Buitenweg, 2010-04-20 In today s globalized world all people are within six steps six links of acquaintanceship of every other person in the world Yet a significant percentage of the world s population lives in abject socio economic misery exploited slaving in horrible working conditions without enough food or education and highly susceptible to illness and disease How is it possible that this occurs to people who are only six steps away from us How can human misery continue despite the economic technological and moral progress mankind has made In particular how can this misery continue despite the economic social and cultural human rights that are recognized by many legal international and national documents These rights like the right to adequate housing to food to health care and to social security are intended to alleviate human misery and in so doing contribute to a dignified life Knowing that these rights exist might lead one to think is not such widespread socio economic human misery a violation of people s human rights more especially of their economic social and cultural rights This book addresses the rights the wrongs the law and what we need to do The Red Cross Bulletin, 1917 Red

Army Faction, A Documentary History J. Smith, André Moncourt, 2013-07-01 The long awaited Volume 2 of the first ever English language study of the Red Army Faction West Germany s most notorious urban guerillas covers the period immediately following the organization s near total decimation in 1977 This work includes the details of the guerilla s operations and its communiqu s and texts from 1978 up until the 1984 offensive This was a period of regrouping and reorientation for the RAF with its previous focus on freeing its prisoners replaced by an anti NATO orientation This was in response to the emergence of a new radical youth movement in the Federal Republic the Autonomen and an attempt to renew its ties to the radical left The possibilities and perils of an armed underground organization relating to the broader

movement are examined and the RAF's approach is contrasted to the more fluid and flexible practice of the Revolutionary Cells. At the same time the history of the 2nd of June Movement (2JM), an eclectic guerilla group with its roots in West Berlin, is also evaluated especially in light of the split that led to some 2JM members officially disbanding the organization and rallying to the RAF. Finally the RAF's relationship to the East German Stasi is examined as is the abortive attempt by West Germany's liberal intelligentsia to defuse the armed struggle during Gerhard Baum's tenure as Minister of the Interior. Dancing with Imperialism will be required reading for students of the First World guerilla, those with interest in the history of European protest movements and all who wish to understand the challenges of revolutionary struggle.

Environmental Justice in North America Paul C. Rosier, 2023-11-01. Emphasizing the voices of activists, this book's diverse contributors examine communities' common experiences with environmental injustice, how they organize to address it, and the ways in which their campaigns intersect with related movements such as Black Lives Matter and Indigenous sovereignty. The global COVID-19 pandemic exposed the ways in which BIPOC (Black Indigenous People of Color) communities and white working class communities have suffered disproportionately from the crisis due to sustained exposure to toxic land, air, and water, creating a new urgency for addressing underlying conditions of systemic racism and poverty in North America. In addition to exploring the historical roots of the Environmental Justice movement in the 1980s and 1990s, the volume offers coverage of recent events such as the DAPL pipeline controversy, the Flint water crisis, and the rise of climate justice. The collection incorporates the experiences of rural and urban communities: Alaska Natives, Native Hawaiians, Puerto Ricans, and Indigenous peoples in the U.S., Canada, and Mexico. The chapters offer instructors, undergraduate and graduate students, and general readers a range of accessible case studies that create opportunities for comparative and intersectional analysis across geographical and ethnic boundaries.

Red Tarot Christopher Marmolejo, 2024-03-05. Designed to be used with any deck, Red Tarot is a radical praxis and decolonized oracle that moves beyond self-help and divination to reclaim tarot for liberation, self-determination, and collective healing. For readers of Postcolonial Astrology and Tarot for Change, Red Tarot speaks to anyone othered for their identity or ways of being or thinking. LGBTQIA2S and BIPOC folks, in particular, presenting the tarot as a radical epistemology that shifts the authority of knowing into the hands of the people themselves. Author Christopher Marmolejo frames literacy as key to liberation and explores an understanding of tarot as critical literacy. They show how the cards can be read to subvert the dynamics of white supremacist capitalist imperialist patriarchy, weaving historical context and spiritual practice into a comprehensive overview of tarot. Situating tarot imagery within cosmologies outside the Hellenistic frame: Death as interpreted through the lens of Hindu goddess Chhinnamasta, the High Priestess through Aztec goddess Coyolxauhqui. Marmolejo's Red Tarot is a profound act of native reclamation and liberation. Each card's interpretation is further bolstered by the teachings of Toni Morrison, bell hooks, Paulo Freire, José Esteban Muñoz, and others, in an offering that integrates intersectional wisdom with the author's divination practice and reveals tarot as an essential language for

liberation **Eldercare, Distributive Justice, and the Welfare State** Derek G. Gill, Stanley R. Ingman, 1994-02-03 The essays in this book describe the situation of the elderly today taking into account the major political economic and social variations of service provided in a variety of countries Although the welfare state exists in all developed and developing countries its content and administration varies substantially The editors first develop a framework of concepts and perspectives that establish links between eldercare distributive justice and the welfare state This is followed by analyses of the services provided to the elderly in selected countries Finally the editors show how and in what ways the concepts developed earlier in the introduction equity uniformity public accountability individualism collectivism institutional or residual welfare state orientation high or low wage economy apply to and explain the differences in care of the elderly
