Collaboration A. Carly Buxton,2022-03-31 Unthinking Collaboration uncovers the little known history of Japanese Americans who weathered the years of World War II on Japanese soil Severed from the country of their birth when the attack on Pearl Harbor abruptly halted all passenger traffic on the Pacific these Nisei faced the years of total war as members of the Japanese populace yet as the target of anti American propaganda and suspicion Whereas their white American counterparts were sequestered by Japanese authorities placed on house arrest or sent home on exchange ships during the war American Nisei in Japan were left to contribute to the war effort alongside their Japanese neighbors as soldiers cryptographers interpreters and in farming and manufacturing When the dust of air raid bombings cleared many such Nisei transitioned into roles in service of the Allied occupation and its goals of democratization and demilitarization As censors translators interpreters and administrative staff they played integral roles in facilitating American Japanese interaction as well as in shaping policies and public opinion in the postwar era Weaving archival data with oral histories personal narratives material culture and fiction Unthinking Collaboration emphasizes the heterogeneity of Japanese immigrant experiences and sheds light on broader issues of identity race and performance of individuals growing up in a bicultural or multicultural context By distancing collaboration from its default elision with moral judgment and by incorporating contemporary findings from psychology and behavioral science about the power of the subconscious mind to influence human behavior author A Carly

Buxton offers an alternative approach to history one that posits historical subjects as deeply embedded in the realities of their physical and discursive environment Walking beside Nisei as they navigate their everyday lives in transwar Japan readers unthink long held assumptions about the actions and decisions of individuals as represented in history The result is an ambitious historical study that speaks to readers who are interested in broader questions of race and trust empire building World War II and its legacy on both the Western and Pacific fronts and to all who consider questions of loyalty treason assimilation and collaboration

Gendering Modern Japanese History Barbara Molony, Kathleen Uno, 2020-05-11 In the past quarter century gender has emerged as a lively area of inquiry for historians and other scholars and gender analysis has suggested important revisions of the master narratives of national histories the dominant often celebratory tales of the successes of a nation and its leaders Although modern Japanese history has not yet been restructured by a foregrounding of gender historians of Japan have begun to embrace gender as an analytic category The sixteen chapters in this volume treat men as well as women theories of sexuality as well as gender prescriptions and same sex as well as heterosexual relations in the period from 1868 to the present All of them take the position that history is gendered that is historians invariably perhaps unconsciously construct a gendered notion of past events people and ideas Together these essays construct a history informed by the idea that gender matters because it was part of the experience of people and because it often has been a central feature in the construction of modern ideologies discourses and institutions Separately each chapter examines how

Japanese have engendered their ideas institutions and society **Gender in Modern East Asia** Barbara Molony, 2018-05-04 Gender in Modern East Asia explores the history of women and gender in China Korea and Japan from the seventeenth century to the present This unique volume treats the three countries separately within each time period while also placing them in global and regional contexts Its transnational and integrated approach connects the cultural economic and social developments in East Asia to what is happening across the wider world The text focuses specifically on the dynamic histories of sexuality gender ideology discourse and legal construction marriage and the family and the gendering of work society culture and power Important themes and topics woven through the text include Confucianism writing and language the role of the state in gender construction nationalism sexuality and prostitution New Women and Modern Girls feminisms comfort women and imperialism Accessibly written and comprehensive Gender in Modern East Asia is a much needed contribution to the study of the region **Entitlement and the Affectional Bond** Melvin J.

Lerner, Gerold Mikula, 2013-06-29 If the truth were told this volume and its direct antecedents must rank among the most ambitious if not simply pretentious endeavors imaginable at least in the social sciences The titles of the volume and the chapters promising to integrate the experiences of the sense of justice and the affectional bonding of people in close relations seem straightforward and reasonable enough What they fail to convey however is the simple bald fact that we in the human social sciences have no firm grasp on either of these two fundamental experiences what we sometimes call love and justice To begin with even as scientists committed to understanding based upon systematic propositions linking publicly observable concepts we have no clear consensus concerning the nature of the affectional bonds linking people in close relationships love intimacy caring mutual responsiveness or the sense of justice fairness deserving and in our efforts to understand entitlement And we are continually handicapped stand these complex moving experiences by the persistent tendency to reduce them to manifestations of nothing but familiar psychological or even biological processes secondary rewards selfish genes So why then this volume Although there are many answers to the question probably the most germane is that the basic issues are so important and intriguing that the recent past has seen rather dramatic parallel growth in social scientists interest in these two areas justice and close relationships Language and Identity across Modes of Communication Dwi Noverini

Djenar, Ahmar Mahboob, Ken Cruickshank, 2015-03-10 This edited collection examines how people use a range of different modalities to negotiate influence and or project their own or other people's identities It brings together linguistic scholars concerned with issues of identity through a study of language use in various types of written texts conversation performance and interviews War, Occupation, and Creativity Marlene J. turbulent and brutal but also important and even productive for the arts The volume takes a trans war rather than an inter war approach beginning with the cultural politics of painting poetry and fiction in Japanese occupied Korea and Taiwan following World War I The narrative continues with the impact of Japan s war in China and the Pacific War on major Japanese novelists playwrights painters and filmmakers before moving on to the final stage Japan s defeat and initial recovery During the Allied Occupation of Japan and in its aftermath Japanese artists both confronted and dismissed the question of war responsibility by preserving reviving or reinventing the political cartoon Kabuki drama literature of the body and the aesthetics of decadence Contributors Haruko Taya Cook Kyoko Hirano Youngna Kim Kim Youngna H Eleanor Kerkham David R McCann Marlene J Mayo J Thomas Rimer Mark H Sandler Rinjiro Sodei Wang Hsui hsiung Wang Xiuxiong Alan Wolfe Angelina C Yee *Modern Japan, Student Economy Edition* Mikiso Hane, 2018-04-27 This book presents the essential facts of modern Japanese history It covers a variety of important developments through the 1990s giving special consideration to how traditional Japanese modes of thought and behavior have affected the recent developments
