

The background of the book cover is a photograph of several oil pumpjacks (jackals) silhouetted against a bright, hazy sunset sky. The sky is filled with soft, golden clouds, and the sun is low on the horizon, creating a strong backlight effect. The pumpjacks are in the foreground, their dark forms contrasting sharply with the bright sky.

Regional Security In The Middle East:

Regional Security in the Middle East Zeev Maoz, 2013-06-17 Middle Eastern politics of the 1990s have been characterized by a drive towards peace Whether this is successful or not will depend on the negotiating process These articles discuss the challenges and provide some practical advice on how risks of failure could be avoided **Regional Security in the Middle East** ,

Building Regional Security in the Middle East Emily B. Landau, Tamar Malz, Zeev Maoz, 2004-11-23

Discussions on regional security were initiated in the Middle East in 1992 as part of the Middle East peace process The collapse of the Oslo process and other regional developments in the latter half of the 1990s have diminished hopes that the initial gains made in this direction might further develop as violence has again become the primary mode of effecting political changes in the region On the backdrop of this somewhat dismal current reality in the Middle East the rationale for this volume is that research into regional security structures should nevertheless be pursued When looking at the long term process of creating regional security setbacks are not unlikely The articles that make up this collection focus on the problems that have been encountered and possible directions for getting regional efforts back on track A special issue of the Journal of Strategic Studies Regional Security in the Middle East Pinar Bilgin, 2019-01-31 In this new and fully revised edition Pinar Bilgin provides an accessible yet critical analysis of regional security in the Middle East analysing the significant

developments that have taken place in the past years Drawing from a wide range of critical approaches to security the book offers a comprehensive study of pasts presents and futures of security in the region The book distinguishes itself from previous critical studies on regional security by opening up both region and security Different from those approaches that bracket one or the other this study takes seriously the constitutive relationship between inventing regions and conceptions and practices of security There is not one Middle East but many shaped by the insecurities of those who voice them This book focuses on how present day insecurities have their roots in practices that have throughout history been shaped by geopolitical inventions of security In doing so the book lays the contours of a framework for thinking critically about regional security in this part of the world This second edition of *Regional Security in the Middle East* is a key resource for students and scholars interested in International Relations and Political Science Security Studies and Middle East Studies *Building Regional Security in the Middle East* Zeev Maoz, Emily B Landau, Tamar Malz, 2003 **Regional Security in the Middle East** Charles Tripp, 1984 Sikkerhedspolitik i Mellem sten Israel og det pal stinensiske mindretal Saudiarabiens sikkerhedspolitiske forhold Regionens milit re trusler mod Israel Syriens sikkerhedspolitiske forhold Sovjetunionens udenrigspolitik overfor Iran og den Persiske Golf Tilstedev relsen af atomv ben i regionen *Regional Security Dialogue in the Middle East* Chen Kane, Egle Murauskaite, 2014-07-25 At this time of considerable political turmoil in the Middle East there is a pressing need to explore alternative frameworks for regional security The book discusses the Helsinki Process as one potentially relevant historical model to learn from The Helsinki Process began in a divided Europe in the early 1970s and

over 40 years achieved major successes in promoting cooperation between the Warsaw Pact and NATO member states on social human rights security and political issues In this volume established Middle East experts former diplomats and emerging scholars assess the regional realities from a broad range of perspectives and with the current momentum for reform across the Middle East chart a path towards a comprehensive mechanism that could promote long term regional security Providing a gamut of views on regional threat perception and suggesting ways forward for regional peace this book is essential reading for students and scholars with an interest in Politics the Middle East and Conflict Studies **Regional Security in the Middle East** ,1997 *Building Regional Security in the Middle East* Emily B.
