## **Red Feminism:**

**Red Feminism** Kate Weigand, 2002-11-07 Drawing on substantial new research Red Feminism traces the development of a distinctive Communist strain of American feminism from its troubled beginnings in the 1930s through its rapid growth in the Congress of American Women during the early years of the Cold War to its culmination in Communist Party circles of the late 1940s and early 1950s The author argues persuasively that despite the devastating effects of anti Communism and Stalinism on the progressive Left of the 1950s Communist feminists such as Susan B Anthony II Betty Millard and Eleanor Flexner managed to sustain many important elements of their work into the 1960s when a new generation took up their cause and built an effective movement for women s liberation Red Feminism provides a more complex view of the history of the modern women s movement showing how key Communist activists came to understand gender sexism and race as central components of culture economics and politics in American society

**Red Feminism** Kate Weigand, 2021-04-27 The untold history of feminist activism in the American Communist Party from the 1930s 50s and its influence on the women s liberation movement Publishers Weekly Drawing on substantial new research historian and archivist Kate Weigand disproved the conventional wisdom that the American Communist Party disregarded women s issues Weigand argues that despite the devastating effects of anti Communism and Stalinism on the progressive Left of the 1950s Communist feminists such as Susan B Anthony II Betty Millard and Eleanor Flexner managed to sustain many important elements of their work into the 1960s when a new generation took up their cause and built an effective movement for women s liberation Red Feminism provides a more complex view of the history of the modern women s movement showing how key Communist activists came to understand gender sexism and race as central components of culture economics and politics in American society

**Red Activists and Black Freedom** David Levering Lewis, Michael H. Nash, Daniel J. Leab, 2013-09-13 This book deals with the forgotten history of the civil rights movement The American Left played a significant part in the origins of that movement whose history has traditionally been focused on the later 1940 s and early 1950 s This approach needs serious re thinking in light of what took place in the later 1930 s with the organization and activity of groups like the Southern Negro Youth Congress that brought both African American and white workers and students together in the fight for economic and social justice Thanks to the post World War II Red Scare such groups as well as Left African American leaders like Esther and James Jackson have been overlooked or excised from an exciting controversial and important story With all due credit to the churches which played such a pivotal role in finally winning Blacks their civil rights the early history involving the Left workers of both races and the labor unions must be assimilated into America s memory for there were important continuities between what they did and the later church based struggle This book was published as a special issue of American Communist History

Red Feminism Linn Shapiro,1996      *Red Pedagogy* Sandy Grande,2015-09-28 This ground breaking text explores the intersection between dominant modes of critical educational theory and the socio political landscape of American Indian education Grande asserts that with few exceptions the matters of Indigenous people and Indian education have been either largely ignored or indiscriminately absorbed within critical theories of education Furthermore American Indian scholars and educators have largely resisted engagement with critical educational theory tending to concentrate instead on the production of historical monographs ethnographic studies tribally centered curricula and site based research Such a focus stems from the fact that most American Indian scholars feel compelled to address the socio economic urgencies of their own communities against which engagement in abstract theory appears to be a luxury of the academic elite While the author acknowledges the dire need for practical community based research she maintains that the global encroachment on Indigenous lands resources cultures and communities points to the equally urgent need to develop transcendent theories of decolonization and to build broad based coalitions      *Red Scare Racism and Cold War Black Radicalism* James Zeigler,2015-08-14 During the early years of the Cold War racial segregation in the American South became an embarrassing liability to the international reputation of the United States For America to present itself as a model of democracy in contrast to the Soviet Union s totalitarianism Jim Crow needed to end While the discourse of anticommunism added the leverage of national security to the moral claims of the civil rights movement the proliferation of Red Scare rhetoric also imposed limits on the socioeconomic changes necessary for real equality Describing the ways anticommunism impaired the struggle for civil rights James Zeigler reconstructs how Red Scare rhetoric during the Cold War assisted the black freedom struggle s demands for equal rights but labeled un American calls for reparations To track the power of this volatile discourse Zeigler investigates how radical black artists and intellectuals managed to answer anticommunism with critiques of Cold War culture Stubbornly addressed to an American public schooled in Red Scare hyperbole black radicalism insisted that antiracist politics require a leftist critique of capitalism Zeigler examines publicity campaigns against Dr Martin Luther King Jr s alleged Communist Party loyalties and the import of the Cold War in his oratory He documents a Central Intelligence Agency sponsored anthology of ex Communist testimonials He takes on the protest essays of Richard Wright and C L R James as well as Frank Marshall Davis s leftist journalism The uncanny return of Red Scare invective in reaction to President Obama s election further substantiates anticommunism s lasting rhetorical power as Zeigler discusses conspiracy theories that claim Davis groomed President Obama to become a secret Communist Long after playing a role in the demise of Jim Crow the Cold War Red Scare still contributes to the persistence of racism in America      *Red Chicago* Randi Storch,2007 Realities of the street level American Communist experience during the worst years of the Depression      The Red and the Black David Featherstone,Christian Høgsbjerg,2021-08-10 The Russian Revolution of 1917 was not just a world historical event in its own

right but also struck powerful blows against racism and imperialism and so inspired many black radicals internationally This edited collection explores the implications of the creation of the Soviet Union and the Communist International for black and colonial liberation struggles across the African diaspora It examines the critical intellectual influence of Marxism and Bolshevism on the current of revolutionary black internationalism and analyses how Red October was viewed within the contested articulations of different struggles against racism and colonialism Challenging European centred understandings of the Russian Revolution and the global left *The Red and the Black* offers new insights on the relations between Communism various lefts and anti colonialisms across the Black Atlantic including Garveyism and various other strands of Pan Africanism The volume makes a major and original intellectual contribution by making the relations between the Russian Revolution and the Black Atlantic central to debates on questions relating to racism resistance and social change

**Gendering Radicalism** Beth Slutsky, 2015 In 1919 Charlotte Anita Whitney a wealthy white woman received one of the first Communist Labor Party membership cards for the charter group of the northern California Communist Labor Party Less than a decade later in Berkeley California a Jewish woman named Dorothy Ray Healey became a card carrying member of the Young Communist League Nearly forty years later in 1966 Kendra Claire Harris Alexander a mixed race woman enlisted with the Los Angeles branch of the Communist Party determined to promote class equality In *Gendering Radicalism* Beth Slutsky examines how American leftist radicalism was experienced through the lives of these three women who led the California branches of the Communist Party from its founding in 1919 to its near dissolution in 1992 Separately each woman represents a generation of the membership and activism of the party Collectively Slutsky argues their individual histories tell the story of one of the most infamous organizations this country has ever known and in a broader sense represent the story of all women who have devoted their lives to radicalism in America Slutsky considers how gender politics California's political climate coalitions with other activist groups and local communities and generational dynamics created a grassroots Communist movement distinct from the Communist parties in the Soviet Union and Europe An ambitious comparative study *Gendering Radicalism* demonstrates the continuity and changes of the party both within and among three generations of its female leaders lives

**Visions of Progress** Doug Rossinow, 2009-11-19 Rossinow revisits the period between the 1880s and the 1940s when reformers and radicals worked together along a middle path between the revolutionary left and establishment liberalism He takes the story up to the present showing how the progressive connection was lost and explaining the consequences that followed

Radical Housewives Julie Guard, 2019-03-14 *Radical Housewives* is a history of Canada's Housewives Consumers Association. This association was a community-based women's organization with ties to the communist and social democratic left that from 1937 until the early 1950s led a broadly based popular movement for state control of prices and made other far-reaching demands on the state. As radical consumer activists, the Housewives engaged in gender transgressive political activism that challenged the government to protect consumers' interests rather than just those of business while popularizing socialist solutions to the economic crises of the Great Depression and the immediate postwar years. Julie Guard's exhaustive research, including archival research and interviews with twelve former Housewives, recovers a history of women's social justice activism in an era often considered dormant and adds a Canadian dimension to the history of politicized consumerism and of politicized materialism. *Radical Housewives* reinterprets the view of postwar Canada as economically prosperous and reveals the left's role in the origins of the food security movement.

**The Practice of U.S. Women's History** S. J. Kleinberg, Eileen Boris, Vicki Ruíz, 2007 In the last several decades U.S. women's history has come of age. Not only have historians challenged the national narrative on the basis of their rich explorations of the personal, the social, the economic, and the political, but they have also entered into dialogues with each other over the meaning of women's history itself. In this collection of seventeen original essays on women's lives from the colonial period to the present, contributors take the competing forces of race, gender, class, sexuality, religion, and region into account. Among many other examples, they examine how conceptions of gender shaped government officials' attitudes towards East Asian immigrants; how race and gender inequality pervaded the welfare state; and how color and class shaped Mexican American women's mobilization for civil and labor rights.

**Demanding Child Care** Natalie M. Fousekis, 2011-08-01 During World War II, as women stepped in to fill jobs vacated by men in the armed services, the federal government established public child care centers in local communities for the first time. When the government announced plans to withdraw funding and terminate its child care services at the end of the war, women in California protested and lobbied to keep their centers open, even as these services rapidly vanished in other states. Analyzing the informal networks of cross-class and cross-race reformers, policymakers, and educators, *Demanding Child Care: Women's Activism and the Politics of Welfare, 1940-1971* traces the rapidly changing alliances among these groups. During the early stages of the childcare movement, feminists, Communists, and labor activists banded together; only to have these alliances dissolve by the 1950s as the movement welcomed new leadership composed of working-class mothers and early childhood educators. In the 1960s, when federal policymakers earmarked child care funds for children of women on welfare and children described as culturally deprived, it expanded child care services available to these groups but eventually eliminated public child care for the working poor. Deftly exploring the possibilities for partnership as well as the limitations among these key parties, Fousekis helps to explain the barriers to a publically funded comprehensive child care program in the United States.

Smith,Melinda S. Zook,2018-07-11 This collection focuses on generations of early women historians seeking to identify the intellectual milieu and professional realities that framed their lives It moves beyond treating them as simply individuals and looks to the social and intellectual forces that encouraged them to study history and at the same time would often limit the reach and define the nature of their study This collection of essays speaks to female practitioners of history over the past four centuries that published original histories some within a university setting and some outside By analysing the values these early women scholars faced readers can understand the broader social values that led women historians to exist as a unit apart from the career path of their male colleagues      **Is History Fiction?** Ann Curthoys,2010-10 The relationship between

**Women, Love and Learning** Alison Mackinnon,2010 This book tells the story of a generation of American and Australian women who embodied and challenged the prescriptions of their times In the 1950s and early 60s they went to colleges and universities trained for professions and developed a life of the mind They were also urged to embrace their femininity to marry young to devote themselves to husbands children and communities Could they do both While they might be seen as a privileged group they led the way for a multitude in the years ahead They were quietly making the revolution

that was to come Did they have the best of all possible worlds Or were they caught in a double bind Sylvia Plath's letters tell of her delighted sense of life opening before her as a college girl Her poetry however tells of anguish of reaching for distant goals Drawing on interviews surveys reunion books letters biographical and autobiographical writing from both American and Australian women this cultural history argues that the choices that faced educated women in that time led to the revolution of the late 1960s and 70s Something had to give There are lessons here for today's young women facing again conflicting expectations Is it possible they ask to have it all
