Regional Modernities The Cultural Politi:

Regional Modernities K. Sivaramakrishnan, Arun Agrawal, 2003 Seminar papers Regional Modernities K. Sivaramakrishnan, Arun Agrawal, 2003 The Volume Brings Together Some Excellent New Scholarship On The Idea And Practice Of Development It Rescues The Complex History Of Development Encounters From The Prison Of Monolithic Modernization Discourse Without Splintering It Into Endless Postmodernist Narrative Fragments **The Oxford Handbook of the Politics of Development** Carol Lancaster, Nicolas van de Walle, 2018-05-01 In many discussions of nations development we often focus on their economic and social development Is it becoming wealthier Is its society modernizing Is it becoming more technologically sophisticated Are social outcomes improving for the broad mass of the public The process of development policy implementation however is always and inevitably political Put simply regime type matters when it comes to deciding on a course of development to follow Further political institutions matter When a government's institutional capacity is low the chances of success severely decline regardless of the merits of the development plan In The Oxford Handbook of the Politics of Development two of America's leading political scientists on the issue Carol Lancaster and Nicolas van de Walle have assembled an international cast of leading scholars to craft a broad state of the art work on this vitally important topic This volume is divided into five sections major theories of the politics of development organized historically e.g. modernization theory dependency theory the Washington consensus of policies without politics etc. key domestic factors and variables key international factors and variables political systems and structures and geographical perspectives inclusive of regional dynamics A comprehensive and cross regional examination on key issues of political development this Handbook not only provides an authoritative synthesis of past scholarship but also sets the agenda for future research in this discipline *The Routledge Handbook of Political Ecology* Tom Perreault, Gavin Bridge, James McCarthy, 2015-06-12 The Routledge Handbook of Political Ecology presents a comprehensive and authoritative examination of the rapidly growing field of political ecology Located at the intersection of geography anthropology sociology and environmental history political ecology is one of the most vibrant and conceptually diverse fields of inquiry into nature society relations within the social sciences The Handbook serves as an essential guide to this rapidly evolving intellectual landscape With contributions from over 50 leading authors the Handbook presents a systematic overview of political ecology's origins practices and core concerns and aims to advance both ongoing and emerging debates While there are numerous edited volumes textbooks and monographs under the heading political ecology these have tended to be relatively narrow in scope either as collections of empirically based mostly case study research on a given theme or broad overviews of the field aimed at undergraduate audiences The Routledge Handbook of Political Ecology is the first systematic comprehensive overview of the field With authors from North and South America Europe Australia and elsewhere the Handbook of Political Ecology provides a state of the art examination of political ecology addresses ongoing and

emerging debates in this rapidly evolving field and charts new agendas for research policy and activism The Routledge Handbook of Political Ecology introduces political ecology as an interdisciplinary academic field By presenting a state of the art examination of the field it will serve as an invaluable resource for students and scholars It not only critically reviews the key debates in the field but develops them The Handbook will serve as an excellent resource for graduate and advanced undergraduate teaching and is a key reference text for geographers anthropologists sociologists environmental historians and others working in and around political ecology

Cultivating Development David Mosse, 2004-11-20 What if development agencies and researchers are not driven by policy Suppose that the things that make for good policy policy that legitimises and mobilises political support in reality make it impossible to implement By focusing in detail on the unfolding activities of a development project in western India over more than ten years as it falls under different policy regimes this book takes a close look at the relationship between policy and practice in development David Mosse shows how the actions of development workers are shaped by the exigencies of organisations and the need to maintain relationships rather than by policy but also that development actors work hardest of all to maintain coherent representations of their actions as instances of authorised policy Raising unfamiliar questions Mosse provides a rare self critical reflection on practice while refusing to endorse current post modern dismissal of development

Crossing Borders Michael David-Fox, 2015-05-19 Crossing Borders deconstructs contemporary theories of Soviet history from the revolution through the Stalin period and offers new interpretations based on a transnational perspective To Michael David Fox Soviet history was shaped by interactions across its borders By reexamining conceptions of modernity ideology and cultural transformation he challenges the polarizing camps of Soviet exceptionalism and shared modernity and instead strives for a theoretical and empirical middle ground as the basis for a creative and richly textured analysis Discussions of Soviet modernity have tended to see the Soviet state either as an archaic holdover from the Russian past or as merely another form of conventional modernity David Fox instead considers the Soviet Union in its own light as a seismic shift from tsarist society that attracted influential visitors from the pacifist Left to the fascist Right By reassembling Russian legacies as he shows the Soviet system evolved into a complex intelligentsia statist form that introduced an array of novel agendas and practices many embodied in the unique structures of the party state Crossing Borders demonstrates the need for a new interpretation of the Russian Soviet historical trajectory one that strikes a balance between the particular and the universal

The Politics of Belonging in India Daniel J. Rycroft, Sangeeta Dasgupta, 2011-03-29 Since the 1990s the Indigenous movement worldwide has become increasingly relevant to research in India re shaping the terms of engagement with Adivasi Indigenous tribal peoples and their pasts This book responds to the growing need for an inter disciplinary re assessment of Tribal studies in postcolonial India and defines a new agenda for Adivasi studies It considers the existing conceptual and historical parameters of Tribal studies as a means of addressing new approaches to histories of de colonization and patterns of identity formation that have become visible since

national independence Contributors address a number of important concerns including the meaning of Indigenous studies in the context of globalised academic and political imaginaries and the possibilities and pitfalls of constructions of indigeneity as both a foundational and a relational concept A series of short editorial essays provide theoretical clarity to issues of representation resistance agency recognition and marginality The book is an essential read for students and scholars of Indian Sociology Anthropology History Cultural Studies and Indigenous studies Making New Nepal Amanda Thérèse Snellinger, 2018-04-03 One of the most important political transitions to occur in South Asia in recent decades was the ouster of Nepal's monarchy in 2006 and the institution of a democratic secular republic in 2008 Based on extensive ethnographic research between 2003 and 2015 Making New Nepal provides a snapshot of an activist generation's political coming of age during a decade of civil war and ongoing democratic street protests Amanda Snellinger illustrates this generation's entrance into politics through the stories of five young revolutionary activists as they shift to working within the newly established party system She explores youth in Nepali national politics as a social mechanism for political reproduction and change demonstrating the dynamic nature of democracy as a radical ongoing process **Politics of Water Conservation** Saurabh Gupta, 2015-10-01 This book examines the politics of rural development with special reference to watershed development interventions in the desert province of Rajasthan in India Watershed development and rainwater harvesting is one of the most significant rural development interventions in rainfed areas of India since the early 1990s A range of developmental actors including the state watershed department international donors NGOs and grassroots organisations are involved in sponsoring watershed development projects Using multi-sited ethnography and conversational interviews with the deliverers as well as recipients of development the book compares and contrasts the watershed interventions of the state and two different kinds of NGOs in Rajasthan While conventional studies on watershed development have focused on the evaluation of success or failure of particular projects whether implemented by the state or NGOs the book moves beyond this narrow analytical gaze to look at the roles agendas and interests of multiple development agencies often partnering together and sometimes competing with each other as part of what the author calls the watershed development regime Taking cue from watershed development and water conservation projects over the last two decades the book engages with the larger question of how of delivering development It examines the complex processes of cooperation competition negotiations contestations and conflicts between different stakeholders including the agents of development and differently positioned rural social groups in the context of Rajasthan The book demonstrates that the recent interventions in watershed development and rainwater harvesting have considerably shaped the politics of development in Rajasthan in a number of ways by becoming a site for the remaking of the state and its internal relations by disturbing the local hegemony in the countryside by creating new relations of patronage between diverse agents and recipients of development by increasing the associational capacity as well as creating new conflicts intra and inter village and by initiating competition and cooperation between the various

agents of development over control of local resources and power The Politics of Caste in West Bengal Uday Chandra, Geir Heierstad, Kenneth Bo Nielsen, 2015-09-25 This volume offers for the first time a comprehensive and in depth analysis of the making and maintenance of a modern caste society in colonial and postcolonial West Bengal in India Drawing on cutting edge multidisciplinary scholarship it explains why caste continues to be neglected in the politics of and scholarship on West Bengal and how caste relations have permeated the politics of the region until today The essays presented here dispel the myth that caste does not matter in Bengali society and politics and make possible meaningful comparisons and contrasts with other regions in South Asia The work will interest scholars and researchers in sociology social anthropology politics modern Indian history and cultural studies
