intentan asociar un nombre de autor a cada texto en una concordancia ideal entre la obra y su creador Sin embargo son

numerosos los casos de autores que se sustraen a la mirada del lector La autorialidad no constituye necesariamente el

atributo de un sujeto puede estratificarse involucrando a otros actores de la producción de lo escrito Las modalidades de

presencia del autor también son múltiples mientras unos tienden a difuminarse mediante el anonimato o el apócrifo otros se

manifiestan Este libro se propone renunciar al creador como instancia un voca para considerar los casos límite en que se

esquiva y definir las relaciones entre el autor y las diferentes figuras que reviste en la obra Dicha exploración de la ocultación

autorial se realiza a partir de textos españoles desde la Edad Media hasta el siglo XVIII antes de que el estatuto del autor sea

Cruz, 2017-08-14 In Spain the two hundred years that elapsed between the beginning of the early modern period and the final

years of the Habsburg Empire saw a profusion of works written by women Whether secular or religious noble or middle class

early modern Spanish women actively composed creative works such as poetry prose narratives and plays The Routledge

Research Companion to Early Modern Spanish Women Writers covers the broad array of different kinds of writings literary

as well as extra literary that these women wrote taking into consideration their subject positions and the cultural and

historical contexts that influenced and were influenced by them Beyond merely recognizing the individual women authors

who had influence in literary religious and intellectual circles this Research Companion investigates their participation in

these circles through their writings as well as the ways in which their texts informed Spain's cultural production during the

early modern period In order to contextualize women s writings across the historical and cultural spectrum of early modern Spain the Research Companion is divided into six sections of general thematic interest Women s Worlds Conventual Spaces Secular Literature Women in the Public Sphere Private Circles Women Travelers Each section is subdivided into chapters that focus on specific issues or topics

The Refracted Muse Enrique García Santo-Tomás,2017-08-08 Galileo never set foot on the Iberian Peninsula yet as Enrique García Santo Tomás unfolds in *The Refracted Muse* the news of his work with telescopes brought him to surprising prominence not just among Spaniards working in the developing science of optometry but among creative writers as well While Spain is often thought to have taken little notice of the Scientific Revolution García Santo Tomás tells a different story one that reveals Golden Age Spanish literature to be in close dialogue with the New Science Drawing on the work of writers such as Cervantes Lope de Vega Calderón de la Barca and Quevedo he helps us trace the influence of science and discovery on the rapidly developing and highly playful genre of the novel Indeed García Santo Tomás makes a strong case that the rise of the novel cannot be fully understood without taking into account its relationship to the scientific discoveries of the period

Moors Dressed as Moors Javier Irigoyen-García,2017-05-08 In early modern Iberia Moorish clothing was not merely a cultural remnant from the Islamic period but an artefact that conditioned discourses of nobility and social preeminence In *Moors Dressed as Moors* Javier Irigoyen-García draws on a wide range of sources archival legal literary and visual documents as well as tailoring books equestrian treatises and festival books to reveal the currency of Moorish clothing in early modern Iberian society Irigoyen-García s insightful and nuanced analyses of Moorish clothing production and circulation shows that as well as being a sign of status and a marker of nobility it also served to codify social tensions by deploying apparent Islamophobic discourses Such

luxurious value of clothing also sheds light on how sartorial legislation against the Moriscos was not only a form of cultural repression but also a way to preclude their full integration into Iberian society *Moors Dressed as Moors* challenges the traditional interpretations of the value of Moorish clothing in sixteenth and seventeenth century Spain and how it articulated the relationships between Christians and Moriscos **Historiografía valenciana** Francisco Almarache Vázquez, 1919
