The Red Blackboard Ruth Koenig, 2000-07-31 As a traveler I had always been frustrated at having to eat and run when visiting fascinating places Being able to live teach and travel and really get to know people was like a dream come true when my husband and I spent a year in China Although fascinating it was not an easy year Coping with the lack of heat of familiar foods political monitors in the classroom and few teaching materials sometimes made teaching a nightmare It was the first time in my life I had ever written Spitting in the classroom will not be tolerated on my class syllabus Traveling in a country with woefully inadequate facilities and resources was frustrating and maddening Venturing out without knowing the language created some awkward embarrassing and sometimes humorous situations In one instance some enterprising and engaging salesmen inveigled my husband into posing for pictures prominently holding up some sample commercial products When the pictures and sample brochures arrived later we discovered that he seemed to be enthusiastically endorsing a feminine hygiene product Nevertheless as we came to know our Chinese students friends and colleagues who shared their lives and experiences we gained a new understanding of courage and an appreciation for the endurance of the human spirit and the natural sweetness of the Chinese people *The captain on the bridge: addresses in outline, illustrating gospel truths and holy living* Newton Jones, 1903

The American Text-books for Art Education. Revised Edition. Teachers' Manual for The Primary Course of Instruction in Drawing Anonymous, 2024-04-07 Reprint of the original first published in 1882 *Red Diapers* Judy Kaplan, Linn Shapiro, 1998 Red Diapers is the first anthology of autobiographical writings by the children of American communists These memoirs short stories and poems reflect the joys and perils of growing up in a subculture defined by its opposition to some of society's most deeply held values How red diaper babies have come to terms with their political inheritance is the theme of this compelling anthology Some contributors have fond memories of family activism others recall the past with ambivalence or even pain The authors range in age from their twenties to their eighties Some such as Watergate reporter Carl Bernstein and sixties activist Bettina Aptheker are widely known themselves some are the children of well known American leftists including Jeff Lawson son of blacklisted screenwriter John Howard Lawson and Robert Meeropol son of Ethel and Julius Rosenberg In disparate voices the contributors elaborate on how their parents attempted to pass on to them the torch of radical politics **Bible talks with the little ones, 52 lessons** Clara R.

Nash, 1903 *Red Alert!* Stuart J. Foster, 2000 Typically referred to as the red scare or McCarthy era the period from 1947 to 1954 proved particularly exacting for educators in America's public schools Red Alert details the profound impact that the red scare had on educational policy and practice as well as examines professional educators cautious response to anti communist repression In particular Red Alert focuses on the work of the National Education Association's Defense Commission and its singular and often fruitless efforts to thwart red scare attack *Uncivil Rights* Jonna Perrillo, 2024-05-31 Almost fifty years after Brown v Board of Education a wealth of research shows that minority students continue to receive an

unequal education At the heart of this inequality is a complex and often conflicted relationship between teachers and civil rights activists examined fully for the first time in Jonna Perrillo s *Uncivil Rights* which traces the tensions between the two groups in New York City from the Great Depression to the present While movements for teachers rights and civil rights were not always in conflict Perrillo uncovers the ways they have become so brought about both by teachers who have come to see civil rights efforts as detracting from or competing with their own goals and by civil rights activists whose aims have deprofessionalized the role of the educator Focusing in particular on unionized teachers Perrillo finds a new vantage point from which to examine the relationship between school and community showing how in this struggle educators activists and especially our students have lost out Through eye to heart: simple methods of visible illustration, by A.W. Webster and W. Dryburgh Alphonsus W. Webster,1903

Teacher Strike! Jon Shelton,2017-03-21 A wave of teacher strikes in the 1960s and 1970s roiled urban communities Jon Shelton illuminates how this tumultuous era helped shatter the liberal labor coalition and opened the door to the neoliberal challenge at the heart of urban education today As Shelton shows many working and middle class whites sided with corporate interests in seeing themselves as society s only legitimate productive members This alliance increasingly argued that public employees and the urban poor took but did not give Drawing on a wealth of research ranging from school board meetings to TV news reports Shelton puts readers in the middle of fraught intense strikes in Newark St Louis and three other cities where these debates and shifting attitudes played out He also demonstrates how the labor actions contributed to the growing public perception of unions as irrelevant or even detrimental to American prosperity Foes of the labor movement meanwhile tapped into cultural and economic fears to undermine not just teacher unionism but the whole of liberalism *The First-Book Market* Jason Shinder,Amy Holman,Kathleen Adams,1998-05-29 The first ever single directory for aspiring writers to turn to for help in making their first book a success The First Book Market includes information about grants and awards available exclusively to first time authors advice on writing effective query letters book promotion techniques and much more
