Regional And Sectoral Development In Mexico As Alternatives To Migration:

Regional And Sectoral Development In Mexico As Alternatives To Migration Sergio Diaz-briquets, Sidney Weintraub, 2019-07-11 This volume examines a number of regional and sectoral developments in Mexico and assesses how they are related to undocumented migration to the United States representing efforts to identify productive alternatives to the problem of migration

Aid in Place of Migration? W. R. Böhning, International Labour Office, 1994 This book contains a selection of case studies prepared for an ILO UNHCR meeting on international aid as a means to reduce the need for emigration It considers international assistance to and migration from Eastern Europe the Horn of Africa Central America the Philippines Tunisia and Turkey as well as looking more generally at refugee policy in the post Cold War world and at reducing emigration pressure through foreign aid

Mexico and its Diaspora in the United States Alexandra Délano, 2011-06-06 In the past two decades changes in the Mexican government's policies toward the 30 million Mexican migrants living in the US highlight the importance of the Mexican diaspora in both countries given its size its economic power and its growing political participation across borders This work examines how the Mexican government's assessment of the possibilities and consequences of implementing certain emigration policies from 1848 to 2010 has been tied to changes in the bilateral relationship which remains a key factor in Mexico's current development of strategies and policies in relation to migrants in the United States Understanding this dynamic gives an insight into the stated and unstated objectives of Mexico's recent activism in defending migrants rights and engaging the diaspora the continuing linkage between Mexican migration policies and shifts in the US Mexico relationship and the limits and possibilities for expanding shared mechanisms for the management of migration within the NAFTA framework

Parenting from Afar and the Reconfiguration of Family Across Distance Maria Rosario T. De Guzman, Jill Rena Brown, Carolyn P. Edwards, 2018 An increasing number of families around the world are now living apart from one another subsequently causing the defining and redefining of their relationships roles within the family unit and how to effectively maintain a sense of familial cohesion through distance Edited by Maria Rosario T de Guzman Jill Brown and Carolyn Pope Edwards *Parenting From Afar and the Reconfiguration of Family Across Distance* uniquely highlights how families both in times of crisis and within normative cultural practices organize and configure themselves and their parenting through physical separation In this volume readers are given a unique look into the lives of families around the world that are affected by separation due to a wide range of circumstances including economic migration fosterage divorce military deployment education and orphanhood Contributing authors from the fields of psychology anthropology sociology education and geography all delve deep into the daily realities of these families and share insight on why they live apart from one another how families are redefined across long distances and the impact absence has on various members within the unit An especially timely volume *Parenting From Afar and the Reconfiguration of Family Across Distance* offers

readers an important understanding and examination of family life in response to social change and shifts in the caregiving context *Ambivalent Journey* Richard C. Jones, 2022-09-13 The changing political and economic relationships between Mexico and the United States and the concurrent U S debate over immigration policy and practice demand new data on migration and its economic effects In this innovative study Richard C Jones analyzes migration patterns from two subregions of north central Mexico Coahuila and Zacatecas to the United States He analyzes and contrasts the characteristics of the two migrant populations and interprets the economic impacts of migration upon both home of migration upon both home areas Jones s findings refute some common assumptions about Mexican migration while providing a strong model for further research Jones s study focuses on the ways in which U S migration affects the lives of families in these two subregions Migrants from Zacatecas have traditionally come from rural areas and have gone to California and Illinois Migrants from Coahuila on the other hand usually come from urban areas and have almost exclusively preferred locations in nearby Texas The different motivations of both groups for migrating and the different economic and social effects upon their home areas realized by migrating form the core of this book The comparison also lends the book its uniqueness since no other study has made such an in depth comparison of two areas Jones addresses the basic dichotomy of structuralists who maintain that dependency and disinvestment are the rule for families and communities in sending areas and functionalists who believe that autonomy and reinvestment are the case of migrants and their families in home regions Jones finds that much of the primary literature is based on uneven and largely outdated data that leans heavily on two sending states Jalisco and Michoacan His fresh analysis shows that communities and regions of Mexico rather than families only account for differing migration patterns and differing social and economic results of these patterns Jones s study will be of value not only to scholars and practitioners working in the field of Mexican migration but also for its innovative methodology to anthropologists sociologists political scientists and historians whose interests include human migration patterns in any part of the world

Constructed Movements Ragini Shah, 2024-12-03 A free ebook version of this title is available through Luminos University of California Press s Open Access publishing program Visit www.luminosoa.org to learn more At once theoretically sophisticated and poignantly written *Constructed Movements* centers stories from communities in Mexico profoundly affected by emigration to the United States to show how migration extracts resources along racial lines Ragini Shah chronicles how three interrelated dynamics the maldistribution of public resources the exploitation of migrant labor and the US immigration enforcement regime entrench the necessity of migration as a strategy for survival in Mexico She also highlights the alternative visions elaborated by migrant community organizations that seek to end the conditions that force migration Recognizing that reform without recompense will never right an unjust migratory system Shah concludes with a forceful call for the US and Mexican governments to make abolitionist investments and reparative compensation to directly counteract this legacy of extraction *Small Country Development And International Labor Flows* Anthony

Maingot,2019-06-26 This book examines policies that nations of emigration and immigration can use to maximize the flow of resources from the emigrants to the home country It explores interaction of factors such as migration trade and foreign investment on local and economic development in Mexico and the Caribbean **The Politics of Technology in Latin America** Maria Ines Bastos,2003-09-02 This collection sets out to explore technology policy in Latin America during the 1970s and 1980s It is based on country studies and industry studies in the main Latin American economies and examines the political turmoil surrounding protected industrialisation in these countries **Mexico** Daniel C. Levy,Kathleen Bruhn,2006-01-26 This engaging book provides a broad and accessible analysis of Mexico s contemporary struggle for democratic development Now completely revised it brings up to date issues ranging from electoral reform and accountability to drug trafficking migration and NAFTA It also considers the rapidly changing role of Mexico s mass and elite groups and its national institutions including the media the military and the Church
