The big 'L' : American logistics in World War II, **Army History**, 1989 *A Soldier Supporting Soldiers* Joseph Miller Heiser, 1991 United States Army Logistics, 1775-1992 Charles R. Shrader, 1997 United States Army Logistics Steve R. Waddell, 2009-12-22 You can train men to fight You can plan for the invasion But you can't have success on the battlefield if you cannot move the men and material into position Success is not possible without logistical support and capabilities The U S Army's logistics system began with practically nothing and through numerous conflicts and periods of peace has developed into a first rate supply system capable of supporting the global military commitments of the present day This work presents the history of U S Army logistics as one of evolution trial and error and occasionally revolutionary change over a period of two hundred plus years It is important that logisticians and combat leaders alike understand how the United States Army logistical system developed the challenges that had to be overcome and the successes and failures encountered along the way Creating the U S Army in 1775 proved to be easy compared to the task of keeping the army adequately supplied over the short and long term The availability of resources industrial capacity size of the army geographic scope of operations organization of the logistics system competent leadership congressional support funding and new technology have and continue to impact the logistical system on a daily basis Each new period of peace or war has brought new challenges and requirements This work is broken into two key parts First to inform the reader on the basic history of U S Army Logistics Second to identify the key factors that influenced the development of the logistical system Publications of the U.S. Army Center of Military History Center of Military History, 1997 Kevlar Legions: The Transformation of the United States Army 1989-2005 John Sloan Brown, 2012-08-12 This is the story of how the United States Army responded to the challenges of the end of the Cold War by transforming itself into the most capable ground force in the world today It argues that from 1989 through 2005 the U S Army attempted and largely achieved a centrally directed and institutionally driven transformation relevant to ground warfare that exploited Information Age technology adapted to post Cold War strategic circumstances and integrated into parallel Department of Defense efforts The process not only modernized equipment it also substantially altered doctrine organization training administrative and logistical practices and the service culture Kevlar Legions further contends that the digitized expeditionary Army has withstood the test of combat performing superbly with respect to deployment and high end conventional combat and capably with respect to low intensity conflict and the counterinsurgency challenges of Iraq and Afghanistan Air University Library Index to Military Periodicals, 1992 **ADA.**, 1992-11 *Air*

Defense Artillery ,1992 Railroads in the Civil War John E. Clark, Jr.,2004-10 By the time of the Civil War the railroads had advanced to allow the movement of large numbers of troops even though railways had not yet matured into a truly integrated transportation system Gaps between lines incompatible track gauges and other vexing impediments remained in both the North and South As John E Clark explains in this compelling study the skill with which Union and Confederate war leaders met those problems and utilized the rail system to its fullest potential was an essential ingredient for ultimate victory

Monthly Catalog of United States Government Publications ,1991 **Imperial Military Transportation in British Asia** Michael W. Charney,2019-02-07 Imperial Military Transportation in British Asia sheds light on attempts by royal engineers to introduce innovations devised in the UK to wartime India Iraq and Burma as well as the initial resistance of local groups of colonial railwaymen to such metropolitan innovations Michael W Charney looks at the role of the railways in the First Burma Campaign to show how some kinds of military technology as an example of imperial knowledge faced resistance due to 1930s era colonial insularity The delay this caused significantly compromised the early defense of the colony when the Japanese invaded in 1942 Charney examines the efforts made by one engineer in particular to revive the railways and shows how this effort was responsible for the development of a truly imperial technology that was suitable for extra European contexts and finally won acceptance in India Incorporating newly accessible primary source material from the files of the military Director of Transportation during the Campaign this book highlights a hitherto unfilled gap in the archival record and explores an ignored but crucial aspect of the 1942 Japanese invasion of Burma
