Comedy and the Woman Writer Judy Little, 2015-08-01 Recent critics have affirmed the difficulty perhaps the impossibility of defining modern comedy at the same time some feminist scholars are seeking to understand the special comedy often present in literature written by women Comedy and the Woman Writer responds to both these concerns of recent criticism feminist literary theory and theories of comedy Judy Little develops a critical apparatus for identifying feminist comedy in recent fiction especially the radical political and psychological implications of this comedy and then applies and tests her theory by examining the novels of Virginia Woolf and Muriel Spark Despite recent scholarly attention to Woolf the profound comedy of her work has been largely overlooked and the comic fiction of Spark has seldom had the responsible and attentive criticism that it deserves The introductory chapter draws upon anthropology and sociology as well as literary criticism and the fiction of feminist writers such as Woolf Doris Lessing and Monique Wittig to define a modern feminist comedy Four central chapters then explore the implications of this comedy in the novels of Woolf and Spark Little distinguishes between on the one hand several varieties of traditional comedy and satire and on the other the festive or liminal comedy to which feminist comedy belongs Both Woolf and Spark mock centuries old mythic patterns and behaviors deriving from basic social norms as well as the values emerging from these norms It is one thing the author points out to find manners amusing to scourge vices or to mock the follies of lovers it is a much more drastic act of the imagination to mock the very norms against which comedy has traditionally judged vices follies and eccentricities While the comedy of Woolf and Spark has some precedent in festive or liminal celebrations during which even basic values and behavior are abandoned feminist comedy displays its radical nature by implying that there is no resolution to the inverted overturned world the world in revolutionary transition The final chapter considers briefly in the light of the critical model of feminist comedy the work of several other twentieth century writers including Jean Rhys Penelope Mortimer and Margaret Drabble The presence of radical comedy in the fiction of these and other writers suggests the need for continuing attention to the theory of feminist comedy proposed in this study

American Women's Regionalist Fiction Monika Elbert, Rita Bode, 2021-01-04 American Women's Regionalist Fiction Mapping the Gothic seeks to redress the monolithic vision of American Gothic by analyzing the various sectional or regional attempts to Gothicize what is most claustrophobic or peculiar about local history Since women writers were often relegated to inferior status it is especially compelling to look at women from the Gothic perspective The regionalist Gothic develops along the line of difference and not unity thus emphasizing regional peculiarities or a sense of superiority in terms of regional history natural landscapes immigrant customs folk tales or idiosyncratic ways The essays study the uncanny or the haunting quality of the commonplace as Hawthorne would have it in his introduction to *The House*

of the Seven Gables in regionalist Gothic fiction by a wide range of women writers between ca 1850 and 1930 This collection seeks to examine how if the regionalist perspective is small limited and stultifying and leads to Gothic moments or whether the intersection between local and national leads to a clash that is jarring and Gothic in nature *A Gendered Collision* Rhonda S. Pettit, 2000 As documented in her poetry and fiction Parker's modernism moves beyond a narrow set of aesthetic principles it carries the remnants from a collision of competing values those of nineteenth century sentimentalism and twentieth century decadence and modernism Her works display the intense dynamic in which early twentieth century literature and art were created **BOOK JACKET** **Imagining New England** Joseph A. Conforti, 2003-01-14 Say New England and you likely conjure up an image in the mind of your listener the snowy woods or stone wall of a Robert Frost poem perhaps or that quintessential icon of the region the idyllic white village Such images remind us that as Joseph Conforti notes a region is not just a territory on the ground It is also a place in the imagination This ambitious work investigates New England as a cultural invention tracing the region's changing identity across more than three centuries Incorporating insights from history literature art material culture and geography it shows how succeeding generations of New Englanders created and broadcast a powerful collective identity for their region through narratives about its past Whether these stories were told in the writings of Frost or Harriet Beecher Stowe enacted in historical pageants or at colonial revival museums or conveyed in the pages of a geography textbook or Yankee magazine New Englanders used them to sustain their identity revising them as needed to respond to the shifting regional landscape *Awakenings* Bernard Koloski, 2009-12 No other American book was so maligned neglected for so long and then embraced so quickly and with such enthusiasm as Kate Chopin's 1899 novel *The Awakening* For the twelve scholars whose essays make up this collection reading the novel was a life changing event *Awakenings* explains how as graduate students and young college instructors they carried out some of the basic research thought through some of the critical approaches and developed some of the present directions for reading studying and teaching Kate Chopin a foundation narrative that focuses on what happened a generation ago and why **The Academic's Handbook** A. Skeptical Feminism Carolyn Dever, 2004 In this major work Carolyn Dever considers the ambivalence or outright hostility many feminists feel toward theory arguing that a fundamental skepticism toward abstraction has been vital to the development of the movement Dever analyzes the politics of feminist theory by looking at its popular activist and academic modes from the liberation movements of the 1970s to gender and queer studies now Using key moments in the history of modern feminism consciousness raising best selling books like *Sexual Politics* by Kate Millett and *The Women's Room* by Marilyn French and media representations of women's struggle for equality Dever outlines heated debates over psychoanalysis sexuality and activism The abstract and the grounded converge in discussions about the relationship between the feminist mind and the feminist body and in the preoccupation both uneasy and utopian with lesbian sexuality Powerful
