Regime Politics Governing Atlanta 1946 1988:

Regime Politics Clarence Nathan Stone, 1989 From the end of Georgia's white primary in 1946 to the present Atlanta has been a community of growing black electoral strength and stable white economic power Yet the ballot box and investment money never became opposing weapons in a battle for domination Instead Atlanta experienced the emergence and evolution of a biracial coalition Although beset by changing conditions and significant cost pressures this coalition has remained intact At critical junctures forces of cooperation overcame antagonisms of race and ideology While retaining a critical distance from rational choice theory author Clarence Stone finds the problem of collective action to be centrally important The urban condition in America is one of weak and diffuse authority and this situation favors any group that can act cohesively and control a substantial body of resources Those endowed with a capacity to promote cooperation can attract allies and overcome oppositional forces On the negative side of the political ledger Atlanta's style of civic cooperation is achieved at a cost Despite an ambitious program of physical redevelopment the city is second only to Newark New Jersey in the poverty rate Social problems conflict of interest issues and inattention to the production potential of a large lower class bespeak a regime unable to address a wide range of human needs No simple matter of elite domination it is a matter of governing arrangements built out of selective incentives and inside deal making such arrangements can serve only limited purposes The capacity of urban regimes to bring about elaborate forms of physical redevelopment should not blind us to their incapacity to address deeply rooted social problems Stone takes the historical approach seriously The flow of events enables us to see how some groups deploy their resource advantages to fashion governing arrangements to their liking But no one enjoys a completely free hand some arrangements are more workable than others Stone's theory minded analysis of key events enables us to ask why and what else might be done Regime Politics offers readers a political history of postwar Atlanta and an elegant innovative and incisive conceptual framework destined to influence the way urban politics is studied

Mayors in the Middle Jeffrey R. Henig, Wilbur C. Rich, 2004 Desperate to jump start the reform process in America's urban schools politicians scholars and school advocates are looking increasingly to mayors for leadership But does a stronger mayoral role represent bold institutional change with real potential to improve big city schools or just the latest in the copycat world of school reform du jour Is it democratic Why have efforts to put mayors in charge so often generated resistance along racial dividing lines Public debate and scholarly analysis have shied away from confronting such issues head on Mayors in the Middle brings together for students of education policy and urban politics as well as scholars and school advocates the most thoughtful and original analyses of the promise and limitations of mayoral takeovers of schools Reflecting on the experience of six cities Baltimore Boston Chicago Detroit Cleveland and Washington D C ten of the nation's leading experts on education politics tackle the question of whether putting mayors in charge is a step in the right direction Through the case studies and the wide ranging essays that follow and build upon them the contributors Stefanie Chambers Jeffrey R Henig Kenneth J

Meier Jeffrey Mirel Marion Orr John Portz Wilbur C Rich Dorothy Shipps and Clarence N Stone begin the process of answering questions critical to the future of inner city children the prospects for urban revitalization and the shape of American education in the years to come *Racial Politics at the Crossroads* Marcus D. Pohlmann,1996 In one of the closest and most racially polarized elections in the history of urban America Dr W W Herenton in 1991 became the first African American mayor of Memphis *Racial Politics at the Crossroads* is an in depth case study of that election exploring the unique circumstances that produced the outcome As Marcus Pohlmann and Michael Kirby explain politics in Memphis had by 1991 reached what they call a point of racial reflexivity One of the key factors that had helped elect black mayors in other cities a significant level of white liberal support for the African American candidate was largely absent in Memphis Instead the racial chasm was so wide that it precluded any cross racial appeals by either candidate and consequently the mayoral contest between Herenton and incumbent Richard Hackett consisted of parallel campaigns Rather than engage each other in debate of the issues or the usual pattern of attacks and counterattacks the two candidates concentrated on turning out and registering their own racial constituencies Herenton s success in the end hinged on the mobilization of an extraordinary level of black support in combination with critical demographic and legal factors The authors suggest that the election might easily have gone the other way if for example Memphis had been allowed to continue its annexation of predominantly white suburbs The authors analyze the election in the context of the city s history of racial politics and contrast the political dynamics of Memphis with that of other cities Finally in an epilogue written in light of Herenton s decisive 1995 reelection in which he faced only token opposition the authors conclude that bridging the black white divide in Memphis will continue to be the greatest challenge facing Herenton s administration but that the most recent election results do suggest that a significant step has been made in that direction The Authors Marcus D Pohlmann is professor of political science at Rhodes College in Memphis and the author most recently of *Governing the Postindustrial City* Michael P Kirby associate professor of political science at Rhodes has written extensively for scholarly journals *Race and Politics* James Jennings,1997-11-17 This sequel to *Race Politics and Economic Development* assembles case studies of cities such as Atlanta and Chicago with practical discussions of programmes designed to establish a more effective black politics It draws comparisons between racial politics on both sides of the Atlantic **Electoral Politics Is Not Enough** Peter F. Burns,2012-02-16 Focusing on four medium sized northeastern cities with strong political traditions *Electoral Politics Is Not Enough* analyzes conditions under which white leaders respond to and understand minority interests Peter F Burns argues that conventional explanations including the size of the minority electorate the socioeconomic status of the citizenry and the percentage of minority elected officials do not account for variations in white leaders understanding of and receptiveness toward African American and Latino interests Drawing upon interviews with more than 200 white and minority local leaders and through analysis of local education and public safety policies he finds that unconventional channels namely neighborhood groups and community

based organizations strongly influence the representation of minority interests

The Leftmost City Richard Gendron, 2018-04-17 Almost all US cities are controlled by real estate and development interests but Santa Cruz California is a deviant case An unusual coalition of socialist feminists environmentalists social welfare liberals and neighborhood activists has stopped every growth project proposed by landowners and developers since 1969 and controlled the city council since 1981 Even after a 1989 earthquake forced the city to rebuild its entire downtown the progressive elected officials prevailed over developers and landowners Drawing on hundreds of primary documents as well as original previously unpublished interviews The Leftmost City utilizes an extended case study of Santa Cruz to critique three major theories of urban power Marxism public choice theory and regime theory Santa Cruz is presented within the context of other progressive attempts to shape city government and the authors findings support growth coalition theory which stresses the conflict between real estate interests and neighborhoods as the fundamental axis of urban politics The authors conclude their analysis by applying insights gleaned from Santa Cruz to progressive movements nationwide offering a template for progressive coalitions to effectively organize to achieve political power
