Recovering The Lost Tools Of Learning An Approach To Distinctively Christian Education:

Recovering the Lost Tools of Learning Douglas Wilson, 1991 Public education is in crisis At the heart of the problem is the idea that education can exist in a moral vacuum Describes the melee in public education and calls for a return to classical teaching methods *The Praeger Handbook of Faith-Based Schools in the United States, K-12* Thomas C. Hunt, James C.

Carper, 2012-08-06 Exploring a subject that is as important as it is divisive this two volume work offers the first current definitive work on the intricacies and issues relative to America's faith based schools The Praeger Handbook of Faith Based Schools in the United States K 12 is an indispensable study at a time when American education is increasingly considered through the lenses of race ethnicity gender and social class With contributions from an impressive array of experts the two volume work provides a historical overview of faith based schooling in the United States as well as a comprehensive treatment of each current faith based school tradition in the nation The first volume examines three types of faith based schools Protestant schools Jewish schools and Evangelical Protestant homeschooling The second volume focuses on Catholic Muslim and Orthodox schools and addresses critical issues common to faith based schools among them state and federal regulation and school choice as well as ethnic cultural confessional and practical factors Perhaps most importantly for those concerned with the questions and controversies that abound in U S education the handbook grapples with outcomes of faith based schooling and with the choices parents face as they consider educational options for their children **The Core:**

Teaching Your Child the Foundations of Classical Education Leigh A. Bortins, 2010-06-08 In the past correct spelling the multiplication tables the names of the state capitals and the American presidents were basics that all children were taught in school Today many children graduate without this essential knowledge Most curricula today follow a haphazard sampling of topics with a focus on political correctness instead of teaching students how to study Leigh Bortins a leading figure in the homeschooling community is having none of it She believes that there are core areas of knowledge that are essential to master Without knowing the multiplication tables children can't advance to algebra Without mastery of grammar students will have difficulty expressing themselves Without these essential building blocks of knowledge students may remember information but they will never possess a broad and deep understanding of how the world works In *The Core* Bortins gives parents the tools and methodology to implement a rigorous thorough and broad curriculum based on the classical model including Rote memorization to cement knowledge Systematic learning of geography historical facts and timelines Reading the great books and seminal historical documents instead of adaptations and abridged editions Rigorous training in math and the natural sciences *The Political Pulpit Revisited* John Lester Pauley, 2005 The United States is home to some 2000 different religious denominations a fact which makes remarkable the relative calm that has marked the nation's spiritual life The authors discuss the political and social contexts within which American religious congregations manage to get along so well **Faithful Republic** Andrew Preston, Bruce J. Schulman, Julian E. Zelizer, 2015-03-17 Despite

constitutional limitations the points of contact between religion and politics have deeply affected all aspects of American political development since the founding of the United States Within partisan politics federal institutions and movement activism religion and politics have rarely been truly separate rather they are two forms of cultural expression that are continually coevolving and reconfiguring in the face of social change Faithful Republic explores the dynamics between religion and politics in the United States from the early twentieth century to the present Rather than focusing on the traditional question of the separation between church and state this volume touches on many other aspects of American political history addressing divorce civil rights liberalism and conservatism domestic policy and economics Together the essays blend church history and lived religion to fashion an innovative kind of political history demonstrating the pervasiveness of religion throughout American political life Contributors Lila Corwin Berman Edward J Blum Darren Dochuk Lily Geismer Alison Collis Greene Matthew S Hedstrom David Mislin Bethany Moreton Andrew Preston Bruce J Schulman Molly Worthen Julian E Zelizer

Survival and Resistance in Evangelical America Crawford Gribben, 2021-02-23 Over the last thirty years conservative evangelicals have been moving to the Northwest of the United States where they hope to resist the impact of secular modernity and to survive the breakdown of society that they anticipate These believers have often given up on the politics of the Christian Right adopting strategies of hibernation while developing the communities and institutions from which a new America might one day emerge Their activity coincides with the promotion by prominent survivalist authors of a program of migration to the American Redoubt a region encompassing Idaho Montana parts of eastern Washington and Oregon and Wyoming as a haven in which to endure hostile social change or natural disaster and in which to build a new social order These migration movements have independent origins but they overlap in their influences and aspirations working in tandem to offer a vision of the present in which Christian values must be defended as American society is rebuilt according to biblical law This book examines the origins evolution and cultural reach of this little noted migration and considers what it might tell us about the future of American evangelicalism Drawing on Calvinist theology the social theory of Christian Reconstruction and libertarian politics these believers are projecting significant soft power Their books are promoted by leading mainstream publishers and listed as New York Times bestsellers Their strategy is gaining momentum making an impact in local political and economic life while being repackaged for a wider audience in publications by a broader coalition of conservative commentators and in American mass culture This survivalist evangelical subculture recognizes that they have lost the culture war but another kind of conflict is beginning

Apostles of Reason Molly Worthen, 2016 In **Apostles of Reason** Molly Worthen offers a sweeping history of modern American evangelicalism arguing that the faith has been shaped not by shared beliefs but by battles over the relationship between faith and reason

Cicero in Heaven Carl P.E. Springer, 2017-10-02 In **Cicero in Heaven** The Roman Rhetor and Luther's Reformation Carl Springer traces the historical outlines of Cicero's rhetorical legacy paying special attention to the momentous impact that he had on

Luther his colleagues at the University of Wittenberg and later Lutherans While the revival of interest in Cicero s rhetoric is more often associated with the Renaissance than with the Reformation it would be a mistake to overlook the important role that Luther and other reformers played in securing Cicero s place in the curricula of schools in modern Europe and America Luther s attitude towards Cicero was complex and the final chapter of the book discusses negative reactions to Cicero in the Reformation and the centuries that followed Metaphors We Teach By Ken Badley,Harro Walter Van

Brummelen,2012-06-01 Metaphors We Teach By helps teachers reflect on how the metaphors they use to think about education shape what happens in their classrooms and in their schools Teaching and learning will differ in classrooms whose teachers think of students as plants to be nurtured from those who consider them as clay to be molded Students will be assessed differently if teachers think of assessment as a blessing and as justice instead of as measurement This volume examines dozens of such metaphors related to teaching and teachers learning and learners curriculum assessment gender and matters of spirituality and faith The book challenges teachers to embrace metaphors that fit their worldview and will improve teaching and learning in their classrooms *The Oxford Handbook of Christian Fundamentalism* Andrew

Atherstone,David Ceri Jones,2024-01-18 This authoritative volume offers the fullest account to date of Christian fundamentalism its origins in the nineteenth century and its development up to the present day It looks at the movement in global terms and through a number of key subjects and debates in which it is actively engaged **The Charles Colson**

Pursuing Excellence for the Glory of God Keith A. Currivean, 2022-01-13 What is education How and why do educators do what we do And in what way can and ought education be distinctively Christian These are a few of the probing questions for which this book seeks answers Among other contributions Currivean s book explores a biblical philosophy of Christian education with unprecedented breadth and depth To accomplish this objective it considers what education is chapter 1 what philosophy of education is chapter 2 and what the ultimate goal of education is chapter 3 Additionally this book provides a never before Christian overview of twelve philosophies of education chapters 4 15 Each of those chapters provides an introduction of a particular philosophy of education and some of that philosophy s exemplars Each of those chapters also contributes a constructive Christian critique Chapter 16 highlights a biblical philosophy of Christian education featuring some people some principles and some priorities for a biblical philosophy of Christian education viz pursuing excellence for the glory of God Heaven Misplaced Douglas Wilson, 2008 Though most Christians refrain from predicting exactly when our world will end many believe that when earth s finale does arrive it will be a catastrophe They expect that before Christ

comes back to reclaim His own Satan will escape his chains and return to wreak havoc on our planet Details vary but the general assumption is the same things will get much much worse before they get better But is this really what the Bible teaches Leaving aside the theological terms that often confuse and muddle this question Douglas Wilson instead explains eschatology as the end of the greatest story in the world the story of humanity He turns our attention back to the stories and prophecies of Scripture and argues for hopeful optimism the belief that God will be true to His promises that His will shall be done on earth as it is in heaven and that the peace and good will we sing about at Christmas will one day be a reality here on earth
