Regionalization Of The World Economy:

The Regionalization of the World Economy Jeffrey A. Frankel, 2007-12-01 Regional economic arrangements such as free trade areas FTAs customs unions and currency blocs have become increasingly prevalent in the world economy Both pervasive and controversial regionalization has some economists optimistic about the opportunities it creates and others fearful that it may corrupt fragile efforts to encourage global free trade Including both empirical and theoretical studies this volume addresses several important questions Why do countries adopt FTAs and other regional trading arrangements To what extent have existing regional arrangements actually affected patterns of trade What are the welfare effects of such arrangements Several chapters explore the economic effects of regional arrangements on patterns of trade either on price differentials or via the gravity model on bilateral trade flows In addition this book examines the theoretical foundation of the gravity model Making extensive use of the gravity model of bilateral trade several chapters explore the economic effects of regional arrangements In addition this book examines the theoretical foundation of the gravity model *The World Economy* Marjan Svetlicic, 1996-08-12 The process of globalization can be seen in the increase of trade interdependence the importance of global multinational corporations mobility and volatility of capital flows with dangers demonstrated by the recent Mexican crisis This globalization creates both dangers and new opportunities both winners and losers The parallel growth of regional blocs is equally hazardous particularly for countries left outside the regional blocs The book with contributions by eminent experts describes the impact of both globalization and regionalization and the relationship between these two dominant trends *Regionalization and Globalization in the Modern World Economy* Alex E. Fernandez Jilberto, Andre Mommen, 2002-01-22 This collection explores the importance of regionalization and globalization to the world economy particularly questioning whether the world economy is characterized by increasing regionalization rather than globalization International contributors explore the processes in the Pacific area the Americas Africa and Europe and make an important contribution to current debates in development economics **Regionalization in the World Economy** Van R. Whiting, 1996 This book is an outcome of a joint research project of the Institute of the Americas La Jolla California the Centre for US Mexico Studies San Diego the Graduate School of Interrelations and Pacific Studies at the University of California San Diego and The Regionalization of the World Economy and Consequences [sic] for Southern Africa Heribert Dieter, 1997 *Regionalization and Globalization in the Modern World Economy* Alex E. Fernández Jilberto, André Mommen, 2017-03-16 Originally published in 1998 This collection of outstanding essays explores the importance of regionalization and globalization to the world economy International contributors explore the process of regionalization in the Pacific Area The Americas Africa and Europe and question whether the world economy is characterized by increasing regionalization rather than globalization The book is an excellent contribution to debate on development economics It investigates how the processes of globalization and regionalization driven by liberalization of trade and capital markets

weaken nationally established monopolies and protected industries and it looks at the challenge to Third World nations and the countries of the former socialist bloc
