Red Matters Native American Studies:

Red Matters Arnold Krupat, 2002 Arnold Krupat one of the most original and respected critics working in Native American studies today offers a clear and compelling set of reasons why red Native American culture history and literature should matter to Americans more than it has to date Although there exists a growing body of criticism demonstrating the importance of Native American literature in its own right and in relation to other ethnic and minority literatures Native materials still have not been accorded the full attention they require Krupat argues that it is simply not possible to understand the ethical and intellectual heritage of the West without engaging America's treatment of its indigenous peoples and their extraordinary and resilient responses Criticism of Native literature in its current development Krupat suggests operates from one of three critical perspectives against colonialism that he calls nationalism indigenism and cosmopolitanism Nationalist critics are foremost concerned with tribal sovereignty indigenist critics focus on non Western modes of knowledge and cosmopolitan critics wish to look elsewhere for comparative possibilities Krupat persuasively contends that all three critical perspectives can work in a complementary rather than an oppositional fashion A work marked by theoretical sophistication wide learning and social passion *Red Matters* is a major contribution to the imperative effort of understanding the indigenous presence on the American continents

Red Bird, Red Power Tadeusz Lewandowski, 2016-05-26 *Red Bird Red Power* tells the story of one of the most influential and controversial American Indian activists of the twentieth century Zitkala a 1876 1938 also known as Gertrude Simmons Bonnin was a highly gifted writer editor and musician who dedicated her life to achieving justice for Native peoples Here Tadeusz Lewandowski offers the first full scale biography of the woman whose passionate commitment to improving the lives of her people propelled her to the forefront of Progressive era reform movements Lewandowski draws on a vast array of sources including previously unpublished letters and diaries to recount Zitkala's unique life journey Her story begins on the Dakota plains where she was born to a Yankton Sioux mother and a white father Zitkala's whose name translates as Red Bird in English left home at age eight to attend a Quaker boarding school eventually working as a teacher at Carlisle Indian Industrial School By her early twenties she was the toast of East Coast literary society Her short stories for the *Atlantic Monthly* 1900 are to this day the focus of scholarly analysis and debate In collaboration with William F Hanson she wrote the libretto and songs for the

innovative Sun Dance Opera 1913 And yet as Lewandowski demonstrates Zitkala a s successes could not fill the void of her lost cultural heritage nor dampen her fury toward the Euro American establishment that had robbed her people of their land In 1926 she founded the National Council of American Indians with the aim of redressing American Indian grievances Zitkala a s complex identity has made her an intriguing if elusive subject for scholars In Lewandowski s sensitive interpretation she emerges as a multifaceted human being whose work entailed constant negotiation In the end Lewandowski argues Zitkala a s achievements distinguish her as a forerunner of the Red Power movement and an important agent of change

Mapping Indigenous Presence Kathryn W. Shanley,Björg Evjen,2015-05-14 Despite centuries of colonization many Indigenous peoples cultures remain distinct in their ancestral territories even in today s globalized world Yet they exist often within countries that hardly recognize their existence Struggles for political recognition and cultural respect have occurred historically and continue to challenge Native American nations in Montana and S mi people of northern Scandinavia in their efforts to remain and thrive as who they are as Indigenous peoples In some ways the Indigenous struggles on the two continents have been different but in many other ways they are similar Mapping Indigenous Presence presents a set of comparative Indigenous studies essays with contemporary perspectives attesting to the

importance of the roles Indigenous people have played as overseers of their own lands and resources as creators of their own cultural richness and as political entities capable of governing themselves This interdisciplinary collection explores the Indigenous experience of S mi peoples of Norway and Native Americans of Montana in their respective contexts yet they are in many ways distinctly different within the body politic of their respective countries Although they share similarities as Indigenous peoples within nation states and inhabit somewhat similar geographies their cultures and histories differ significantly S mi people speak several languages while Indigenous Montana is made up of twelve different tribes with at least ten distinctly different languages both peoples struggle to keep their Indigenous languages vital The political relationship between S mi people and the mainstream Norwegian government and culture has historically been less contentious than that of the Indigenous peoples of Montana with the United States and with the state of Montana yet the S mi and the Natives of Montana have struggled against both the ideology and the subsequent assimilation policy of the savagery versus civilization model The authors attempt to increase understanding of how these two sets of Indigenous peoples share important ontological roots and postcolonial legacies and how research may be used for their own self determination and future directions

Meyer, 2022-01-27 During the Standing Rock Sioux protest against the Dakota Access Pipeline an activist observed Forced removal isn't just in the history books Sabine N Meyer concurs noting the prominence of Indian Removal the nineteenth century policy of expelling Native peoples from their land in Native American aesthetic and political praxis across the centuries Removal has functioned both as a specific set of historical events and a synecdoche for settler colonial dispossession of Indigenous communities across hemispheres and generations It has generated a plethora of Native American writings that negotiate forms of belonging the identities of Native collectives their proprietary relationships and their most intimate relations among one another By analyzing these writings in light of domestic settler colonial international and tribal law Meyer reveals their coherence as a distinct genre of Native literature that has played a significant role in negotiating Indigenous identity Critically engaging with Native Removal writings across the centuries Meyer's work shows how these texts need to be viewed as articulations of Native identity that respond to immediate political concerns and that take up the question of how Native peoples can define and assert their own social cultural and legal political forms of living being and belonging within the settler colonial order Placing novels in conversation with nonfiction writings Native Removal Writing ranges from texts produced in response to the legal and political struggle over Cherokee Removal in the late 1820s and 1830s to works written by African Native writers dealing with the freedmen disenrollment crisis to contemporary speculative fiction that links the appropriation of Native intangible property culture with the earlier dispossession of their real property land In close contextualized readings of John Rollin Ridge John Milton Oskison Robert J Conley Diane Glancy Sharon Ewell Foster Zelda Lockhart and Gerald Vizenor as well as politicians and scholars such as John Ross Elias Boudinot and Rachel Caroline Eaton Meyer identifies the links these writers create between

historical past narrated present and political future Native Removal Writing thus testifies to both the ongoing power of Native Removal writing and its significance as a critical practice of resistance
