## **Red Air Fighter:**

**Red Air** Sanu Kainikara, 2007-10 The Russian Air Force carries the mantle of the erstwhile Red Air Force of the Soviet Union and has a long and illustrious history backed by grand traditions and customs The Russian Air Force is still coming to grips with its changed circumstances after the collapse of the Soviet Union and is perhaps in the best shape of the three armed forces to be able to lend credence to the Russian Federation's claim to international influence and power projection capabilities Doctrine is the reflection of a nation's character and air power doctrine is influenced by the strategic culture of a nation Nowhere else is this more apparent than in the case of the Russian Air Force The Red Air Force has been directly influenced by the political upheavals in the Soviet Union and now Russia but has displayed exemplary resilience in continuing to provide adequate support for government policies The impact of political ideology on the development of doctrine and air power has not been greater in any other air force around the world This book is an extension of a doctoral thesis produced in 2005 and is essential reading for anyone trying to come to grips with the intricate relationship that exists between national security imperatives political ideology and the development of military doctrine Back cover Eye of the Viper Peter

Aleshire, 2005-11-01 Hand picked pressure tested and full of astronaut gung ho the young pilots of Eye of the Viper are poised for the toughest assignment of their career the exhaustive six month training course at Arizona's Luke Air Force Base at a cost of 2 million each Luke the world's largest fighter wing is the only F 16 fighter training base in the United States and each year it produces one thousand pilots who will fly the F 16 from Korea to Afghanistan to Iraq But being among the elite pilots who are selected for the course is by no means a guarantee that they will earn the right to fly the F 16 Only a few select individuals will have what it takes Award winning journalist Peter Aleshire provides a full blast of the rigors and intensity of the course the personalities the incredible machines the irreverence the bravado and the toughness not only of the hand picked students seeking a place in the warrior subculture but of the veteran pilots who must teach them how to stay alive

**Collision of Empires** A. D. Harvey, 1993-07-01 The only previous war to match the world wars of the twentieth century in scale and impact was the French War of 1793 1815 This book is the first book to compare these conflicts which together shaped the history of the modern world A D Harvey relates the causes conduct and outcome of these wars to the fundamental nature of the societies which fought them Political decisions economic power and social attitudes interfaced with the demands of military technology to determine the outcome of each case Britain is the centre of focus but is seen against a background of the other combatants Harvey's ability to make large scale generalisations is backed up by a wealth of fascinating and carefully documented detail making this outstanding and exceptionally well written book a pleasure to read The author has tackled a huge subject and has not been afraid to face up to either its complexities or its implications By asking new questions and using a range of unfamiliar sources this book provides an unusually profound analysis not only of these wars but also of the nature of modern society and of our understanding of the past King of Airfighters Ira

Jones,2020-01-10 A penetrating study of Britain's top World War I fighter ace written by fellow pilot Ira Jones the author of *An Air Fighter's Scrapbook* Ira Jones biography of Britain's top scoring ace of the First World War has become the subject of some controversy over the last few years most notably it claims seventy three kills for Mannock making him the number one scoring Allied ace of the war Later research has thrown serious doubt on this assertion and indeed Mannock himself only claimed fifty one kills Jones biography is nevertheless an important account especially when seen in the context of the time in which it was first written In particular the biography delves into the mind of Mannock portraying the singular nature of his character and the true stress that these pioneer air fighters experienced in the last few months of the war Originally published in 1934 by Ivor Nicholson and Watson in London the book has been reprinted most recently in the 1990s by Greenhill Books as part of its Vintage Aviation Library and reproduced from the original 1930s version of the book Not a word has been changed in this Casemate edition but the original very dated type and page layout have been reworked as has been the format in which the book is presented to give a beautiful new treatment to this classic of aviation literature
