Cooperation and Hegemony in US-Latin American Relations Andrew R. Tillman, 2016-03-29 This edited volume revisits the idea of the Western Hemisphere First articulated by Arthur P Whitaker in 1954 but with origins in the earlier work of Herbert E Bolton it is the idea that the peoples of this Hemisphere stand in a special relationship to one another which sets them apart from the rest of the world Whitaker 1954 For most scholars of US Latin American relations this is a curious concept They often conceptualize US Latin American relations through the prism of realism and interventionism While this volume does not deny that the United States has often acted as an imperial power in Latin America it is unique in that it challenges scholars to re think their preconceived notions of inter American relations and explores the possibility of a common international society for the Americas especially in the realm of international relations Unlike most volumes on US Latin American relations the book develops its argument in an interdisciplinary manner bringing together different approaches from disciplines including international relations global and diplomatic history human rights studies and cultural and intellectual history

Post-Hegemonic Regionalism in the Americas Jose Briceno-Ruiz, Isidro Morales, 2017-01-20 Regionalism in Latin America and the Caribbean has experienced transformations over the last few years After more than a decade of a hegemonic model based solely on free market principles the regional and global transformation that occurred in the first decade of the new millennium modified the way of understanding economic development and the insertion of regional blocs in global affairs Old initiatives have been reconsidered new schemes have emerged and new principles going beyond trade issues have modified the norms and processes of regional economic integration This book reviews these recent transformations to depict and explain the new trends shaping regional blocs and cooperation in the Americas

Regionalism in Hard Times Mario Telò, 2016-09-01 Brexit confirms that the EU is not a super state in the making but rather an advanced regional organization This book bridges the gap between EU studies and international relations by providing a student friendly presentation of regional multidimensional cooperation among neighbouring states and societies its four epochs and relevant variations and similarities across five continents its interplay with globalization and the changing post hegemonic and post Cold War international order This text secondly focuses on the question of regionalism in hard times whether the global financial crisis and multipolar power politics are leading to more competitive and political forms of instrumental regionalism and interregionalism in Europe East Asia and the Americas It does this by addressing the political and strategic dimensions of changing regional interregional arrangements and their current and potential impact on global governance notably on trade and security challenges
