Geography of the South Asian Subcontinent Aijazuddin Ahmad, 2009 This book attempts to explore the possibility of discovering the roots of unity of the South Asian countries Describing the nations nationalities and nationalism in Afghanistan Pakistan Bangladesh Nepal Bhutan Srilanka Maldives and India It makes a comprehensive study of their geographical features shared history and political evolution Taking a close look at their shifting identities it also presents a detailed account of their society and social formations ethnic antecedents race and caste regions and regionalism culture realms languages and economic as well as human development **The Sufis of Bijapur, 1300-1700** Richard Maxwell Eaton, 2015-03-08 The Sufis were heirs to a tradition of Islamic mysticism and they have generally been viewed as standing more or less apart from the social order Professor Eaton contends to the contrary that the Sufis were an integral part of their society and that an understanding of their interaction with it is essential to an understanding of the Sufis themselves In investigating the Sufis of Bijapur in South India he author identifies three fundamental questions What was the relationship he asks between the Sufis and Bijapur s ulama the upholders of Islamic orthodoxy Second how did the Sufis relate to the Bijapur court Finally how did they interact with the non Muslim population surrounding them and how did they translate highly developed mystical traditions into terms meaningful to that population In answering these questions the author advances our knowledge of an important but little studied city state in medieval India Originally published in 1978 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 The Oriental, the Ancient and the Primitive Jack Goody, 1990-02-08 Continuing the comparative survey of pre industrial family formation undertaken in *The Development of Family and Marriage in Europe* 1983 Professor Goody looks in depth at kinship practice in Asia His findings cause him to question many traditional assumptions about the primitive East and he suggests that in contrast to pre colonial Africa kinship practice in Asia has much in common with that prevailing in parts of pre industrial Europe Goody examines the transmission of productive and other property in relation

both to the prevailing political economy and to family and ideological structures and explores the distribution of mechanisms and strategies of management across cultures The book concludes that notions of western uniqueness are often misplaced and that much previous work on Asian kinship has been unwittingly distorted by the application of concepts and approaches derived from other inappropriate social formations
