisive reappraisal of different political leaders through the period Drawing on new archival evidence *Home Rule* illuminates a crucial aspect of British and Irish history over a two hundred year span **BOOK JACKET** Buller: A Scapegoat? Geoffrey Powell, 1994-04-25 A re examination of Zulu War hero Redvers Buller who was blamed for British defeats in the Boer War of 1899 1902 **Portrait of a Party** Stuart Ball, 2013-04-25 The Conservative Party is the least investigated and understood of British political parties despite its long record of success Using an original approach and an unparalleled range of sources Stuart Ball analyses the nature and working of the Conservative Party during one of the most significant and successful periods in its history The creation of a democratic franchise in 1918 was followed by nearly three decades of Conservative dominance it was the largest party in the House of Commons and in government for almost 25 years between 1918 and 1945 Stuart Ball explores this remarkable record in a different way by taking a thematic rather than a chronological approach He

begins with the foundations of Conservative principles attitudes and identities and examines the nature of the party's electoral support He investigates the Conservative Party as an organism uncovering the composition roles and relationships of every level from the constituency grass roots through the party machine and the parliamentary ranks to the Cabinet Ministers and the Party Leader Portrait of a Party is based upon a wide range of archives including the personal papers of all five Party Leaders nearly 50 Cabinet Ministers and 85 backbench MPs party officials and others combined with the rich resources of the national and regional records at the Conservative Party Archive and a major investigation to locate all the significant collections of local Conservative Association records in England Scotland and Wales a total of 215 constituencies from Truro to Inverness These sources shed new light on topics which are essential to an understanding of British history in the inter war period and the development the Conservative Party to the present day

Defending the Empire Rhodri Williams, 1991-01-01

Deference issues were of central importance in British politics in the years before the first World War as naval and military policy absorbed the attention of politicians of both parties The growing menace to Britain of the German Navy focused public attention on questions of naval strength and home defense However the heavy cost of overhauling the British Empire's stretched defenses clashed with the domestic political priorities of successive governments This book is the first scholarly work to examine the vigorous political debates over defense policy in this era from the perspective of the Conservative party who were in office from 1899 to 1905 and in opposition from 1905 to 1914 It focuses in particular on the ideas and actions of Arthur James Balfour leader of the Conservative party from 1902 to 1911 Rhodri Williams assesses how effective the Conservative leadership was in realizing its policy objectives By explaining the Conservatives approach to contemporary controversies over conscription and the construction of Dreadnoughts he highlights the complexity of the problems facing British policymakers in the period after the Boer War when against a bleak financial background they sought to rationalize and strengthen the Empire's defenses The book is important for many reasons It significantly advances our understanding of the nature of Conservative politics in the early twentieth century It sheds fresh light on one of the major areas of party political contention in the Edwardian era It gives us interesting information on Balfour and on a key period of his distinguished political career And it offers a new perspective on the process by which British defense policy ceased to revolve around the Great Game with Russia in Central Asia and came increasingly to turn on Anglo German naval rivalry in the North Sea
