Geoff A Mohr, PhD

Red Meat Cures Cancer:

Red Meat Cures Cancer Starbuck O'Dwyer, 2007-12-18 What would you do if you were a few months from collecting early retirement a pension for which you'd sucked up and sycophanted almost twenty years when your obscenely overweight and extremely crass boss told you that if you didn't raise the company's market share by the end of the year you'd be out on your ass without a dime If you're Sky Thorne Senior V P of Tailburger a fringe fast food chain whose specialties are batter dipped deep fried meat patties and 96 oz beef flavored shakes you'll get to work on as many harebrained desperate schemes as you can think of And if that means launching a marketing campaign that asks the public Why just abuse your body when you can torture it then damn it that's what you'll do Because Sky Thorne is ready to fight dirty and do anything necessary to earn the pension he sees as the reset button on life liberty and the pursuit of unadulterated deep fried happiness Red Meat Cures Cancer is a hilarious and poignant romp through a world of excess and marks the arrival of a great new satirical voice in American literature

Holistic Cancer Care Chanchal Cabrera, 2023-04-04. A medical herbalist with a specialty in integrative oncology, Chanchal provides an in-depth guide to practical, solution-focused strategies for using herbal medicines and other natural therapies. Patients facing a cancer diagnosis often feel at the mercy of an illness they don't understand and in the hands of doctors offering treatments that focus on the cancer instead of on the patient. In *Holistic Cancer Care*, Chanchal Cabrera, a consulting medical herbalist with more than 20 years specializing in holistic oncology, provides an in-depth guide to using herb-based therapies in conjunction with conventional treatments. Putting the patient front and center, holistic therapies can help boost the immune system, which can slow the spread of certain cancers, and in some cases even enhance the cancer-killing effects of chemotherapy. Herbal medicine and other therapies also offer effective ways of dealing with the side effects of chemotherapy and radiation. Drawing from decades of clinical experience helping patients recover from cancer, Cabrera provides a wealth of safe, well-researched information, including specific herbal formulas, important discussions about dosing and safety, detox protocols, recommendations for nutritional supplements, simple recipes for nourishing meals, and patient case histories that demonstrate the power of the strategies she recommends. This publication conforms to the EPUB Accessibility specification at WCAG 2.0 Level AA.

Novel Approach to Curing Cancer

Jianqing Wu, Ping Zha, 2019-08-11 In this book the authors make extensive comparison between medical treatments and health optimization methods an improved mind body model in order to determine their relative and TRUE benefits for cancer patients For the health optimization method they examine its use history acceptance and performance throughout its history and for medicine they examine medical treatment history leading cancer theories standard of care formation formation of legal frameworks and overwhelming performance data we could find from the massive medical literature We can show with irrefutable evidence why medicine cannot cure cancer and what role it is actually playing The book 1 discloses a systematic methodology for curing cancer in confidence 2 extensively discusses how to do right things to win a speed contest in fighting cancer 3 extensively discusses how to do right things to control cancer cell population a critical strategy for survival 4 provides detailed analysis of fatal common mistakes that have taken nine of ten cancer patient lives 5 exposes flaws in the cancer treatment models medical research model the foundation of medicine and 6 conduct a detailed analysis of four killer factors which are routinely found in nearly all cancer care The approach used is similar to one used in Health Optimization Engineering a new branch of health art The book teaches the decisive roles of SPEED NUMBER and MULTIPLE FACTORS and how to fight cancer by using a two way optimization methodology Those three terms and optimization method are not mentioned in medical books cancer research articles and are not part of the language used in hospitals Our simulation and our kinetic studies show that both cancer development and reversal processes would take many years The rates of reversals for cancer and all chronic diseases are so slow that medicine cannot accurately evaluate This is why medicine cannot recognize or refuses to acknowledge any cure that requires half a year to several years to accomplish The approach we use in this book is directly in conflict with three core concepts in medicine dualism reductionism and population based approach Moreover we found that medical treatments can partially neutralize and totally nullify the curative benefits of our optimization method Based on our own findings and the results from reanalyzing massive existing medical publications we inevitably found that medical treatments are primarily responsible for creating the cancer panic and the treatments shorten lives in a super majority of cases We try to analyze every issue in the most comprehensive way Our analysis covers medical model and its legal framework leading cancer theories treatment development histories formation of standard of care control selections in drug trials the massive cancer controversies and mountains of actual performance data The most convincing evidence is the performance verdicts by recent medical studies and latest meta reviews We try to built a watertight case that precludes any of those arguments that have been made by proponents of the reductionist medical model [The Paleo Cure](#)
