## **Red Star Rogue:**

**Red Star Rogue** Kenneth Sewell, Clint Richmond, 2005-10-01 This riveting New York Times bestseller tells of the shocking true story of a rogue Soviet submarine poised for a nuclear strike on the United States revealing the explosive facts about one of the best kept secrets of the Cold War The Flint Journal On March 7 1968 several hundred miles northwest of Hawaii the nuclear armed K 129 surfaced and sunk taking its crewmen and officers with it to perish at sea Who was commanding the rogue Russian sub What was its target How did it infiltrate American waters undetected Drawing from recently declassified documents and extensive confidential interviews Navy veteran Kenneth Sewell exposes the stunning truth behind an operation calculated to provoke war between the United States and China With full authoritative detail and sixteen pages of exclusive photographs Red Star Rogue illuminates this history shaping event and rings with chilling relevance in light of today's terrorist threats

**Red Star Rogue** Kenneth R. Sewell, Clint Richmond, 2005 This book reads like a Tom Clancy novel but it is all true Today our greatest fear is that terrorists may someday acquire a nuclear weapon and use it against us In fact they have already tried In 1968 a Soviet submarine sank off Hawaii hundreds of miles closer to American shores than it should have been Evidence strongly suggests that the sub sank while attempting to fire a nuclear missile most likely at Pearl Harbor We now know that the Soviets had lost track of the sub it had become a rogue While the Soviets searched U S intelligence was able to recover the sunken sub and it became clear that the rogue was attempting to mimic a Chinese submarine almost certainly with the intention of provoking a war between the U S and China Could the information gleaned from the sunken sub have been a decisive factor shaping the new policies of détente between the Americans and the Soviets and opening China to the West From publisher description *Red Star Rogue* CON Sewell, 2014

*All Hands Down* Kenneth Sewell, Jerome Preisler, 2009-07-28 From the author of Red Star Rogue the controversial account of the destruction of the USS Scorpion the nuclear submarine that sank with ninety nine crewmen aboard in 1968 an event that was officially attributed to accident The tragedy of the USS Scorpion and the lingering mystery of what caused it to sink in 10 000 feet of water on the eastern edge of the Sargasso Sea has been widely written about All Hands Down shows how the Soviet plot to exact revenge for the loss of a Russian sub was executed and explains why the truth of the attack has been officially denied for forty years Sewell and Preisler debunk various official explanations for the tragedy and bring to life the personal stories of some of the men who were lost when Scorpion went to the bottom Project Azorian Norman C Polmar, Michael White, 2012-09-15 In early August 1974 despite incredible risks and after six years of secret preparations the CIA attempted to salvage the sunken Soviet ballistic missile submarine K 129 from the depths of the North Pacific Ocean The audacious effort was undertaken with the cover of an undersea mining operation sponsored by eccentric billionaire Howard Hughes Azorian incorrectly identified as Project Jennifer by the press was the most ambitious ocean engineering endeavor attempted by man Following the accidental sinking of a Soviet missile submarine in March 1968 U S intelligence agencies

were able to determine the precise location and to develop a means of raising the submarine from a depth of 16 400 feet The remarkable salvage effort of the K 129 which contained nuclear armed torpedoes and one nuclear tipped missile as well as crypto equipment was conducted with Soviet naval ships a few hundred yards from the lift ship the Hughes Glomar Explorer The book is based in part on the research for Michael White documentary film Azorian The Raising of the K 129 released in late 2009 The research for the book and the documentary forced the CIA to issue a brief report on Project Azorian in early 2010 with one third of the document redacted *Defusing Armageddon: Inside NEST, America's Secret Nuclear Bomb Squad* Jeffrey Richelson, 2009-02-02 Richelson reveals the history of America's super secret government agency Nuclear Emergency Support Team NEST Defusing Armageddon provides a behind the scenes look at NEST's personnel operations and detection and disablement equipment 16 pages of illustrations 4 maps **The CIA's Greatest Covert Operation** David H. Sharp, 2012-04-04 March 1968 three miles below the stormy surface of the North Pacific a Soviet submarine lay silent as a tomb its crew dead its payload of nuclear missiles once directed toward strategic targets in Hawaii inoperable No longer a real threat the sub still presented an alluring target and it was not long before the CIA answered its siren call even at the risk of igniting World War III Project AZORIAN the monumentally audacious six year mission to recover the sub and learn its secrets has been celebrated within the CIA as its greatest covert operation and hailed by the American Society of Mechanical Engineers as the twentieth century's greatest marine engineering feat While previous accounts have offered beguiling glimpses none have had significant access to CIA personnel or documents Now David Sharp the mission's Director of Recovery Systems draws upon his own recollections and personal records ship's logs declassified documents and conversations with team members to shine a bright light on this remarkable but still little understood enterprise Sharp reveals how the CIA conceived organized and conducted AZORIAN including recruiting the legendary Howard Hughes to provide the ocean mining cover story He takes readers onto and beneath the high seas to show the problems faced by the crew during the operation including potential Soviet intervention and tense moments when the recovery ship itself was in danger of breaking up He also puts a human face on key players like Carl Duckett the head of the CIA's Science and Technology Directorate John Parangosky AZORIAN's program manager John Graham designer of the Hughes Glomar Explorer Curtis Crooke of Global Marine Development co creator of the grunt lift recovery concept and Oscar Ott Schick manager of the Lockheed built capture vehicle and submersible barge A mammoth undertaking worthy of the most dramatic and spell binding espionage fiction Project AZORIAN harnessed American imagination and ingenuity at their highest levels Featuring dozens of previously classified photos Sharp's chronicle of that amazing operation plunges readers deep into the darkest shadows of the Cold War to produce the definitive account of an amazing mission **Merchant Vessels of the United States**, 1969 **Historical Dictionary of Naval Intelligence** Nigel West, 2010-04-28 Naval intelligence is one of the most vital and sometimes decisive forms of intelligence Over the centuries and with particular velocity over recent

decades the techniques of detecting and destroying military and commercial shipping have improved leapfrogging the equally frantic race to keep ahead of them and safeguard the huge investments involved Today the new challenges range from an increasingly aggressive strategy adopted by Pyongyang's submarine fleet and the exclusion of illegal immigrants heading for Australia and southern Europe to the capture of cocaine laded submarines in the Caribbean and the interdiction of Somali pirates off the Gulf of Aden Any accurate assessment of the comparative threat these activities pose is just as dependent on good intelligence today as it was to Admiral Lord Nelson in the days of sail The Historical Dictionary of Naval Intelligence relates the long and fascinating history of naval intelligence through a chronology an introduction a bibliography and hundreds of cross referenced dictionary entries on the organizations operations and events that made Naval intelligence what it is today *The Publishers Weekly*, 1929 **Merchant Vessels of the United States...** United States.
