A. Prakash, 2009 This edited volume is based on the UGC's model curriculum for Indian Economic Policy meant for all universities in India Each chapter is contributed by an expert in the specific area being addressed and this book presents the policies formulated in each sector or sub sector and the resultant changes during the post reform period 1991-2008 This volume examines the impact of economic reforms on fronts as varied as the fiscal situation of government of India state finances money capital market external sector agriculture industry power health education employment unemployment and poverty **Evolutionary Economic Geography in China** Canfei He, Shengjun Zhu, 2019-03-25 The book provides the first detailed account of the complex geographical dynamics restructuring China's manufacturing industries from the evolutionary economic geography perspective These geographical and industrial shifts have enormous implications in and beyond China for what is possible in the post crisis global economy

The book demonstrates that the interface between evolutionary economic geography approaches and other approaches e.g. global value chain, global production network, institutional economic geography could be a fertile area for further consideration. The two main audiences that this book appeals to are economic geography and regional science. The topics covered in the book are also relevant to development studies, economics, economic sociology and international studies, offering academics, international researchers, post graduate and advanced undergraduate students in these fields an accessible, grounded yet theoretically sophisticated account of the evolutionary economic geography in China and its interaction with firm performance and regional economic development. The book is also attractive to national policy makers since it engages directly with economic and industrial policy issues such as industrial competitiveness, regional and national development, industrial and employment restructuring and trade regulation.

Kerala Transforming P.L. Beena, Thiagu Ranganathan, 2025-07-18 This book examines Kerala's recent development trajectory and highlights the impact of COVID-19 on its economy. It analyzes Kerala's growth and structural transformation while engaging critically with issues related to employment and migration. The book delves into policies aimed at reintegrating return migrants into Kerala's development process. It examines the implications of Free Trade Agreements and policies initiated by the Government of India under the WTO regime on agriculture. The chapters in the book also investigate the impact of the growth trajectories on distributional aspects of inequality and social mobility. Timely and topical, the book will be an indispensable resource for students and researchers of economics, development studies, trade, labour and migration, political economy, Kerala economy and South Asian studies.

The Promise of Small and Medium Enterprises Ana Arroio, Mario Scerri, 2018-10-24 This series of books brings together results of an extensive research programme on aspects of the national systems of innovation (NSI) in the five BRICS countries: Brazil, Russia, India, China and South Africa. It provides a comprehensive and comparative examination of the challenges and opportunities faced by these dynamic and emerging economies. In discussing the impact of innovation with respect to economic, geopolitical, socio-cultural, institutional and technological systems, it reveals the possibilities of new development paradigms for equitable and sustainable growth. This volume, third in the series, looks at the relationship between small and medium enterprises (SMEs) and the National Systems of Innovation in the BRICS countries. It brings to fore crucial issues in the evolution and future trends of industrial or innovation policies for small firms, their scope, applicability, coordination and main results, as well as the influence of macroeconomic, legal and regulatory environments. Taking into account the specificities and complexities of SMEs' production and innovation systems, it seeks to inform research, policy design and implementation in the field. Original and detailed data together with expert analyses on wide-ranging issues make this book an invaluable resource for researchers and scholars in economics, development studies and political science, in addition to policy makers and development practitioners interested in the BRICS countries.
