The Secret War Against Sweden Ola Tunander, 2004-07-22 Following the stranding of a Soviet Whiskey class submarine in 1981 on the Swedish archipelago a series of massive submarine intrusions took place within Swedish waters However the evidence for these appears to have been manipulated or simply invented Classified documents and interviews point to covert Western rather than Soviet activity

**Government of the Shadows** Eric Wilson, 2009-01-20 This book uncovers the activities of clandestine governments It explores how covert political activity and transnational organised crime are linked and how they ultimately work to the advantage of state and corporate power Using a variety of case studies from the mafia in Italy to programmes for food and reconstruction in Iraq the authors illustrate that parapolitical structures are not deviant but central to the operation of global governments The creation of this parallel world economy the source of huge political and economic potential entices states to undertake new forms of regulation either through their own intelligence agencies or through the more shadowy world of criminal cartels
