Reinterpreting Modern Culture An Introduction To Friedrich Nietzsches Philosophy:

Reinterpreting Modern Culture Paul Von Tongeren,2011 Reinterpreting Modern Culture Paul van Tongeren,2000 Attempts to elucidate the philosophy of Friedrich Nietzsche through the experience of his writings After a chapter devoted to Nietzsche s style and the proper way to read the philosopher chapters focus separately on his thoughts on knowledge and reality morality and politics and religion Each chapter presents fairly lengthy selections from Nietzsche s works in both German and English and then proceeds to comment on the texts with the help of additional brief selections Paper edition available 1 55753 157 9 24 95 Annotation copyrighted by Book News Inc Portland OR *Nietzsche's Philosophy of Life Affirmation* Michael J. McNeal,2024-12-23 This anthology broadly examines the interrelated roles of art science and experimentation in Nietzsche s philosophical project It is divided into two parts the first organized around the theme of experimentally reconceiving our world the second investigating the aforementioned subjects in Nietzsche s free spirit or middle period works Together the essays comprising the book underscore Nietzsche s concern that experimentation with values ultimately provide humankind with a new wherefore or purpose Wide ranging in its scope this volume brings together a diverse group of scholars working in both the analytic and continental traditions to provide original insights into Nietzsche s thought A unique contribution to the scholarship it deepens understanding of the relationship between Nietzsche s critiques of art and science the role this relationship plays in his futural thought and the experimental life affirming practices that his free spirit project may enable toward the transfiguration of humankind Nietzsche's Philosophy of History Anthony K. Jensen,2013-07-04 Nietzsche the so called herald of the philosophy of the future nevertheless dealt with the past on nearly every page of his writing Not only was he concerned with how past values cultural practices and institutions influence the present he was plainly aware that any attempt to understand that influence encounters many meta historical problems This comprehensive and lucid exposition of the development of Nietzsche s philosophy of history explores how Nietzsche thought about history and historiography throughout his life and how it affected his most fundamental ideas Discussion of the whole span of Nietzsche s writings from his earliest publications as a classical philologist to his later genealogical and autobiographical projects is interwoven with careful analysis of his own forms of writing history the nineteenth century paradigms which he critiqued and the twentieth century views which he anticipated The book will be of much interest to scholars of Nietzsche and of nineteenth century philosophy *Nietzsche's Free Spirit Philosophy* Rebecca Bamford,2015-09-29 This wide ranging and inspiring volume of essays explores Nietzsche s philosophy of the free spirit Nietzsche begins to articulate his philosophy of the free spirit in 1878 and it results in his most congenial books including *Human all too Human* *Dawn or Daybreak* and *The Gay Science* It is one of the most neglected aspects of Nietzsche s corpus yet crucially important to an understanding of his work Written by leading Nietzsche scholars from Europe and North America the essays in this book explore topics such as the kind of freedom practiced by the free spirit the free spirit s

relation to truth the play between laughter and seriousness in the free spirit period texts integrity and the free spirit health and the free spirit the free spirit and cosmopolitanism and the figure of the free spirit in Nietzsche's later writings This book fills a significant gap in the available literature and will set the agenda for future research in Nietzsche Studies

Friedrich Nietzsche and European Nihilism Paul van Tongeren, 2018-11-14 This book is a thorough study of Nietzsche's thoughts on nihilism the history of the concept the different ways in which he tries to explain his ideas on nihilism the way these ideas were received in the 20th century and ultimately what these ideas should mean to us It begins with an exploration of how we can understand the strange situation that Nietzsche about 130 years ago predicted that nihilism would break through one or two centuries from then and why despite the philosopher describing it as the greatest catastrophe that could befall humankind we hardly seem to be aware of it let alone be frightened by it The book shows that most of us are still living within the old frameworks of faith and therefore can hardly imagine what it would mean if the idea of God as the summit and summary of all our epistemic moral and esthetic beliefs would become unbelievable The comfortable situation in which we live allows us to conceive of such a possibility in a rather harmless way while distancing ourselves from explicit religiosity we still maintain the old framework in our scientific and humanistic ideals This book highlights that contemporary science and humanism are not alternatives to but rather variations of the old metaphysical and Christian faith The inconceivability of real nihilism is elaborated by showing that people either do not take it seriously enough to feel its threat or when it is considered properly suffer from the threat and by this very suffering prove to be attached to the old nihilistic structures Because of this paradoxical situation this text suggests that the literary imagination might bring us closer to the experience of nihilism than philosophy ever could This is further elaborated with the help of a novel by Juli Zeh and a play by Samuel Beckett In the final chapter of the book Nietzsche's life and philosophy are themselves interpreted as a kind of literary metaphorical presentation of the answer to the question of how to live in an age of nihilism

Nietzsche's Engagements with Kant and the Kantian Legacy Marco Brusotti, Herman Siemens, João Constâncio, Tom

Bailey,2017-02-23 Nietzsche has often been considered a thinker independent of the philosophy of his time and radically opposed to the concerns and concepts of modern and contemporary philosophy But there is an increasing awareness of his sophisticated engagements with his contemporaries and of his philosophy s rich potential for debates with modern and contemporary thinkers Nietzsche s Engagements with Kant and the Kantian Legacy explores a significant field for such engagements Kant and Kantianism Bringing together an international team of established Nietzsche scholars who have done extensive work in Kant contributors include both senior scholars and young upcoming researchers from a broad range of countries and traditions Working from the basis that Nietzsche is better understood as thinking with and against Kant and the Kantian legacy they examine Nietzsche s explicit and implicit treatments of Kant Kantians and Kantian concepts as well as the philosophical issues that they raise for both Nietzschean and Kantian philosophy Divided into three volumes the focus is on specific areas and texts of Kant s philosophy Nietzsche Kant and the Problem of Metaphysics Nietzsche and Kantian Ethics Nietzsche and Kant on Aesthetics and Anthropology Each volume draws extensively on the flourishing recent literature from both analytic and continental traditions in English German and other languages By responding to scholarly interest in the critical relations between Nietzsche and Kant this series of volumes presents the first systematic study of the pairing of two major European thinkers from the modern period

Elemental Encounters in the Contemporary Irish Novel Claire McGrail Johnston,2019-12-19 The underlying premise of this book is that reading is touching Words leap out of their beds and pierce flesh like a knife Storytelling breathes within the dynamic of encounters with air fire earth and water permeated by emotion imagination and touch These ideas are contextualized within ancient community rituals social justice gatherings pedagogical practices and map making The four elements are retrieved from exile as imaginative corporeal and generative substances that operate within stories like medicine bundles Reading becomes a Deleuzian enterprise of health a challenging experience that grasps Paulo Freire s generative themes and is simultaneously thought provoking and valuable The capacious literary space capable of housing this sensual ferment is the novel More verb than noun the novel is an elemental bundle that engages with flesh in all its manifestations This book spotlights Irish novels by John Banville and Mary Morrissy exploring how they revitalise the elements with sensual social and tactile textures

A Nietzschean Bestiary Christa Davis Acampora,Ralph R. Acampora,2004 A Nietzschean Bestiary gathers essays treating the most vivid lively animal images in Nietzsche s work such as the howling beast of prey Zarathustra s laughing lions the notorious blond beast
