Rehabilitation Of The Severely Brain Injured Adult A Practical Approach:

Rehabilitation of the Severely Brain Injured Adult Gordon Muir Giles, Jo Clark-Wilson, 1998-06-01 *Handbook of Neurological Rehabilitation* Richard J. Greenwood, Thomas M. McMillan, Michael P. Barnes, Christopher D. Ward, 2005-08-16 Provides an invaluable resource for all professions that work with patients suffering from neurological disorders A Practical Approach to Interdisciplinary Complex Rehabilitation E-Book Cara Pelser, Helen Banks, Ganesh Bavikatte, 2022-02-01 The interdisciplinary team IDT approach is the most effective approach in complex physical rehabilitation but implementing a successful IDT can be challenging This new book will help readers to understand more about the variety of professions that contribute to successful IDT working and how team members work together for the benefit of the rehabilitation patient and their personalised goals This is a comprehensive practical evidence based guide to complex rehabilitation from an IDT perspective exploring the dynamic and diverse roles and challenges of the team The fifteen chapters are written by clinicians who are highly experienced across a range of disciplines and settings from early acute rehabilitation to community rehabilitation A Practical Approach to Interdisciplinary Complex Rehabilitation will be an invaluable resource for all members of the team including medical nursing dietetics neuropsychiatry occupational therapy physiotherapy psychology rehabilitation coordination speech and language therapy and vocational rehabilitation therapy Covers a wide range of different complex rehabilitation settings and clinical conditions Reflective questions in each chapter to inform practice within an IDT User friendly and easy to read Case studies explore how a successful IDT works in practice

Rehabilitation of the Severely Brain-injured Adult Ian Fussey, Gordon Muir Giles, 1988 *Rehabilitation of Persons with Traumatic Brain Injury* Ronald L. Gorden, 1998 Neurobehavioural Disability and Social Handicap Following Traumatic Brain Injury Tom M. McMillan, Rodger Ll. Wood, 2013-11-12 Persisting neurobehavioural disability follows many forms of serious brain injury and acts as a major constraint on social independence Rehabilitation services are often not organised in a way which addresses the needs of people with such disability and relatively few professionals have experience in the clinical management of complex disability patterns which comprise the neurobehavioural syndrome This book is a compilation of chapters written by a group of clinicians with experience of post acute brain injury rehabilitation to ameliorate the social handicap experienced by a growing number of people who survive serious brain injury The aim of the book is to describe the nature of neurobehavioural disability how it translates into social handicap and what can be done to address the problems generated by such handicap through social and behavioural rehabilitation vocational training and family education Consideration is also given to evaluating post acute rehabilitation methods and selecting the most appropriate form of rehabilitation both in terms of clinical and cost effectiveness The book is aimed at clinical psychologists psychiatrists and neurologists working in brain injury rehabilitation plus all the rehabilitation disciplines and social workers The book will also be of interest to relatives of brain injured people who are seeking a better knowledge base in order to understand

neurobehavioural disability Additionally the book should be helpful to the growing number of therapy care assistants case managers and support workers responsible for the day to day care of brain injured people in the community

Neuropsychological Rehabilitation Barbara A. Wilson,2005-09-23 This book brings together theoretical and clinical aspects of Neuropsychological Rehabilitation Following an introductory chapter and a brief history of Neuropsychological Rehabilitation there are chapters on specific cognitive deficits attention executive deficits memory and language The next section addresses rehabilitation of emotional social and behavioural disorders Then comes a section on specific groups of people children people with dementia and people in reduced states of awareness Although the main focus of the book is on adults with non progressive brain injury these other groups are included as NR is being increasingly employed with them The book concludes with a chapter on systems of service delivery and another on the future of NR Thus this book covers a number of aspects of NR and is broader in outlook than most existing books in this area It presents current practice techniques in cognitive rehabilitation from a conceptual and theoretical perspective It offers both clinicians and researchers a sense of the research and theory underlying current clinical applications The main audience will be clinical neuropsychologists especially those working in rehabilitation Other audiences include clinical psychologists working with people who have mental health problems schizophrenia or are elderly occupational therapists speech and language therapists and rehabilitation doctors It is likely that some social workers nurses psychiatrists and neurologists will also want to read the book

Cognitive Rehabilitation in Perspective Rodger Ll. Wood,Ian Fussey,2018-10-03 Originally published in 1990 this book constitutes an objective evaluation of different cognitive rehabilitation techniques in relation to different types of brain injury at different stages of recovery Various forms of cognitive rehabilitation are reviewed and clinical techniques are evaluated on the basis of their ability to restore functional independence or produce behaviour change and improve aspects of cognitive ability

Clinical Neuropsychology Laura H. Goldstein,Jane E. McNeil,2012-04-04 Featuring updates and revisions the second edition of *Clinical Neuropsychology* provides trainee and practicing clinicians with practical real world advice on neuropsychological assessment and rehabilitation Offers illustrated coverage of neuroimaging techniques and updates on key neuro pathological findings underpinning neurodegenerative disorders Features increased coverage of specialist areas of work including severe brain injury frontotemporal lobar degeneration assessing mental capacity and cognitive impairment and driving Features updated literature and increased coverage of topics that are of direct clinical relevance to trainee and practicing clinical psychologists Includes chapters written by professionals with many years experience in the training of clinical psychologists
